Penner, 2005 This collection of essays originating in the SBL International Meetings in Berlin 2002 and Cambridge 2003 explores the current reception of historical criticism in feminist biblical studies pushing the boundaries of past study and opening new vistas for future research By framing the discussion in the context of the current reevaluation of both historical criticism and feminist exegesis the contributors highlight the ongoing need to engage methodological issues In addition a strong postcolonial emphasis throughout the volume challenges the hegemony of Western biblical interpretation promoting a format of dialogue and engagement The collection brings together diverse cultural and geographical perspectives on biblical criticism with over ten countries represented Consisting of Western and non Western perspectives female and male scholars junior and senior voices in the field and a range of feminist scholars situated alongside postcolonial and gender critics this collection reveals not only the multiplicity of perspectives but also the various transitions in scholarship that have taken place over the past thirty years Volume contributors include Roland Boer Athalya Brenner Ann

Graham Brock Kristin De Troyer Esther Fuchs Archie Chi Chung Lee Joseph Marchal John Marshall Hjamil Mart nez V zquez Madipoane Masenya ngwana Mphahlele Judith McKinlay Priscilla Geisterfer Nyvlt Jorunn kland Todd Penner Vernon Robbins Susanne Scholz Hanna Stenstr m and Caroline Vander Stichele Paperback edition is available from the Society of Biblical Literature www.sbl-site.org Ten Ways to Weave the World: Matter, Mind, and God, Volume 1 Ross Thompson, 2022-12-20

The idea of an ideological war between science and religion Thompson argues is founded on a mistake But this does not mean that there is nothing at stake For behind the ill conceived conflict lie complex issues about the nature of mind consciousness experience subjectivity quality value and the like all of which need to be disentangled and assessed in their own right Outgrowing Materialism leads the reader through a sequence of five Worlds each of which offers a distinct way of understanding or failing to understand these issues and where God might belong or not Writing accessibly but with a sharp eye for detail Thompson sheds new light on the familiar territory of materialism dualism and structural realism and evaluates the growing attraction of the multiverse He argues that dualism mechanized the material world then materialism exorcised the mental ghost from the machine and finally this machine is evaporating into pure mathematics Outgrowing Materialism is half of Ten Ways to Weave the World Matter Mind and God The sequel Embodying Mind discusses five Worlds that precede and follow those discussed here However Outgrowing Materialism stands in its own right as a critique of the modern science v religion dilemma

Malum Ingolf U. Dalferth, 2022-05-31 The incursion of evil has always caused people to turn to the divine to gods or to a god in order to reorientate their life Ingolf U Dalferth studies the complexity of this procedure in three thought processes that deal with the central concepts in the Christian understanding of malum as privation a lack of good as evil doing and as a lack of faith In doing so he provides a detailed discussion of theories of theodicy the argument from freedom and the religious turn to God in which the author explores the traces of the discovery of God s goodness justness and love in connection with the malum experiences in ancient mythology and biblical traditions *Dualism in Qumran* Géza G.
