Animal Suffering:

Why Animal Suffering Matters Andrew Linzey, 2013-11-01 How we treat animals arouses strong emotions Many people are repulsed by photographs of cruelty to animals and respond passionately to how we make animals suffer for food commerce and sport But is this as some argue a purely emotional issue Are there really no rational grounds for opposing our current treatment of animals In *Why Animal Suffering Matters* Andrew Linzey argues that when analyzed impartially the rational case for extending moral solicitude to all sentient beings is much stronger than many suppose Indeed Linzey shows that many of the justifications for inflicting animal suffering in fact provide grounds for protecting them Because animals the argument goes lack reason or souls or language harming them is not an offense Linzey suggests that just the opposite is true that the inability of animals to give or withhold consent their inability to represent their interests their moral innocence and their relative defenselessness all compel us not to harm them Andrew Linzey further shows that the arguments in favor of three controversial practices hunting with dogs fur farming and commercial sealing cannot withstand rational critique He considers the economic legal and political issues surrounding each of these practices appealing not to our emotions but to our reason and shows that they are rationally unsupportable and morally repugnant In this superbly argued and deeply engaging book Linzey pioneers a new theory about why animal suffering matters maintaining that sentient animals like infants and young children should be accorded a special moral status [Animal Suffering](#) Florence Burgat, Emilie

Dardenne, 2023-08-22 This interdisciplinary volume deals with the most painful situations encountered by animals in the wild or under human guardianship It seeks to illustrate some remarkable cases and present a general picture of the commodification of animals This volume starts with an exploration of the capture of animals intended for European zoological parks the treatment of animals in South Korea pig farming in China and animal testing in Europe It goes on to explore animal politics with a focus on Europe The moral problems posed by the different types of harm caused to animals are then approached from the vantage point of moral philosophy Finally the points of view of veterinary sciences and applied ethics related to animal emotions suffering and death complete the picture **Why Animal Suffering Matters** Andrew

Linzey, 2009-09-17 When these considerations are fully taken into account it becomes as difficult to justify the infliction of suffering on animals as it is to do so in the case of human infants Linzey invites the reader to examine the rational case and then see how it can be applied to a detailed analysis of three practical issues hunting with dogs fur farming and commercial sealing He examines the economic legal and political considerations while retaining an ethical focus **BOOK JACKET**

Animal Suffering Marian Dawkins, 2012-12-06 I wrote this book because I believe that the welfare of animals is a very important subject but one about which there is a of confusion and muddled thinking I wanted to great deal write a book which straightened out some of the confusion by looking in detail at one particular problem how to recognize animal suffering The book is written for anyone interested in animals and the controversies over how human beings should treat

them I have tried to convince people who might otherwise feel that science had only a rather sinister connection with animal welfare that the scientific study of animal suffering has in fact a major and positive contribution to make It can give us an insight into what animals experience and this in turn may help us to alleviate their suffering At the same time I have tried to write a book that will be of at least some use to scientists The chapters which follow provide an outline of the biological approach to animal welfare I have also attempted to show sceptics that it is possible to study animal suffering without sacrificing standards of scientific procedure Perhaps some may even come to share my belief that the study of the subjective experiences of animals is one of the most fascinating areas in the whole of biology as well as being of great practical and ethical importance

The Palgrave Handbook on the Problem of Animal Suffering in the Philosophy of Religion B. Kyle Keltz,2025-07-28 Atheists argue that animal pain disease suffering and death cause a problem for theism because they believe that an all knowing all powerful and all good God would not use millions of years of animal suffering just to make a world suitable for humans Animal suffering was not a concern for theism through the medieval period but it has been increasingly discussed in philosophy of religion since modern times and there is especially a large and growing amount of literature on this subject that has been published in the last few decades This handbook serves as a guide for those interested in the literature on the problem by bringing together experts in the philosophy of religion theology environmental ethics and the philosophy of animal minds It not only presents major formulations of the problem of animal suffering and major theodicies but it also discusses metaethical issues regarding animal suffering the question of animal consciousness and self awareness and their implications for animal suffering and what implications available theodicies might have for animal ethics

Animal Suffering and Public Relations Núria Almiron,2023-08-18 Animal Suffering and Public Relations conducts an ethical assessment of public relations mainly persuasive communication and lobbying as deployed by some of the main businesses involved in the animal industrial complex the industries participating in the systematic and institutionalised exploitation of animals Society has been experiencing a growing ethical concern regarding humans ab use of other animals This is a trend first promoted by the development of animal ethics which claims any sentient being because of sentience deserves moral consideration and more recently by other approaches from the social sciences including critical animal studies In this volume we aim to start an entirely unaddressed discussion within the field of public relations The need to problematise the ethics of persuasion when nonhuman animal suffering is involved particularly the impact of persuasion and lobbying on compassion towards other animals in the cases of food experimentation entertainment and environmental management This book provides an interdisciplinary theoretical discussion illustrated with international case studies from experts in strategic communication public relations lobbying and advocacy animal ethics philosophy of law political philosophy and social psychology This unique book merges the fields of critical public relations animal ethics and critical animal studies and will be of direct appeal to a wide range of researchers academics and doctoral students across related fields The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Thomism and the Problem of Animal Suffering B. Kyle Keltz,2020-06-12 The problem of animal suffering is the atheistic argument that an all knowing all powerful and all good God would not use millions of years of animal suffering disease and death to form a planet for human beings This argument has not received as much attention in the philosophical literature as other forms of the problem of evil yet it has been increasingly touted by atheists since Charles Darwin While several theists have attempted to provide answers to the problem they disagree with each other as to which answer is correct Also some of these theists have given in to the problem and believe it entails that God is limited in certain ways B Kyle Keltz seeks to provide a classical answer to the problem of animal suffering inspired by the medieval philosopher theologian Thomas Aquinas In doing so Keltz not only utilizes the wisdom of Aquinas but also contemporary insights into non human animal minds from contemporary philosophy and science Keltz provides a compelling neo Thomistic answer to the problem of animal suffering and explains why the classical God of theism would create a world that includes animal death

VV., 2016-04-19T16:40:00+02:00 *Relations Beyond Anthropocentrism* is a peer refereed journal of trans anthropocentric ethics and related inquiries The main aim of the journal is to create a professional interdisciplinary forum in Europe to discuss moral and scientific issues that concern the increasing need of going beyond narrow anthropocentric paradigms in all fields of knowledge The journal accepts submissions on all topics which promote European research adopting a non anthropocentric ethical perspective on both interspecific and intraspecific relationships between all life species humans included and between these and the abiotic environment

Animal Suffering, Human Rights, and the Virtue of Justice Per Bauhn, 2023-03-29 In this book Per Bauhn does three things First he outlines some aspects of contemporary philosophical views on animals and morality including the criticism of speciesism and the animal rights argument Second he criticizes these views arguing that we cannot escape a speciesist perspective on morality and that there are no good reasons why we should believe that non human animals have moral rights Third he argues that cruelty against non human animals is

morally wrong but not because animal rights are being violated but because human agents who inflict cruelty on non human animals are failing their duty to develop in themselves the virtue of justice This latter argument is reminiscent of Immanuel Kant s idea that we have only indirect duties towards animals but unlike that idea Bauhn s argument does not depend on any causal hypothesis that humans who are cruel to animals are likely to be cruel also to their fellow humans Instead Bauhn s argument relies on the fact that being cruel to non human animals and other innocent beings is conceptually and logically inconsistent with the virtue of justice a virtue which agents are rationally required to develop in themselves
