## **Droit International Public:**

**Droit international public** Jean Combacau, Serge Sur, 2016-09-27 Ce manuel traite de l'ensemble des questions essentielles du droit international : éléments de formation et techniques de réalisation, États, organisations internationales, sujets de droit interne, droit des espaces, responsabilité et droit du contentieux, droit de la paix et de la sécurité. Il présente le droit international comme le voient ses deux auteurs sous les aspects d'une discipline technique exigeante et qui loin de se cantonner dans la régulation des relations inter étatiques gouverne désormais dans une large mesure les conduites des particuliers. *Revue générale de droit international public*, 1894

**Cours général de droit international public**, 1973-09-19 The Academy is a prestigious international institution for the study and teaching of Public and Private International Law and related subjects. The work of the Hague Academy receives the support and recognition of the UN. Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law. The courses deal with the theoretical and practical aspects of the subject including legislation and case law. All courses at the Academy are in principle published in the language in which they were delivered in the *Collected Courses of the Hague Academy of International Law*. Principes de droit international public Alfred Chrétien, Paul Nachbaur, 1893

**Introduction au droit international public** Andreas Roland Ziegler, 2011 Complément des manuels d'usage du droit international, cette introduction se limite aux principes généraux et met l'accent sur les relations internationales. Présente brièvement la protection internationale des droits de l'homme, le droit des conflits armés, le droit de l'environnement et le droit international économique. Étudie la pratique des cours et des juridictions suisses en la matière. *Memento* Droit international public Samantha Besson, 2024-04-30 Ce précis propose une introduction au droit international public général et certains domaines choisis du droit international public spécial. Il couvre notamment l'histoire, la théorie, les sujets et les sources du droit international, mais aussi les relations entre droit international et droit interne, la responsabilité internationale, le règlement pacifique des différends, le droit international et européen des droits de l'homme, l'interdiction du recours à la force armée ainsi que le droit des conflits armés et de la neutralité. Présentée de manière concise, la matière est illustrée à l'aide de nombreux exemples, de citations de jurisprudence et d'extraits de documents officiels en langue originale. L'une des caractéristiques de l'ouvrage est de proposer en annexe une collection des résumés de la jurisprudence internationale européenne et suisse la plus importante. Conçu avant tout pour les étudiants et étudiants suisses, ce précis met en lumière différents aspects de la pratique suisse du droit international public. Il constituera dès lors aussi un outil de travail précieux pour les praticiennes et praticiens suisses confrontés des questions de droit international.

*Méthodologie du droit international public* Olivier Corten, 2009 Depuis plusieurs années, on assiste à un développement considérable du droit international. De plus en plus de domaines sont régis par ce droit, des règles de plus en plus nombreuses apparaissent, les jugements et les études scientifiques se multiplient. Dans ce contexte, il apparaît illusoire de prétendre connaître le détail de toutes les règles existantes, même dans

un domaine particulier qu'il s'agisse du droit des Nations unies des droits de la personne du droit de la mer du droit international humanitaire ou encore du droit économique international C'est pourquoi il paraît particulièrement important de disposer d'une méthode qui permette d'acquiescer de maîtriser et d'utiliser de nouvelles connaissances Pourtant aucun ouvrage de langue française n'a jusqu'ici été publié en méthodologie du droit international Ce texte a pour ambition de combler cette lacune il a été conçu à partir du cours de méthodologie de la recherche en droit international dispensé à l'Université libre de Bruxelles depuis 1997 Après avoir mis l'accent sur la diversité des approches méthodologiques en les mettant en lien avec les options théoriques qui les sous-tendent l'ouvrage comprend un chapitre centré sur la construction scientifique d'un sujet l'expérience montrant que les difficultés d'étude sont souvent dues à une conceptualisation préalable insuffisante Sont ensuite exposés des problèmes méthodologiques plus spécifiques relatifs aux sources du droit international avec un accent particulier sur la coutume ainsi que l'interprétation et l'application de ce droit Un dernier chapitre plus classique reprend quelques conseils relatifs à la rédaction d'un travail critique

**Droit international public: Les sujets de droit** Charles Rousseau, 1970 Droit international public Charles Rousseau v 1 The Roots of International Law / Les fondements du droit international, 2013-11-29 This collection of essays gathers contributions from leading international lawyers from different countries generations and angles with the aim of highlighting the multifaceted history of international law This volume questions and analyses the origins and foundations of the international legal system A particular attention is devoted to Hugo Grotius as one of the founding fathers of the law of nations Several contributions further question the positivist tradition initiated by Vattel and endorsed by scholars of the 19th Century This immersion in the intellectual origins of international law is enriched by an inquiry into the practice of the law of nations including its main patterns and changing evolution as well as the role of non-western traditions and the impact of colonization Le présent ouvrage réunit les contributions de juristes internationaux reconnus en vue de clarifier les multiples facettes de l'histoire du droit international public L'ouvrage analyse et questionne les origines et les fondements de l'ordre juridique international Une attention toute particulière est dédiée à Hugo Grotius l'un des premiers fondateurs du droit international D'autres contributions questionnent également la tradition positiviste initiée par Vattel et confortée par la doctrine du 19<sup>ème</sup> siècle Cette immersion dans les origines doctrinales du système juridique international est enrichie par l'étude de la pratique du droit international public son évolution ainsi que le rôle des traditions non occidentales et l'impact de la colonisation *Cours de droit international public* Frantz Despagne, 1894

croissante des problèmes qui ont pour cadre de solution la scène internationale et l'aspiration à un nouvel ordre international de solidarité et de justice n'ont pas remis en cause le statut de l'Etat souverain pierre angulaire du droit international. Comment l'Etat souverain est-il amené à assurer l'effectivité de la règle de droit laquelle en dernière analyse il a donné son assentiment tel est le pari du droit international public.
