Dryden And Future Shock:

Dryden and Future Shock William Frost,1976 Dryden's Dualities Ruth Salvaggio,1983 This study of Dryden s dualities suggests that the double structures we find in his work go deeper than the superficial dialectic of his language The liveliest parts of Dryden s works are those where divisions become most extreme where he can exploit their poetic possibilities

Shattering the Self in Early Modern English Verse Gina Filo,2025-12-15 Reconfiguring our understanding of early modern English erotic and literary landscapes Rejecting the ideals of stability and sexual mastery demanded of masculine subjects early modern English poets threw the limits of bodies and selves into question to embrace erotic experiences of genderqueer and transspecies embodiment and affiliation Through close readings of still canonical and lesser read writers including William Shakespeare John Donne and Thomas Traherne Gina Filo shows how these experimental encounters at the limits of the human were inextricable parts of the early modern literary and sexual imaginaries In its exploration of nonnormative forms of erotic attachment and embodiment *Shattering the Self in Early Modern English Verse* Gender Sex and Queerness Beyond the Human contributes to the burgeoning fields of early modern trans and ecocritical studies while also drawing on contemporary queer theory Filo neither seeks to naively recuperate a fantasized past nor cedes relationality sociality or generativity to the normative Instead she shows how the embrace of erotic possibility flexible unstable subjectivities and querying of the limits of the human were core features of early modern poetics reconfiguring our understanding of English literary history and queer relationality today *The Variorum Edition of the Poetry of John Donne, Volume 2* John Donne,Gary A. Stringer,2000 Based on an exhaustive study of the manuscript and print history of Donne s poetry this edition presents newly edited critical texts of the poems and a comprehensive digest of the critical scholarly commentary on them from Donne s time forward Textual introductions briefly locate the poems in the context of Donne s life or poetic development outline the 17th century textual history of the poems and sketch the treatment of the text by modern editors A detailed textual apparatus presents variants collated from many sources and traces the lines of textual transmission Provided by publisher **How to Incorporate Wellness Coaching into Your Therapeutic Practice** Laurel
