**Drink and British Politics Since 1830** J. Greenaway, 2003-06-10 The issue of alcohol has never been far from British politics Initially governments needed to control its sale for public order reasons and because it was a major source of revenue Then in Victorian times a powerful temperance movement arose which sought to prohibit or severely curb the Demon Drink This in turn aroused the hostility of the Trade and the issue became one of fierce electoral politics After 1890 drink was interpreted more as a social reform question and then in the First World War after a major moral panic far reaching measures of direct state control were imposed in the interests of national efficiency Later in the Twentieth century alcohol use came to be seen as an aspect of leisure and town planning and more recently as a health issue Drawing upon a wide range of primary sources John Greenaway uses the complex politics of the issue to shed light upon the changing political system and to test various theories of the policymaking process Both historians and political scientists will be interested in this study

**Veteran MPs and Conservative Politics in the Aftermath of the Great War** Richard Carr, 2016-03-03 Between 1918 and 1939 448 men who performed uniformed service in the First World War became Conservative MPs This relatively high profile cohort have been under explored as a distinct body yet a study of their experiences of the war and the ways in which they and the Conservative Party represented those experiences to the voting public reveals much about the political culture of Interwar Britain and the use of the Great War as political capital Radicalised ex servicemen have thus far been considered a rather continental phenomenon historiographically And whilst attitudes to Hitler and Mussolini form part of this analysis the study also explores why there were fewer such types in Britain The Conservative Party it will be shown played a crucial part in such a process with British politics serving as a contested space for survivors interpretations of what the war should mean

The Politics of Drink in England, from Gladstone to Lloyd George David M. Fahey, 2022-01-25 This book is about alcoholic drink political parties and pressure groups From the 1870s into the 1920s excessive drinking by urban workers frightened the major political parties They all wanted to reduce the number of public houses It was not easy to find a way that would satisfy temperance reformers many of them prohibitionists and the licensed drink trade Brewers demanded compensation when pubs were closed but temperance reformers were vehemently opposed to this The book highlights a prolonged struggle of vested interests and ideologies in this regard showing that a Royal Commission in 1899 helped break the stalemate In a controversial deal brewers got compensation but they had to pay for closing some of their own pubs Later during the First World War the government experimented with an alternative to closing public houses disinterested or non commercial management and considered State Purchase of the entire drink trade

**Alcohol, Power and Public Health** Shane Butler, Karen Elmeland, Betsy Thom, James Nicholls, 2017-03-16 In recent years the reduction of alcohol related harm has emerged as a major policy issue across Europe Public health advocates supported by the World Health Organisation have challenged an approach that targets problem drinking individuals calling instead for governments

to control consumption across whole populations through a combination of pricing strategies restrictions on retail availability and marketing regulations Alcohol Power and Public Health explores the emergence of the public health perspective on alcohol policy in Europe the strategies alcohol control policy advocates have adopted and the challenges they have faced in the political context of both individual states and the European Union The book provides a historical perspective on the development of alcohol policy in Europe using four case studies Denmark England Scotland and Ireland It explores the relationship between evidence values and power in a key area of political decision making and considers what conditions create or prevent policy change The case studies raise questions as to who sets policy agendas how social problems are framed and defined and how governments can balance public health promotion against both commercial interests and established cultural practices This book will be of interest to academics and researchers in policy studies public health social science and European Union studies

Teaching 'Proper' Drinking? Maggie Brady, 2017-12-12 In Teaching Proper Drinking the author brings together three fields of scholarship socio historical studies of alcohol Australian Indigenous policy history and social enterprise studies The case studies in the book offer the first detailed surveys of efforts to teach responsible drinking practices to Aboriginal people by installing canteens in remote communities and of the purchase of public hotels by Indigenous groups in attempts both to control sales of alcohol and to create social enterprises by redistributing profits for the community good Ethnographies of the hotels are examined through the analytical lens of the Swedish Gothenburg system of municipal hotel ownership The research reveals that the community governance of such social enterprises is not purely a matter of good administration or compliance with the relevant liquor legislation Their administration is imbued with the additional challenges posed by political contestation both within and beyond the communities concerned The idea that community or government ownership and management of a hotel or other drinking place would be a good way to control drinking and limit harm has been commonplace in many Anglophone and Nordic countries but has been less recognised in Australia Maggie Brady's book brings together the hidden history of such ideas and initiatives in Australia In an original and wide ranging set of case studies Brady shows that success in reducing harm has varied between communities largely depending on whether motivations to raise revenue or to reduce harm are in control Professor Robin Room Director Centre for Alcohol Policy Research La Trobe University

Lantzer,2014-11-20 Interpreting the Prohibition Era at Museums and Historic Sites chronicles the rise and fall of one of the greatest attempted reforms in American History Why were Americans so worried about alcohol Why did they seek to ban an entire industry How did those involved in the trade react How did repeal come about How should we remember the noble crusade Such questions are important both for historians and museums who seek to interpret the Prohibition Era as well as for the general public who wants to know more about the Roaring Twenties and how it continues to shape the United States today Case studies cover Breweries Reformers Women Saloons both before and after Prohibition Gamblers and gumshoes This guide will help museum and history professionals make sense of a complex story relate the history and legacy of political pressure groups and help learners think about the era in new ways      *The Nation* ,1887      **Government's alcohol strategy** Great Britain: Parliament: House of Commons: Health Committee,2012-07-19 The main focus of the alcohol strategy is binge drinking and its consequences for anti social behaviour Those are important issues but the health impact of chronic alcohol misuse is also significant and greater emphasis needs to be placed on addressing that impact In order to be effective the Strategy needs some clearer objectives to provide a framework for both policy judgements and accountability The Committee recommends that Public Health England should have a central role in developing these objectives and linking them to local strategies in every area across the country The Committee supports the decision to introduce a minimum unit price for alcohol but a transparent process must be put in place in order to ensure that the price level is evidence based and is monitored to assess its effectiveness The Committee concludes that the Responsibility Deal is intrinsic to responsible corporate citizenship but it is not a substitute for Government policy the alcohol industry needs to acknowledge that its advertising messages do have an effect on attitudes if it wishes to be seen as a serious committed partner in the Responsibility rules on alcohol advertising should be re examined to reduce the likelihood of adverts influencing young people under 18 Public Health England should undertake an evaluation of the effectiveness of the Responsibility Deal and should commission a study into the principles and implications of introducing the French Loi Evin the Department of Health s work on which models of treatment provision are most effective in addressing the health issues caused by alcohol abuse is welcome      Transactions Sanitary Institute of Great Britain,1888      Essays: Moral, Political, and Literary: My own life; Letter from Adam Smith to William Strahan; History of the editions; List of editions; Essays pt.
