Animal Theology:

Animal Theology Andrew Linzey, 1995 Animal rights is animal theology The author argues that historical theology creatively defined must reject humanocentricity He questions the assumption that if theology is to speak on this issue it must only do so on the side of the oppressors His theological query investigates not only the abstractions of theory but also the realities of hunting animal experimentation and genetic engineering He is an important pioneering Christian voice speaking for those who cannot speak for themselves *Creatures of the Same God* Andrew Linzey, 2009 I don't know why you're spending all your time on this They're only animals for heaven's sake That was the reaction of one of Andrew Linzey's fellow students at King's College London when he was studying theology in the 1970s Since then the now Rev Dr Andrew Linzey has been arguing that animals aren't only anything but rather that they matter to God and should do so to us In this collection of essays Linzey counters with his customary wit erudition and insight some contemporary and perhaps surprising challenges to animal rights from ecotheologians the Church and politicians He contends that far from the sometimes shallow judgments of those who think animals unworthy of theological consideration the Christian tradition has a wellspring of sources and resources available to taking animals seriously Instead of being marginal to the Christian experience Linzey concludes animals can take their rightful place alongside human beings as creatures of the same God There is a long forgotten spiritual tradition that two children both named Jesus were born in Bethlehem to two sets of parents named Joseph and Mary This tradition is supported by the different accounts of the nativity and life of Jesus Christ in the gospels of Matthew and Luke Although the Church chose to ignore this tradition something of it survived in early Christian art and symbolism The full tradition was preserved only in the literature of esoteric sects such as Gnosticism which remained outside the official teachings of institutionalized Christianity **Christian Theology and the Status of Animals** R.

McLaughlin, 2014-02-13 The author argues that there are conflicting traditions with regard to the question of what is the moral standing of animals according to Christianity The dominant tradition maintains that animals are primarily resources but there are alternative strands of Christian thought that challenge this view **Compassion for Animals** Andrew Linzey, 2017-05-16 Comprising a rich variety of quotations from some of the greatest thinkers in the Christian tradition this new anthology will encourage a more sensitive and compassionate regard for the animal creation Suitable for use by groups or individuals Compassion for Animals will become a valuable resource for discussion and worship whether in church in school or in the home **Christianity and the Rights of Animals** Andrew Linzey, 2016-03-03 Christian concern about how we treat animals has increased strikingly in recent years More and more Christians are deciding that our attitudes toward animals must change Here is a book that presents for the first time a comprehensive and well argued theological case for the rights of animals and offers a challenging critique of our existing insensitivity toward animal life Everyone who cares about the rights of animals particularly clergy and ministers who are constantly being asked for answers on the issue will welcome

home Andrew Linzey has been described as the greatest living writer on theology and animals by Bishop John Austin Baker. He is the director of the Oxford Centre for Animal Ethics and a member of the Faculty of Theology at the University of Oxford. He has written or edited more than twenty books including *Animal Theology: Creatures of the Same God* and *Why Animal Suffering Matters*. Animal Ethics and Theology Daniel Miller, 2013-03-01 In this book Daniel K Miller articulates a new vision of human and animal relationships based on the foundational love ethic within Christianity. Framed around Jesus' parable of the Good Samaritan, *Animal Ethics and Theology* thoughtfully examines the shortcomings of utilitarian and rights-based approaches to animal ethics. By considering the question of animals within the Christian concept of neighbourly love, Miller provides an alternative narrative for understanding the complex relationships that humans have with other animals. This book addresses significant theological questions such as: Does being created in the image of God present a meaningful distinction between humans and other animals? What does it mean for humans to have dominion (Gen 1:28) over animals? Is meat eating a moral problem for Christians? In addition to drawing out the significance of Christian theology for the field of animal ethics, this book also engages environmental and feminist ethics. Miller brings a theological perspective to such questions as: Should care for animals be distinguished from care for the environment and what role should human emotions play in our ethical dealings with other animals? As the title suggests, this book provides fresh insight into the theological significance of human relationships with other animals.

Animal Gospel Andrew Linzey, 1999-10-01 Our treatment of animals is a gospel issue, Andrew Linzey contends, because those individuals and institutions that could have become the voice of God's most vulnerable creatures have instead justified cruelty and oppression. He offers an inspiring personal account of the gospel truths that have sustained his commitment to the cause of animals for more than twenty-five years.

Why Animal Suffering Matters Andrew Linzey, 2013-11-01 How we treat animals arouses strong emotions. Many people are repulsed by photographs of cruelty to animals and respond passionately to how we make animals suffer for food, commerce and sport. But is this as some argue a purely emotional issue? Are there really no rational grounds for opposing our current treatment of animals? In *Why Animal Suffering Matters*, Andrew Linzey argues that when analyzed impartially, the rational case for extending moral solicitude to all sentient beings is much stronger than many suppose. Indeed, Linzey shows that many of the justifications for inflicting animal suffering in fact provide grounds for protecting them. Because animals lack reason or souls or language, harming them is not an offense, Linzey suggests; that just the opposite is true: that the inability of animals to give or withhold consent, their inability to represent their interests, their moral innocence and their relative defenselessness all compel us not to harm them. Andrew Linzey further shows that the arguments in favor of three controversial practices—hunting with dogs, fur farming and commercial sealing—cannot withstand rational critique. He considers the economic, legal and political issues surrounding each of these

practices appealing not to our emotions but to our reason and shows that they are rationally unsupportable and morally repugnant In this superbly argued and deeply engaging book Linzey pioneers a new theory about why animal suffering matters maintaining that sentient animals like infants and young children should be accorded a special moral status
