Gratchev, Howard Mancing, 2017-11-06 This book is a unique scholarly attempt to examine *Don Quixote* from multiple angles to see how the reaccentuation of the world's greatest literary hero takes place in film, theatre, and literature. To accomplish this task, eighteen scholars from the USA, Canada, Spain, and Great Britain have come together, and each of them has brought his/her unique perspective to the subject. For the first time, *Don Quixote* is discussed from the point of reaccentuation, i.e. having in mind one of the key Bakhtinian concepts that will serve as a theoretical framework. A primary objective was therefore to articulate, relying on the concept of reaccentuation, that the history of the novel has benefited enormously from the reaccentuation of *Don Quixote*, helping us to shape countless iconic novels from the eighteenth century and to see how Cervantes's title character has been reinterpreted to suit the needs of a variety of cultures across time and space.
