Drinking Cultures Alcohol And Identity:

Drinking Cultures Thomas M. Wilson, 2005 **Food, Drink and Identity in Europe**, 2016-08-01 Scholars across the humanities and social sciences are increasingly examining the importance of consumption to changing notions of local regional national and supranational identity in Europe As part of this interest anthropologists historians sociologists and others have paid particular attention to the roles which food and drink have played in the construction of local regional and national identity in Europe This volume provides the first multidisciplinary look at the contributions which food and alcohol make to contemporary European identities including the part they play in processes of European integration and Europeanization It provides theoretically informed ethnographic and historical case studies of transformations and continuity in social and cultural patterns in the production and consumption of European foods and drinks in order to explore how eating and drinking have helped to construct various local regional and national identities in Europe Of particular note in this volume is its attention to how food and drink intersect with recent attempts to foster greater European integration in part through the recognition and support of common and diverse European cultures and identities **The Politics of Historical Memory and Commemoration in Africa** Cassandra Mark-Thiesen, Moritz Mihatsch, Michelle Sikes, 2021-12-06 Essays in Memory of Jan Georg Deutsch The volume observes some of the principles that drove Prof Jan Georg Deutsch's research highlighting present day politics for the way they shape historical remembrance learning from people on the ground through fieldwork and oral history and bringing various parts of the African continent into discussion with one another From Cape Town to Charlottesville many societies are grappling with historical consciousness and the production of public memory In particular how and why societies remember and forget what should serve as symbols of collective memory and whether there exists space for multiple memory cultures are questions being vigorously debated once again These discussions present particular challenges not only to official memory bound to ideological constructions of nationhood but also to the teaching of history and its links to social justice movements The volume re-centres Africa and African history in memory studies with each chapter drawing parallels to comparable cases in Africa and the world An underlying assumption is that what can be learned from the politics of historical memory in Africa will have relevance for contemporary politics globally and for understanding how memories can be mobilised for political ends *Wine Drinking Culture in France* Marion Demossier, 2010-07-15 This book provides a new interpretation of the relationship between consumption drinking culture memory and cultural identity in an age of rapid political and economic change Using France as a case study it explores the construction of a national drinking culture the myths symbols and practices surrounding it and then through a multisited ethnography of wine consumption demonstrates how that culture is in the process of being transformed Wine drinking culture in France has traditionally been a source of pride for the French and in an age of concerns about the dangers of binge drinking a major cause of jealousy for the British Wine drinking and the culture associated with it are for many an essential

part of what it means to be French but they are also part of a national construction Described by some as a national product or as a totem drink wine and its attendant cultures supposedly characterise Frenchness in much the same way as being born in France fighting for liberty or speaking French Yet this traditional picture is now being challenged by economic social and political forces that have transformed consumption patterns and led to the fragmentation of wine drinking culture The aim of this book is to provide an original account of the various causes of the long term decline in alcohol consumption and of the emergence of a new wine drinking culture since the 1970s and to analyse its relationship to national and regional identity

Drinking Cultures Thomas M. Wilson, 2005-05 Contributors look at alcohol consumption across cultures and what it means to the people who consume or equally tellingly refuse to consume Alcohol plays a role in a wide range of functions religious familial social and even political and this is a cross cultural study of the profound impact alcohol has on national identity *Youth Drinking Cultures* Margaretha Järvinen, Robin Room, 2017-03-02 How can binge drinking be explained and understood Is alcohol consumption related to the particular cultural characteristics of some European countries Should heavy drinking cultures be seen as a mainstream youth phenomenon or as marginal and is this different in different countries A team of leading researchers addresses these questions and more in their analysis of the alcohol consumption patterns of European young people Alcohol consumption is an important marker of transition from childhood to early adulthood yet the timing intensity and purpose of adolescent drinking varies dramatically between countries The contributors provide cross national comparisons to investigate how drinking behaviour varies examining factors such as gender societal context and family socio economic backgrounds *Youth Drinking Cultures* offers a comprehensive set of perspectives on adolescent drinking in Europe In linking issues around social identity and the life course with a highly topical area of media and policy concern the book will be of great value to sociology and social policy scholars especially youth researchers and also to professionals working with young people

Reconfiguring Drinking Cultures, Gender, and Transgressive Selves Emeka W. Dumbili, 2024-03-23 This book presents an in depth analysis of young people s experiences of diverse drinking practices including heavy drinking and drunkenness as fun and pleasurable as they navigate gendered leisure spaces Using qualitative data elicited through semi structured interviews and focus group discussions the analysis engages with theories and concepts of culture gender and transgression to foreground the roles that socio cultural and material elements and human agency play in shaping alcohol consumption in contemporary Nigeria It focuses on the enactment of hyper heterosexual and alternative masculinities and the reconfigurations of passive and non passive femininities through drinking practices It also interrogates how and why multinational alcohol companies are targeting Nigerian women and youths and the extent to which their activities are contributing to changing gendered drinking and sexual practices which are at odds with the extant local norms that promote abstinence moderation among adults and sexual purity among unmarried youths Importantly this book moves beyond solely Western theorizing by drawing on both Western and non Western gender theories

to analyze how contemporary Nigerian young men and women do masculinity and femininity with alcohol and will be a valuable resource for social scientists students policymakers practitioners and the general public interested in youth drinking behaviours multinational alcohol companies activities and decolonizing gender scholarship *Youth Drinking Cultures in a Digital World* Antonia Lyons,Tim McCreanor,Ian Goodwin,Helen Moewaka Barnes,2017-02-24 Social media has helped boost the culture of intoxication a central aspect of young people s social lives in many Western countries Initial research suggests that these technologies enable highly nuanced targeted marketing and innovations creating new virtual spaces that alter the dynamics and consequences of drinking cultures in significant ways *Youth Drinking Cultures in a Digital World* focuses on how pervasive social networking technologies contribute to drinking cultures It brings together international contributions from leading researchers in this emerging field to explore how new technologies are reconfiguring the key themes traditional interests practices and concerns of alcohol related research with young people It is particularly concerned with three important areas namely identities social relations and power alcohol marketing and commercialisation public health and regulating alcohol promotion This innovative book includes original research and commentary and is a must read for academics and researchers in the areas of public health psychology sociology media studies youth studies and alcohol studies

Structural Intimacies Sonja Mackenzie,2013-06-06 One of the most relevant social problems in contemporary American life is the continuing HIV epidemic in the Black population With vivid ethnographic detail this book brings together scholarship on the structural dimensions of the AIDS epidemic and the social construction of sexuality to assert that shifting forms of sexual stories structural intimacies are emerging produced by the meeting of intimate lives and social structural patterns These stories render such inequalities as racism poverty gender power disparities sexual stigma and discrimination as central not just to the dramatic disproportionate spread of HIV in Black communities in the United States but to the formation of Black sexualities Sonja Mackenzie elegantly argues that structural vulnerability is felt quite literally in the blood in the possibilities and constraints on sexual lives and in the rhetorics of their telling The circulation of structural intimacies in daily life and in the political domain reflects possibilities for seeking what Mackenzie calls intimate justice at the nexus of cultural economic political and moral spheres *Structural Intimacies* presents a compelling case in an era of deepening medicalization of HIV AIDS public health must move beyond individual level interventions to community level health equity frames and policy changes *Drink, Power, and Society in the Andes* Justin Jennings,Brenda J. Bowser,2019-11-02 For more than two thousand years drinking has played a critical role in Andean societies This collection provides a unique look at the history ethnography and archaeology of one of the most important traditional indigenous commodities in Andean South America fermented plant beverages collectively known as chicha The authors investigate how these forms of alcohol have played a huge role in maintaining gender roles kinship bonds ethnic identities exchange relationships and status hierarchies They also consider how shifts in alcohol production exchange and consumption have precipitated social change Unique

among foodways studies for its extensive temporal coverage Drink Power and Society in the Andes also brings together scholars from diverse theoretical methodological and regional perspectives *Cultures of Intoxication* Fiona

Hutton,2020-01-25 This book considers the global discourses and debates about intoxication engaging in critical academic discussion around this concept The problems in defining intoxication are considered alongside the meanings of intoxication and how these meanings often differ across diverse drug using populations The way that intoxication has been engaged with over the centuries has affected how particular groups are perceived and responded to resulting in punitive responses such as drug prohibition alongside harsh treatment of those who are seen to transgress societal norms and values Therefore this collection seeks to unsettle dominant discourses about intoxication and to consider this concept in new critical ways Ways of being intoxicated are also defined in this book in their broadest sense from energy drinks and other legal drugs to recreational use of illicit drugs such as ecstasy to problematic drug use **Routledge Handbook of Intoxicants and**

Gender-responsive approaches to the acceptability, availability and affordability of alcohol. Brief 11 World Health Organization, 2024-03-07 Gender related norms persist in our societies including in the consumption of alcohol Despite knowing that men and women consume alcohol differently and are affected by its harm differently alcohol control policies remain essentially gender blind Highly gendered approaches to alcohol marketing and gender differences in patterns of alcohol consumption and its associated harm are well documented Relatively little evidence has examined the different effects of population level alcohol control policies on different genders and even less has addressed how gender intersects with socioeconomic status age ethnicity and other factors Experiences from countries illustrate gendered approaches being used by the alcohol industry Brazil and the United States and the innovative ways that governments and civil society organizations are tackling the gendered effects of alcohol consumption This includes promoting employment outside the alcohol industry United Republic of Tanzania developing gender specific supports for alcohol consumption Pakistan and Scotland mobilizing civil society to enforce marketing bans Sri Lanka and creating culturally sensitive and culturally embedded policies Aotearoa New Zealand There is a clear need for policy relevant research that supports an increased understanding of what works for gender responsive approaches to reduce the harm caused by alcohol consumption

The Challenge of Legal Pluralism Marc Simon Thomas, 2016-09-13 Within the Latin American context legal pluralism is often depicted as a dichotomy between customary law and national law In addition the use of customary law alongside national law is frequently portrayed as a vehicle of resistance This book argues that because ordinary Indians are not positively biased in favor of customary law per se a heterogeneity of legal practices can be observed on a daily basis which consequently undermines the commonly held view of customary law as a counter hegemonic strategy even if on other socio geographical levels this thinking in terms of resistance holds true Based on qualitative research the work analyzes how internal conflicts among indigenous inhabitants of the Ecuadorian highlands are being settled in a situation of formal legal pluralism and what can be learned from this in terms of Indian state relationships It is shown that on a local level the phenomenological dimension of legal pluralism can be termed interlegality On a macro level ontological assumptions underscore that legal pluralism is still seen as a dichotomy between customary and national law Multidisciplinary in nature the book will be of interest to academics and researchers working in the areas of Legal Pluralism Cultural Anthropology and Latin American Studies
