20th Century Art: a Resource for Educators (in Acq) Stella Paul, 1999 Presents thirty one paintings with notes about the works strategies for discussion and writings by selected artists Accompanying videocassette is about the work *Water Stone* by Isamu Noguchi *Paul Klee* Annie Bourneuf, 2015-07-20 The book offers a new original look at the great European modernist Paul Klee and the interplay of word and image in the work he produced after WWI when the European avant garde was at its most adamant Bourneuf asks why was it that Klee immersed himself in crossings of image and text at the same time that so much avant garde art focused fiercely on the visual She proposes that Klee created forms that hover between the pictorial and the written to provoke the viewer to look slowly and contemplatively a mode of viewing the artist saw as both analogous to reading and threatened by new technological media such as film mass printing telephones and radio Bourneuf demonstrates how Klee's concern for the literary aspects of visual art is both the motive for and the means of his ironic play with modernist art theories and practices **The Making of Paul Klee's Career, 1914-1920** Otto Karl

Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O K Werckmeister traces Klee's career as a professional artist concentrating on the years 1914-20 in which Klee rose from obscurity to recognition in the visual culture of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee's sales reviews of his exhibitions the artist's published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee's transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee's success first in the war weary modernist art world of 1916-18 and then in the pseudo revolutionary art world of 1919-20 This work is a critical challenge to the myth of Klee's art and to the hagiography of his artistic personality Werckmeister's historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come

Pictures of the month Johann Widmer, 2022-08-02 Already a well known representative of the Arte Povera movement in the late 1990s Johann Widmer began to explore the field of abstract informal painting His credo was that all the arts including music and literature are important pillars of our civilisation and should therefore be made accessible to everyone by various means In addition to his extensive artistic output Johann Widmer has always written short stories for young and old But he avoids the term writer He sees himself more as an art mediator and is happy when his books are read Starting in August 2009 he dedicated a picture to each month which he accompanied with a matching text This book is therefore a compilation of the artistic work and the short stories and shows the monthly pictures as a collected work The texts are not intended to influence the viewer's own imagination when looking at the pictures but they may suggest a way of looking at the picture
