Dreaming in Auschwitz Wojciech Owcarski, 2022-11-22 This book based on the descriptions of their dreams that former Auschwitz inmates wrote in 1973 provides a deep insightful explanation of the role of dreams in shaping the prisoners experiences It studies these testimonies from a broad interdisciplinary perspective analysing the psychological social anthropological narrative and even artistic dimensions of the reports The book characterises the content of the dreams and their possible meanings the manners in which the respondents sensed understood and described their dreams and the informants attitudes towards dreaming Among thousands of books about the Nazi atrocities this one is unique because it explores the Holocaust through the prism of dreams The dream descriptions serve here as an exceptional source of knowledge They often reveal not only an image of the camp reality but also the truth that remained unconscious incomprehensible and unspeakable for the dreamers themselves As such this text will serve to open a completely new way of thinking and writing about the Holocaust
