Drugs And Crime In Lifestyle Perspective:

Drugs and Crime in Lifestyle Perspective Glenn D. Walters, 1994-03-11 This volume explores the correlation between drug abuse and crime. In examining the thinking and behavioural patterns common to both, it proposes a new explanatory model. Seeing involvement in drug abuse and crime as overlapping lifestyles, the author considers four primary factors: conditions, choices, cognitions, and change. By comparing this new model with existing models, Walters provides new insight into drug abuse, crime, and their overlap.

Drugs and Crime in Lifestyle Perspective Glenn D. Walters, 1994 Publisher supplied data. Glenn D. Walters's short book *Drugs and Crime in Lifestyle Perspective* is another gem; it works purposefully with the complexity and diversity of the drugs-crime linkages and connections, insisting that traditional ways of researching and intervening with those caught up in deviant lifestyles where drugs and crime are endemic are unproductive. This is a book for thinking practitioners and those concerned with creating local multi-agency policy or working with drug users and offenders selling or using drugs. It offers no easy assessments or solutions but is the more productive for that. Howard Parker in *British Journal of*

Understanding Drugs, Alcohol and Crime Trevor Bennett, Katy Holloway, 2005-04-16 Bennett and Holloway's *Understanding Drugs, Alcohol and Crime* is the best, most up to date and comprehensive examination for the United Kingdom of interactions among drugs, alcohol, and crime. The authors exhaustively and authoritatively survey current knowledge in the UK and from many other countries on drug and alcohol use as a cause and consequence of crime and the effects of law enforcement and treatment responses. Clearly written, unfailingly lucid, and admirably accurate, this book will be the indispensable work on British drug policy for many years to come. Professor Michael Tonry, University of Minnesota Law School, USA. What makes this book particularly interesting is the refreshingly non-judgmental presentation which conveys the essence of very important issues in contemporary society. Therefore, this is an ideal text not only for students but also for policy makers, drugs and alcohol counsellors, treatment agencies, and everyone interested in doing research on drugs, alcohol, and crime. Nicoletta Policek, University of Abertay Dundee. The publication is not only an excellent summary of the existing research in Great Britain and to a lesser extent from other jurisdictions; it is a foundation for future research by evoking and at times provoking questions and offering a variety of possible responses. Hirsch Greenberg, University of Regina. What is the connection between drugs, alcohol, and crime? What works in reducing drugs and alcohol-related crime? The book provides a succinct overview of current theory and research on the links between drugs, alcohol use, and crime. It discusses the legal and social context of drug and alcohol use and identifies current levels of consumption. Focusing on the UK context, it also takes into account international research where appropriate. Detailed review of the research literature on the connections between drug use and crime. Examines the current government anti-drugs policy and assesses the effectiveness of programmes that have been used to reduce drug and alcohol-related crime. The book concludes that future government drugs policy should pay particular attention to the lessons learned from research on the connection between drug and alcohol use and crime. Ideal for

criminology criminal justice social policy and social work students this book will also be a useful source of information for policy makers the police probation workers social workers drugs and alcohol counsellors treatment agencies sentencers voluntary agencies Drug Action Teams and others with an interest in research on drugs and crime

Substance Abuse And The New Road To Recovery Glenn D. Walters, 2014-06-03 Substance misuse is one of the more common yet baffling problems confronting the practising mental health professional today The issues involved in the misuse of substances can be so complex that some practitioners are inclined to avoid working with clients who have been diagnosed with a drug abuse problem This new guidebook is designed to assist clinicians with the task of conceptualizing understanding and intervening with persons who abuse substances It accomplishes this by offering practical suggestions assessment procedures and change strategies directed at the thoughts feelings and behaviours believed to support a drug lifestyle Although the approach described in this book utilizes a number of cognitive behavioural techniques the approach is unique in the sense that it also deals with the fear of change that frequently interferes with a client's ability to benefit from therapy It also considers change strategies used by people who have escaped from a drug lifestyle without any type of treatment or formal intervention Momentarily arresting the lifestyle is the first step of intervention This is followed by skill development in which the conditions choices and cognitions associated with a drug lifestyle are targeted for intervention and change In the final phase of this approach the client is engaged in the resocialization process whereby he or she is encouraged to develop ways of thinking and behaving that are incompatible with continued misuse of psychoactive substances The end result is a concise yet comprehensive examination of ways clinicians might facilitate change in persons previously committed to a drug lifestyle

Religion, the Community, and the Rehabilitation of Criminal Offenders Thomas P. O'Connor, 2002 Explore the relationship between faith based programs religion and offender rehabilitation This book reports on current research from several disciplines to help the reader understand the nature and impact of the relationship between faith based programs religion and offender rehabilitation Religion the Community and the Rehabilitation of Criminal Offenders is a unique resource there has been very little research published on this important topic President Bush's faith based initiative recognized that religion plays a role in the justice system and corrections that is overlooked but essential it increases the role of community and caring in the system in a unique and important way This pathbreaking book points the way toward a system of faith based programs that are not only effective but also economical as these programs are often staffed by volunteers Religion the Community and the Rehabilitation of Criminal Offenders addresses important questions regarding the importance and effectiveness of faith based rehabilitation programs including What is the relationship between prison religion and offender rehabilitation What motivates inmates to become involved with religious programs and activities What is the prison chaplain's role in rehabilitation Are certain religious denominations more effective than others in preventing crime delinquency and recidivism How does religious activity help inmates adjust to the prison environment What do inmates have to say about the

religious programs they encounter within the system How did Islam develop within American correctional institutions and what changes has the movement gone through in recent years Why do female African American inmates tend to resist conversion to Islam while their male counterparts embrace the Muslim faith in increasing numbers How can sacred texts and social theory be utilized as teaching tools and intervention strategies in the transformation processes of men incarcerated for violent crimes A fascinating study from the Sing Sing prison and more
