Equine Cultures in

Transition Jonna Bornemark, Petra Andersson, Ulla Ekström von Essen, 2019-01-10 Societal views on animals are rapidly changing and have become more diversified can we use them for our own pleasure and how should we understand animal agency These questions asked both in theoretical discourses and different practices are also relevant for our understanding of horses and the human horse relation *Equine Cultures in Transition* stands as the first volume to bring together ethical questions of the new field of human horse studies For instance what sort of ethics should be developed in relation to the horse today an egalitarian ethics or an ethics that builds upon asymmetrical relations How can we understand the horse as a social actor and as someone who just like the human being becomes through interspecies relations Through which methods can we give the horse a stronger voice and better understand its becoming These questions are not addressed from a medical or ethological perspective focused on natural behaviour but rather from human acknowledgement of the horse as a sensing feeling acting and relational being and as a part of interspecies societies and relations Providing an introductory yet theoretically advanced and broad view of the field of post humanism and human animal studies *Equine Cultures in Transition* will appeal to students and researchers interested in fields such as human animal studies political sociology animals and

ethics animal behaviour anthropology and sociology of culture It may also appeal to riders and other practitioners within different horse traditions *Indian Literary Review* ,1953 Masters of Equitation on Trot ,2001 This book explores the enormous value of the trot in schooling and suppling the horse and explains how the natural trot of a recently backed horse is developed into the working gait which will later form the basis for collection and extension Trot is the gait at which much of a horse s general schooling is carried out It is most suited to this purpose since it is more impulsive than walk and less complex than canter As a consequence of its diagonal nature all four legs perform an equal amount of work and the back muscles flex and extend alternately on each side of the spine producing an overall suppling effect If the trot is to fulfil its role as the training gait it must be of good quality and should improve and develop as training progresses Of course this improvement and development may go far beyond the bounds of the working trot to spectacular extensions and the ultimate levels of collection as seen in piaffe and passage however in this treatise the emphasis is fundamentally upon the development of the working trot and its role as the foundation of training Masters of Equitation on Trot is essential reading for all riders who wish to lay the correct foundations for their horses schooling and will fascinate all readers interested in equestrian history

Fined Four Pounds, Licence Removed Alistair Brooks,2004 Here is a set of tales that are as refreshing as they are revealing They begin in an ancient blizzard torn farmhouse in England s West Country at the height of the Second World War and they end 60 years later beside an Aboriginal campfire in the Northern Territory of Australia These 22 tales take us on an intimate journey through the life of an ordinary individual Yet the talented style of their telling with their numerous connecting threads of pathos serendipity music adventure religious curiosity comedy horses and high drama draws the reader onwards inexorably and irresistibly In this his first book Alistair Brooks provides us with an absorbing and notable autobiographical achievement For his is a broad and colourful canvas portraying his very personal voyage of self discovery and the influences and opportunities that have wrought the many changes in his life The tales leave one with the feeling his life has been everything but ordinary and that he has enjoyed his living of it immensely A rare claim these days Compelling reading **British Book News** ,1983 *How to Win at Pocket Billiards* Edward D.
