Antoaneta L. Dimitrova

Driven To Change The European Unions Enlargement Viewed From The East:

Driven to Change Antoaneta L. Dimitrova, 2004 Will joining the European Union help achieve prosperity stability and democracy in Central and Eastern Europe This book addresses this question by analysing how the European Union has approached this enlargement Specifically the book shows how in its enlargement to the East the European Union has tried to guide the post communist states of Central and Eastern Europe towards new institutions and changing rules In addressing the little explored link between post communist transformations and enlargement the book presents the effects of enlargement governance extended by the EU on domestic processes of reform and transformation With its rich empirical overview of the reform challenges to various sectors the author presents various scenarios of the interaction of EU rules with post communist reform In contrast to other books on enlargement this one relies on the perspective of scholars from Eastern Europe to illustrate the importance of the accession process to reform

Enlargement of the European Union Allan F. Tatham, 2009-01-01 The development of EU enlargement has raised many thorny issues unanticipated by the framers of the EC Treaty A significant upshot of these issues is that the concept of European identity defined in terms of such factors as culture history and economics has supplanted the long dominant theme of widening and deepening particularly since the Union s expansion has become primarily eastward The major contribution of this important book lies in its analysis of the conceptualization and perception of enlargement from various points of view focusing on the concerns of stakeholders and the identity conflicts and uncertainties incurred by enlargement initiatives In the course of its presentation it details the actual pre accession Europeanization process and its complex history Among the key elements discussed are the following the conflict between widening and deepening and the effect on EU institutional reform institutional requirements on candidate countries pre accession criteria and negotiations administrative capacity judicial capacity and legal approximation in accession states capacity of the EU to absorb new Member States and EC law as part of European identity Also covered are specific historical details of particular pre accession negotiations e g Greece Spain Portugal Malta and Cyprus the still inconclusive negotiations with Turkey and the Western Balkan states and political factors involved in the non accession of Norway Iceland and Switzerland Assembling powerful evidence and applying incisive analysis the author s conclusion shows that absent further and major EU institutional reform it will be difficult for an enlarging Union to continue to deliver the goods A watershed in the continuing great debate on the fulfilment of the EC Treaty s determination to foster and promote an ever closer union of the peoples of Europe this book will prove invaluable to anybody interested in the European integration project particularly lawyers academics officials and policymakers in the EU Member States

Elgar Encyclopedia of European Union Public Policy Paolo R. Graziano, Jale Tosun, 2022-12-13 A holistic and extensive exploration of both the dynamic and incremental changes in EU public policy and the decision processes surrounding them this Elgar Encyclopedia is the definitive reference work in the field of EU public policy

Central and Eastern Europe After Transition Wojciech

Sadurski,2016-04-08 How have national identities changed developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post transitional phase of the post Communist area and considers their impact on constitutions democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions

Company Law in the New Europe Janet Dine,Marios Koutsias,Michael Blecher,2007-01-01 This study on the potential of law to ensure the social responsibility of a company is an innovative and important study It is a topical contribution to the sociology of market economies in transition It is a unique effort to provide detailed practical guidance for the design of the company law in developing economies in general and the new Europe in particular Christian Joerges European University Institute Florence Italy This book provides comprehensive analysis of the recent enlargement of the EU shedding light on the rationale behind the EU s decisions to enlarge examining the side effects these choices have on a range of EU policies and particularly on the effect of the Acquis on candidate countries Emphasis is placed on the area of company law which occupies a central part in a country s economic planning and therefore its commercial law Past enlargements are thoroughly explained and the potential impact of the new political landscape in Europe in the wake of the popular rejection of the European Constitutional Treaty on future enlargements is evaluated A comparative methodology for commercial law drafting in transition and developing economies is put forward and the book concludes with a complete draft of a model company law for transition and developing economies The aim is to provide a template for discussion This book will be of great interest to those interested in considering the influence that the prospect of EU membership has on transition countries in general the emphasis being on laws vital to emerging market economies particularly commercial and company law

The Balkans and Caucasus Ivan Biliarsky,Ovidiu Cristea,Anca Oroveanu,2012-01-17 The overall character of the Black Sea region has been defined over time in various ways For specialists in economy and trade it has represented a region at the crossroads of the trade routes between Europe and Asia for political scientists and historians it has been a space of confrontation between the great terrestrial and naval powers for the scholars attentive to its cultural dimensions it has been a contact zone a space of interaction between different peoples religions and cultures These attempts at a definition all revolve around an essential and ambivalent feature of the Black Sea as a factor of connection a bridge and at the same time a border a dividing line between Europe and Asia between the Baltic and the Mediterranean region In this fluctuation between

the two the predominance of one over the other bridge or border has depended on a number of factors first among them the distribution of power relations in the region This volume which originated in a symposium hosted by the New Europe College Institute for Advanced Study in Bucharest brings together contributions coming from scholars within the Black Sea region and outside it in an attempt to look at the Balkans and Caucasus from a comparative and multi disciplinary perspective highlighting their differences as well as their common features The overarching question this volume and the papers included in it address and leave open is to what extent we are dealing with a coherent zone whose past present and future can legitimately be considered as being traversed by meaningful interrelations suggesting a shared destiny

Democratizing Central and Eastern Europe Luca Tomini, 2015-05-22 At first it was believed that accession to the EU would have a positive effect on the process of democratization in former communist countries However over time it became clear that difficulties with the democratic system endured in a number of these countries This book reconsiders the results of the process of democratization in Central and Eastern Europe and evaluates the nature and effectiveness of the Europeanization process It comparatively explores the process of democratic consolidation and accession to the European Union in Poland Slovakia and Bulgaria Using these case studies the book assesses the impact of the EU on the accountability and integrity of governments in this part of Europe This text will be of key interest to scholars and students of democratization studies European studies EU studies transition studies area studies and international relations

The European Union Steven P. McGiffen, 2005-10-20 The political dynamics of the European Union can often appear confusing shrouded as they are in complex legislative processes This book offers a clear and thorough critical introduction to the origins development and current direction of the EU and pinpoints the major policy debates animating decision makers This revised and updated edition offers a well illustrated analysis of each of the EU's major policy areas and covers arguments both for and against the EU McGiffen explores subjects including enlargement internal and external security the Euro trade the environment employment transport and regional policy He explains how and why the debate about membership is frequently and falsely presented as if it were a conflict between nationalism and internationalism and argues instead that the EU is merely one of a number of possible solutions to the economic and political problems facing Europe Published in association with Spectre

International Society and Europeanism Guillermo A. Pérez Sánchez, David Ramiro Troitiño, Ricardo Martín de la Guardia, Tanel Kerikmäe, 2025-03-01 This pioneering volume examines Europeanism in the new international society that emerged after the First World War through the League of Nations with a focus on the countries of Central and Eastern Europe CEE the Baltic countries and the Balkans The book analyzes how Europeanism was consolidated as an argument for the future especially after the Second World War when the three strong ideas of Europeanism came to fruition peace among Europeans good democratic government and the socioeconomic welfare of peoples By doing so this book offers a comprehensive overview of the evolution of Europeanism and its positive influence in the countries of Eastern Europe from the interwar period to the present day The book will appeal to researchers students and scholars of political science international relations European studies and history as well as policy makers interested in a better understanding of Europeanism and the European integration process of the CEE Baltic and Balkan countries

The Changing Face of Rural Space Julian Lampietti, David G. Lugg, Philip Van der Celen, Amelia Branczik, 2009-05-04 Although at different stages of development the countries of the Western Balkans Albania Bosnia and Herzegovina the former Yugoslav Republic of Macedonia Montenegro and Serbia face similar challenges in transforming and modernizing their agricultural food production agri food sectors Their rural sectors have lagged behind the rest of the economy in growth and poverty reduction their agri food sectors are undercapitalized and highly fragmented and their agro processing capacities limited Agricultural trade deficits are widening climate change is posing increasing risks to farm incomes and low cost imports and changing consumer preferences are further eroding competitiveness Added to this scenario are the challenges and opportunities of adopting the EU *acquis communautaire* relating to agriculture Based on

recent World Bank reports prepared in collaboration with the Food and Agriculture Organization of the United Nations and the European Commission Directorate General for Agriculture and Rural Development *The Changing Face of Rural Space Agriculture and Rural Development in the Western Balkans* identifies what is constraining agricultural competitiveness in these countries examines public expenditures in agriculture and diagnoses key challenges for agricultural policy makers The book expands on previous findings to provide a strategic policy framework for transforming and modernizing the agri food sector and in the context of region s ongoing process of integration with the European Union creating a dynamic rural space in the Western Balkans The book offers Western Balkan governments and international donors a shared vision of the goals and directions their agriculture and rural development policies and programs might take *The Financial Sector in the Enlarging European Union* Daniel Stavárek,2009-10-02 The present book is a collection of studies presented at the 10th International Conference on Finance and Banking which took place at Silesian University School of Business Administration in Karvin Czech Republic on October 19 20 2005 All papers presented at the conference have been peer reviewed and consequently the nine best papers that discuss issues corresponding with the book s focus have been selected by the editors for publication in this book In spite of the fact that the book is a collection of independent studies it represents a comprehensive and consistent work All studies book chapters are tied together by common references Through original research the book will cover various aspects of financial and banking sectors in new EU member countries giving a comparison of their development to financial sectors of developed countries Special attention is paid to prospective integration of the new EU member countries to the European Economic and Monetary Union and the implications for national economic policies Generally the book we are offering gives very deep insight into the financial sector of new EU member countries written by a very interesting group of authors It combines young and promising economists with respected researchers living in new as well as in traditional EU countries and working in various ways with the financial sector The book successfully pulls together theory and actual development of financial sectors in new EU member countries Moreover a rich blend of applied theory and actual practice makes the book attractive for a wide spectrum of readers *Public Policy and the New European Agendas* Fergus Carr,Andrew Massey,2006-01-01 This broad and all encompassing study focuses on Europe s new policy agendas It brings together international academic experts on a range of policies to discuss Europe s place in the world and its relationship to the USA and beyond This book concentrates on two key themes of particular salience for policy makers the enlargement of the EU and the place of Europe in international politics An expansive list of important policy areas within these themes is explored including enlargement political and constitutional implications and international socialization of central and eastern Europe Europe and the USA security and defence policy trade finance and development institutional development and external relations in justice and home affairs before and after September 11 international terrorism EU immigration and asylum and borders policy human rights and civil rights agriculture

environmental policy and regional policy pensions and ageing in Europe This book constitutes a major contribution to achieving a deeper understanding of European integration and the barriers to integration within the context of global and multi level governance As such it will be of enormous interest to an extensive audience including academics researchers students policy makers and practitioners in the fields of political studies international relations public policy European studies US studies and security studies

The Europeanization of Central and Eastern Europe Frank Schimmelfennig, Ulrich Sedelmeier, 2005 This book demonstrates the importance of the credibility and the costs of accession conditionality for the adoption of EU rules in Central and Eastern Europe

Democracy, Freedom and Coercion Alain Marciano, Jean-Michel Josselin, 2007-01-01 Democracy Freedom and Coercion is a welcome addition to the public choice literature It steps outside of the often used contractarian perspective and recognizes that all governments are ultimately based on coercion the volume s chapters make important contributions that should be of interest to public choice scholars engaged in this research program Benjamin Powell Public Choice The big picture here is the tension between coercion and freedom within democracy Each essay offers a view of this big picture through a different lens empirical theoretical comparative etc and also offers a different focus on the conceptualisation and measurement of power the legitimacy of economic democracy the identification of the developing pattern of democracy the impact of political violence etc But the essays combine well so that together they illuminate the big picture from a variety of perspectives Thought provoking and challenging an excellent read for anyone interested in the more detailed analysis of the issues that make up the big picture Alan Hamlin University of Manchester UK So much of the academic analysis of democracy focuses on agreement and ignores the fact that all government action ultimately is backed by coercion This volume offers a thoughtful examination of the inherent tensions between liberty and coercion that are an inevitable part of democratic government Randall G Holcombe Florida State University US States need to be strong in order to enforce private property rights yet this very strength can cause problems as representatives of the state can misuse it for their individual goals This dilemma of the strong state has been occupying political philosophers for centuries In this volume to which economists but also political scientists have contributed a number of new and unexpected variations on the topic are explored This makes the volume an exciting read Stefan Voigt University of Marburg Germany The contribution covers the niche between law and economics and the political theory of the state and its constitution Now we can integrate traditional political theory into our doctoral seminars in law and economics a long overdue step ahead J rgen G Backhaus Erfurt University Germany The essence of democratic power lies in the capacity to protect individual freedom while organizing the necessary coercion associated with any form of government Yet as the authors of this book maintain developing coercion in order to protect freedom and containing coercion in order to further protect freedom is an arduous task and one that faces any democratic Leviathan The aim of this book is to explore this paradox and to analyse the intricate balance of freedom and coercion in developing states In so doing it considers the

legal and institutional conditions under which coercion and violence are admitted and or permitted and how these conditions should be organized in order to preserve and develop freedom as far as possible Democracy Freedom and Coercion comprehensively covers both private and public law both applied and theoretical issues and will therefore be of great interest to students studying law and economics It will also serve as a reference tool to those academics in the field of legal competition especially from the perspective of European issues
