The Oxford Handbook of Global Drug History Paul Gootenberg, 2022 This landmark collection of essays by thirty five historians working on a global scale brings together the latest knowledge and perspectives about the long origins and transformations of today s illicit drugs such as cannabis heroin and cocaine

Legalising the Drug Wars John Collins, 2021-12-02 Provides the first regulatory history of UN drug control and examines its enabling role in the modern war on drugs

The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016 The period spanning the two World Wars was unquestionably the most catastrophic in Europe s history Despite such undeniably progressive developments as the radical expansion of women s suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame

suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914 1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today

The Political Economy of Narcotics Julia Buxton,2013-07-04 This book explores the origins history and organisation of the international system of narcotic drug control with a specific focus on heroin cannabis and cocaine It argues that the century long quest to eliminate the production trade in and use of narcotic drugs has been a profound failure The statistics produced by the international and domestic narcotic drug control agencies point to a sustained expansion of the drug trade despite the imposition of harsh criminal sanctions against those engaged as producers traffickers or consumers in the narcotic drugs market The roots of this major international policy failure are traced back to the outdated ideology of prohibition which is shown to be counterproductive utopian and a fundamentally inadequate basis for narcotic drug policy in the twenty first century Prohibition championed by many US policy makers has left the international community poorly positioned to confront those changes to the drug trade and drug markets that have resulted from globalisation Moreover prohibition based approaches are causing more harm than good as is demonstrated through reference to issues such as HIV AIDS the environment conflict development and social justice As the drug control system approaches its centenary there are signs that the global consensus on narcotic drug prohibition is fracturing Some European and South American states are pushing for a new approach based on regulation decriminalisation and harm reduction But those seeking to revise prohibition strategies faces entrenched resistance primarily by the U S This important text argues that successive American governments have pursued a contradictory approach acting decisively against the narcotic drug trade at home and abroad while at the same time working with drug traffickers and producer states when it is in America s strategic interest As a result US policy approaches emerge as a decisive factor in accounting for the failure of prohibition

Child Rights and Drug Control in International Law Damon Barrett,2020-03-31 Responding to the harms caused by drugs is one of the most challenging social policy issues of our time In Child Rights and Drug Control on International Law Damon Barrett explores the meaning of the child s right to protection from drugs under the Convention on the Rights of the Child and the relationship between this right and the UN drug control conventions Adopting a critical approach the book traces the intersecting histories of the treaties the role of child rights in global drug policy discourse and the practice of the Committee on the Rights of the Child It invites us to reflect upon the potential for child rights to provide justification for state actions associated with wider human rights risks

Policing on Drugs Aileen Teague,2025-10-06 Internationally although the war on drugs is widely considered a failure it continues to be deeply entrenched in US diplomacy with partner nations through counternarcotics agreements continued

DEA presence overseas and the levels of antidrug aid directed abroad Policing on Drugs writes the history of the drug war from the Mexican perspective examining how the punitive prohibitive policies that have been enacted by the US government have impacted Mexico and its institutions over time This bilateral study helps explain how militarized policing came to be the primary approach to policing people and drugs in the second half of the twentieth century

Policing Drugs Steven Debbaut, 2025-05-08 Exploring the complex interplay between drug law enforcement and self legitimacy among police officers this book through ten months of ethnographic research in Belgian cities examines how drug detectives justify their role within a challenging landscape of moral social and legal dilemmas Chapters cover key theoretical frameworks including self legitimacy moral philosophy and policing culture alongside detailed interviews and field observations Readers gain insight into the motivations and ethical conflicts that shape policing practices revealing how officers navigate societal expectations the symbolic war on drugs and their own sense of moral duty Its insights into the eradication versus sanatorial drug discourse provide valuable perspectives on how enforcement strategies are informed by underlying social and cultural beliefs By analysing how detectives confront the limits of punitive approaches this study encourages a re evaluation of current drug policies and their effectiveness offering a nuanced view of the realities of drug policing in contemporary society Policing Drugs Legitimacy Practice and the Self Legitimacy of Drug Detectives is ideal for scholars policymakers and law enforcement professionals interested in criminal justice drug policy and police ethics

War Crimes Trials in the Wake of Decolonization and Cold War in Asia, 1945-1956 Kerstin von Lingen, 2016-11-04 This book investigates the political context and intentions behind the trialling of Japanese war criminals in the wake of World War Two After the Second World War in Asia the victorious Allies placed around 5 700 Japanese on trial for war crimes Ostensibly crafted to bring perpetrators to justice the trials intersected in complex ways with the great issues of the day They were meant to finish off the business of World War Two and to consolidate United States hegemony over Japan in the Pacific but they lost impetus as Japan morphed into an ally of the West in the Cold War Embattled colonial powers used the trials to bolster their authority against nationalist revolutionaries but they found the principles of international humanitarian law were sharply at odds with the inequalities embodied in colonialism Within nationalist movements local enmities often overshadowed the reckoning with Japan And hovering over the trials was the critical question just what was justice for the Japanese in a world where all sides had committed atrocities

Africa and the War on Drugs Neil Carrier, Gernot Klantschnig, 2012-10-11 Nigerian drug lords in UK prisons khat chewing Somali pirates hijacking Western ships crystal meth smoking gangs controlling South Africa's streets and narco traffickers corrupting the state in Guinea Bissau these are some of the vivid images surrounding drugs in Africa which have alarmed policymakers academics and the general public in recent years In this revealing and original book the authors weave these aspects into a provocative argument about Africa's role in the global trade and control of drugs In doing so they show how foreign inspired policies have failed to help African drug users but have strengthened the role of

corrupt and brutal law enforcement officers who are tasked with halting the export of heroin and cocaine to European and American consumer markets A vital book on an overlooked front of the so called war on drugs *Research Handbook on International Drug Policy* David R. Bewley-Taylor,Khalid Tinasti,2020-09-25 Analysing arguably one of the most controversial areas in public policy this pioneering Research Handbook brings together contributions from expert researchers to provide a global overview of the shifting dynamics of drug policy Emphasising connections between the domestic and the international contributors illustrate the intersections between drug policy human rights obligations and the 2030 Sustainable Development Agenda offering an insightful analysis of the regional dynamics of drug control and the contemporary and emerging problems it is facing **Drug Policies and the Politics of Drugs in the Americas** Beatriz Caiuby Labate,Clancy Cavnar,Thiago

Rodrigues,2016-07-30 This book is a collection of studies of drug policies in several Latin American countries The chapters analyze the specific histories of drug policies in each country as well as related phenomena and case studies throughout the region It presents conceptual reflections on the origins of prohibition and the War on Drugs including the topic of human rights and cognitive freedom Further the collection reflects on the pioneering role of some Latin American countries in changing paradigms of international drug policy Each case study provides an analysis of where each state is now in terms of policy reform within the context of its history and current socio political circumstances Concurrently local movements initiatives and backlash against the reformist debate within the hemisphere are examined The recent changes regarding the regulation of marijuana in the United States and their possible impact on Latin America are also addressed This work is an important up to date and well researched reference for all who are interested in drug policy from a Latin American perspective **US Foreign Policy and the War on Drugs** Cornelius Friesendorf,2007-02-22 This book examines the

geographic displacement of the illicit drug industry as a side effect of United States foreign policy To reduce the supply of cocaine and heroin from abroad the US has relied on coercion against farmers traffickers and governments but this has only exacerbated the world s drugs problems US Foreign Policy and the War on Drugs develops and applies a causal mechanism to explain the displacement analyzing US anti drug initiatives at different times and in various regions The findings clearly show that American foreign policy has been a major driving force behind the global spread of the illicit drug industry calling for urgent revision This book will be of interest to students of US foreign policy security studies and international relations in general Afghanistan Michael Cox,2022 Afghanistan has been in the headlines for many years but tragically for all the

wrong reasons First invaded by the Soviets in 1979 the country then experienced the trauma of civil war followed by yet another intervention this time by the United States and allies which ended with the West s ignominious withdrawal in August 2021 Afghanistan Long War Forgotten Peace examines multiple dimensions of what happened and why and what the future holds for the country now the Taliban are back in power Multidisciplinary in approach this book features analysts from a variety of academic disciplines including policy makers and public intellectuals many with direct experience of having lived

and worked in Afghanistan It explains why the Taliban finally triumphed what this means for Afghan society and how competing actors in the international system have reacted to the Taliban takeover Questions include whether the West's withdrawal represented a major or only a temporary setback for NATO and the United States and whether and how there can be any amelioration of the situation in Afghanistan itself The country and its people face multiple interrelated challenges including those of women's rights the drugs economies and human trafficking and exploitation This volume is essential reading for all those concerned with what happens in Afghanistan over the coming months and years the consequences for the Afghan people and for the rest of the world **Human Rights and Tobacco Control** Marie E. Gispén, Brigit

Toebes, 2020-08-28 Large scale adverse health and developmental outcomes related to tobacco affect millions of people across the world raising serious questions from a human rights perspective In response to this crisis this timely book provides a comprehensive analysis of the promotion and enforcement of human rights protection in tobacco control law and policy at international regional and domestic levels *From Silver to Cocaine* Steven Topik, Carlos Marichal, Zephyr

Frank, 2006-07-18 Claims that the history of commodities in Latin America or anywhere cannot be understood without considering their global context often from a long term perspective *We Sell Drugs* Suzanna Reiss, 2014-08 This history of US led international drug control provides new perspectives on the economic ideological and political foundations of a Cold War American empire US officials assumed the helm of international drug control after World War II at a moment of unprecedented geopolitical influence embodied in the growing economic clout of its pharmaceutical industry *We Sell Drugs* is a study grounded in the transnational geography and political economy of the coca leaf and coca derived commodities market stretching from Peru and Bolivia into the United States More than a narrow biography of one famous plant and its equally famous derivative products Coca Cola and cocaine this book situates these commodities within the larger landscape of drug production and consumption Examining efforts to control the circuits through which coca traveled Suzanna Reiss provides a geographic and legal basis for considering the historical construction of designations of legality and illegality The book also argues that the legal status of any given drug is largely premised on who grew manufactured distributed and consumed it and not on the qualities of the drug itself Drug control is a powerful tool for ordering international trade national economies and society's habits and daily lives In a historical landscape animated by struggles over political economy national autonomy hegemony and racial equality *We Sell Drugs* insists on the socio historical underpinnings of designations of legality to explore how drug control became a major weapon in asserting control of domestic and international affairs Drugs and Contemporary Warfare Paul Rexton Kan, 2009 The relationship between drugs and today's wars has grown more noticeable since the end of the Cold War and will likely gather strength in this era of increased globalization Many violent groups and governments have recently turned to illicit narcotics in their entrepreneurial quests to stay viable in the post Cold War world It is no coincidence that many of the most violent and ongoing conflicts from the Balkans to the Hindu Kush from the Andes

to the Golden Triangle occur in areas of widespread drug production and well traveled distribution routes Interdisciplinary in its approach *Drugs and Contemporary Warfare* investigates the convergence of drugs and modern warfare the violent actors involved in the drug trade the drugs they produce and distribute and how these drugs enter into battlefield conflicts and give rise to combat narcosis Paul Rexton Kan then examines counternarcotics operations and suggests solutions to curb the drug trade s effects on contemporary conflict He offers several broad strategies that refine assessments policies and operations to promote improvement in social economic and political conditions The hope is that these strategies will help citizens create sustainable societies and robust governments in war afflicted countries struggling under the drug trade s shadow In a world searching for peace the answer may not solely be on the battlefield but also on the front line against illegal narcotics With a foreword by Moïse Naim editor in chief of *Foreign Policy* magazine and the author of *Illicit How Smugglers Traffickers and Copycats Are Hijacking the Global Economy*
