Of Humans, Pigs, and Souls Jadran Mimica, 2021-02-26 For the Yagwoia Angan people of Papua New Guinea womba is a malignant power with the potential to afflict any soul with cravings for pig meat and human flesh Drawing on long term research among the Yagwoia and in an analysis informed by phenomenology and psychoanalysis Jadran Mimica explores the womba complex in its local cultural existential determinations and regional permutations He attends to the lived experience of this complex in relation to the wider context of mortuary practices feasting historical cannibalism and sorcery His account of womba illuminates the moral meanings of Yagwoia selfhood and associated senses of subjectivity and agency Mimica concludes by reflecting on the recent escalation of concerns with witchcraft and sorcery in Papua New Guinea specifically in relation to a new wave of Christian evangelism occurring in partnership with the state

Dreaming of Animals Valerie Harms, 2005 What are the links between the inner world of our imagination emotions and thoughts and the outer world where we encounter animals Can it be that the psychological and ecological are one and the same This book shows how their convergence might alter our perception of community Currently the connection between people and animals appears dysfunctional because of the accelerated loss of species Since we will not save what we do not love this book seeks to restore the honor and importance of animals Dreams including daydreams thoughts ideas cultural myths and sleep dreams have positive and negative consequences in the world In order to help heal ourselves and the Earth this book dives deeply into the lives of many animals documents our relationship to them over time and shows how to work with dreams and dialogues A great emotion transforming in effect is released when we take the beauty and power of dream animals to heart

The Paleolithic Paradigm Terry Stocker, 2009-12 The Paleolithic Paradigm takes us one step further in the nature nurture debate Certainly a certain percentage of our behaviors are biologically based However culture has the power to override much in genetic commands The Amish exemplify this no matter how much we qualify them as quaint Painting with a wide post modern paint brush Stocker takes on a journey through four cultures to show how different people can be He offers the analogy our genetic structure is the framework of any house How we cover and decorate that frame is often the product of ancient traditions However we are all products of the same cognitive processes thus explaining why we take ideas put into our heads as children to the grave whether we accept them reject them or alter them It is this commonality the author examines

Accordingly he wants to know if we understand our cognition processes can we change our behavior at will **A Tale of Two Guinea Pigs** Lisa Maddock, 2009-04 **Children's Dreams** C. G. Jung, 2010-09-12 In the 1930s C G Jung embarked upon a bold investigation into childhood dreams as remembered by adults to better understand their significance to the lives of the dreamers Jung presented his findings in a four year seminar series at the Swiss Federal Institute of Technology in Zurich Children's Dreams marks their first publication in English and fills a critical gap in Jung's collected works Here we witness Jung the clinician more vividly than ever before and he is witty impatient sometimes authoritarian always wise and intellectually daring but also a teacher who though brilliant could be vulnerable uncertain and humbled by life's great mysteries These seminars represent the most penetrating account of Jung's insights into children's dreams and the psychology of childhood At the same time they offer the best example of group supervision by Jung presenting his most detailed and thorough exposition of Jungian dream analysis and providing a picture of how he taught others to interpret dreams Presented here in an inspired English translation commissioned by the Philemon Foundation these seminars reveal Jung as an impassioned educator in dialogue with his students and developing the practice of analytical psychology An invaluable document of perhaps the most important psychologist of the twentieth century at work this splendid volume is the fullest representation of Jung's views on the interpretation of children's dreams and signals a new wave in the publication of Jung's collected works as well as a renaissance in contemporary Jung studies **The Hidden Meaning of Dreams** Craig Hamilton-Parker, 1999 Psychological and mystical meanings of symbols in dreams The Navigator's Dream, Volume 2 Julia A. Turk, 2012-02-24 In volume one of Julia Turk's Navigators Dream series Riverlog we met the Navigatora psychiatrist seeking enlightenment in a dark world Through a mysterious series of events the Navigator fell into the world of tarot cards Once there our hero went head to head with seven strange birds twelve bizarre characters and a camel all different aspects of the mystical deck of cards who helped on the way to adventure and enlightenment In volume two the Navigator is back in the world of cards only this time it's time to meet royalty The Navigator comes to know the Court Cards of the mystic deck the Queens Kings Pages and Knights The Navigator travels from one castle to the next but in order to get through this strange world safely several difficult riddles must be solved that could spell life or death in the pages of fate The Court Cards are not easy to handle They have separate strong personalities that make them difficult to outsmart and difficult to put up with But the Navigator must make it through this new adventure to move on to the final voyage into the magical deck of tarot cards Although a work of fiction extensive knowledge of Hermetic Cabala and tarot is woven within to teach readers and entertain in this court intrigue of danger and death Your dreaming life How to understand ten thousand human dreams Gustavus Miller, 2017-11-12 The original guide to how to interpret your dreaming self covering ten thousand common dreams Indispensable revelatory sometimes shocking often consoling a guide to your deeper self The source of the dream interpretation books circulating today but fuller than most *Dreaming and the Imagination* Matthew D.

Newsom,2025-04-01 Of all the human behaviors anthropologists consider perhaps the most conceptually challenging are those that cannot be directly observed This volume draws from rich ethnographic data to offer theoretical and methodological tools for mapping the intersections between two such behaviors dreaming and imagination Although Western perspectives tend to cast these as personal experiences contained within individual minds each contributor explores diverse cultural and historical contexts to demonstrate how these behaviours are always in some sense cultural and influenced by social others The cross cultural approach suggests theoretical flexibility and expands the study of imagination across multiple disciplines *Dreams, Gender, and Artisanal Mining in Papua New Guinea* Dan Moretti,2025-10-01 Up to 200 000 Melanesian men women and children work as artisanal miners yet their lifeworlds are seriously under researched This ethnography of a multigenerational community of migrant miners in Papua New Guinea shows that dreaming mediates how they experience and manage gold mining Men argue that they alone can mine successfully by forming oneiric marriage bonds with the spirits of the land Women draw on their own dream experience to challenge this asserting their equal capacity to marry spirits and their right to mine For women and men alike dreams provide legitimations of agency and commentaries on mutual dependencies and moral obligations in the domestic domain and between humans and nonhumans *The Pigs' Slaughter* Florin Grancea,2010-11-23 The Pigs Slaughter is the story of how the events during the run up to Christmas Day 1989 changed a family and nation forever It skillfully reveals how beneath the drunken joy of the Romanian Revolution lies the true story of the deception of a nation and the world The story is told from the point of view of a 14 year old boy in a small Transylvanian town destined to become a journalist and learn the inside stories whose hindsight and flashforwards reveal to the reader the truth of which most of the story's protagonists are painfully unaware In a story that seamlessly weaves in relevant references to World War One and Two the French Revolution the Austro Hungarian Empire and even Vlad the Impaler the inspiration for Dracula's character is revealed an inside description of how the Eastern Block locked behind the Iron Curtain was finally dismantled page 4 of cover **Pigs of Paradise** T. R. Todd,2018-10-16 The Bahamas are famous for sun sand and swimming pigs National Geographic In the middle of paradise with billionaires and celebrities for neighbors is an island populated only by swimming pigs For decades this archipelago of 365 islands would remain largely unknown to the world It would not be a ruthless pirate pioneering loyalists a notorious drug kingpin or the infamous Fyre Festival that would unveil Exuma to the world but rather the most unlikely of creatures Appearing in magazines videos newspapers commercials TV shows and countless selfies the Swimming Pigs of Exuma in the Bahamas have become a bucket list sensation and have been named one of the marvels of the universe But how did they reach this celebrity status What made them so famous And why in February 2017 did so many of them die Pigs of Paradise is an unlikely story of humble beginnings and a swift rise to stardom With interviews from historians world renowned ecologists famous pig owners and boat captains it thoughtfully considers what this phenomenon says about not only these animals but also about us **The**

Logistics of Dreaming Jerry Nelson,2005-07 Mother Nature is in the business of writing software programs in DNA Dreaming is our software program and it is also how early Homo sapiens learned logic and the use of tools

Author Jerry DC Nelson is neither a scientist a doctor nor a physiologist just an engineer with a bottomless thirst for details on how everything works When some of his dreams became intriguing Nelson began to wonder why we dream What makes us dream and how do we dream During Nelson s search for answers he interviewed friends read books and articles on the dreaming brain and watched television programs pertaining to the functions of the brain In all his research he never found any satisfactory answers to the question of why we have these wonderful unique strange and bizarre dreams Then after recording hundreds of dreams he started to see particular patterns emerging which lead him to formulate several theories When Mother Nature was worked into the equation everything fell into place After having recorded more than 4 000 dreams and conducted many years of research Nelson is confident that he has enough detailed information to back up his theories on why we dream Logistics of Dreaming is his way of sharing some of Mother Nature s brilliancies concerning the dreaming brain
