of the government The Author offers a third party alternative for those enterprising Americans who pay for the public sector and do not currently have fair representation or input to the system that has caused many fiscal social and foreign relation problems that face this nation of 313 million citizens It is not entitlement reform that we need but rather government reform Any tax reform should eliminate taxes on adjusted taxable income and replace it with a flat 5 percent annual capital assessment on individual and corporate net worth The new entitlements are eroding the American work ethic and need to be replaced with real private sector jobs that create a true return on our gross national product The American Dream is built on work ethic The will to work in a free market is inherited from their forefathers but sustained by each of them While our country is on the verge of bankruptcy Congress and State Legislatures enacted over 40 000 new laws in 2010 costing 250 billion borrowed dollars we dont have plus 700 billion in stimulus 1 2 trillion for Obama Care and turned on the Federal Reserve printing presses for another 1 trillion for enforcement unfunded public service pensions salary raises for themselves and the bureaucrats To make things worse the Federal and State Governments understate their deficits by using the cash basis of accounting For example the Federal deficit is 123 trillion after factoring in accounts payable and pension debt These pension systems are extraordinarily diverse in design investment policy and governance and they face substantial challenges as the government sector workforce ages and governments are asked to take on new and different tasks The new entitlements need a major overhaul To avoid depriving enterprise of much needed capital to create jobs we need to reduce American workers dependency on unemployment benefits minimum wage workers compensation food stamps welfare and Obama Care Obama Care will use enforcement agencies for collecting taxes and waste depleted tax revenues treating illness not pursuing wellness
