The French Secret Services ,1993-01-01 The French secret services have a long history dating back to the ancien regime With the founding of the Third Republic 1870 1940 the famous Second Bureau was created as France s principal intelligence gathering organization After the Germans invaded France in 1940 however the services splintered and diversified with Vichy agencies and Collaborationists the Free French and the internal resistance all in contention More recently since 1944 the activities of the reorganized French secret services have extended across a surprisingly wide area sometimes with spectacular results as in the Greenpeace Affair in New Zealand in 1985 This volume deals with the French secret services according to a chronological framework which reflects the evolution of the services which were created and transformed by both internal and external historical factors The bibliography commences with an examination of the origins and development of the French Intelligence Service from the ancien regime to 1870 It then considers the history and activities of the secret services during the following periods the Third Republic the Second World War the Fourth Republic and the Fifth Republic firstly between 1958 and 1981 and then during the 1980s and 1990s including the Greenpeace Affair This is an essential reference tool for all those interested in the history of intelligence agencies and national security in general and in the development of the French secret services in particular **Daily Report** ,1990-04 FBIS Daily Report ,1995

Caparini,2016-05-13 The events of September 11 2001 sharply revived governmental and societal anxieties in many democratic countries concerning the threats posed by terrorism organized crime the proliferation and use of weapons of mass destruction and other complex security threats In many countries public discourse of subjects traditionally considered part of social policy such as immigration and asylum have been securitized while intelligence services have been granted greater resources and expanded powers This comprehensive volume discusses the various challenges of establishing and maintaining accountable and democratically controlled intelligence services drawing both from states with well established democratic systems and those emerging from authoritarian systems and in transition towards democracy It adopts a multidisciplinary and comparative approach identifying good practices to make security services accountable to society and its democratic representatives The volume will engage both academics and practitioners in the discussion of how to anchor these vital yet inherently difficult to control institutions within a firmly democratic framework As such it has clear relevance for those concerned with the control and oversight of intelligence and security issues in many countries *Imperialistic*
