Drugs And Punishment An Uptodate Interregional Survey On Drug Related Offences:

Drugs and Punishment Dušan Cotič,1988 War on Drugs, HIV/AIDS, and Human Rights Kasia

Malinowska-Sempruch,Sarah Gallagher,2004 Annotation Drug policies are often categorized in terms of public health and safety governments forbid the voluntary use of certain substances because such use undermines the good of society as a whole This book aims to position drug policies in another context the context of human rights Articles will examine the rights of drug users with special attention to the right to adequate medical care which is often denied to intravenous drug users who are suffering from HIV AIDS included will be articles that express a contrary position that intravenous drug users have voluntarily relinquished their rights by engaging in criminal behavior Particularly controversial are the rights of drug using mothers whose children are sometimes put into state custody The book will also examine the conflict between criminal codes and the human right of individual freedom emphasizing the human rights abuses that often accompany drug policy enforcement The texts of basic treaties and accords on human rights will be included

Penal Aspects of the UN Drug Conventions Neil Boister,2021-07-26 The UN Drug Conventions the 1961 Single Convention on Narcotic Drugs the 1971 Psychotropic Convention the 1972 Protocol to the Single Convention and the 1988 UN Drug Trafficking Convention regulate the global suppression of illicit drugs This volume examines the provisions of these conventions that require states to adopt penal measures against drugs in their domestic law Its introductory chapters explore the controversial application of drug prohibition by international society and the historical development of this policy through the penal provisions of the drug conventions The substantive chapters investigate the various facets of the illicit drug control system created by these penal provisions crimes and penalties jurisdiction and extradition general and specific forms of drug law enforcement co operation and the supervision of the system by the UN drug control organs The conclusion offers a general critique of the system and makes suggestions about its future development

United Nations Legal Order Oscar Schachter,Christopher C. Joyner,American Society of International Law,1995 The purpose of these volumes is to examine explain and appraise contributions made by the United Nations system to international law and the law creating process The work assesses the effect UN institutions have had on the law making process and the extent to which that law has been accepted by and evidenced in contemporary state practice It is divided into three main parts The first examines the practical as well as conceptual aspects of the UN system as a source of law The second part deals with different fields of activity which have become the subjects of legal rules and processes Areas covered include human rights use of force and economic relations In addition topics that have not previously been examined in such a comprehensive manner such as shipping aviation and private international law are also discussed The third part covers the internal law of the UN system international civil services and financial contributions

Handbook of Research on the Illicit Drug Traffic F. LaMond Tullis,LaMond Tullis,United Nations Research Institute for

Social Development,1991-09-30 Focusing on a highly controversial and fiercely debated subject this survey tracks the social and economic consequences of the production trafficking and consumption of cocaine heroin and cannabis From a growing body of literature LaMond Tullis has extracted the most salient economic social and political themes currently under discussion in both scholarly publications and in the responsible press The two part volume consisting of a lengthy review of relevant literature and an annotated bibliography helps its users understand the major issues Can and should consumption be curtailed supplies suppressed and traffickers eliminated Can the unintended economic social and political consequences of curtailing suppressing and eliminating somehow be mitigated Should these drugs be legalized Would legalization produce its own array of unintended and largely unacceptable consequences Although tentative answers to these questions abound this excellent resource is testimony to the fact that there is still little agreement on how to deal with these powerful substances and the problems they generate Tullis s compilation presents the best overview of this complex subject to date The first half of this two part reference consists of a survey of the published literature on the production and consumption of the three illicit drugs Chapters are devoted to the global patterns of production and consumption of cocaine heroin and cannabis to the consequences both positive and negative of drug consumption and production and to the policy measures that have been adopted or are under consideration in both consuming and producing countries These chapters will be of interest to those wishing to obtain an overall view of the subject and to specialists seeking a guide to the literature outside their particular area of knowledge The second half of the book contains an annotated bibliography of about 2 000 items covering works published in English plus a few in Spanish as books articles or press reports This section will be invaluable to researchers working on the frontiers of the subject and to general readers who wish to pursue particular topics in greater depth The volume should be at the fingertips of policy makers legislators law enforcement officials judges and social workers as well as students and teachers
