Fisiología animal comparada Richard W. Hill, 2021-03-01 Este libro es una introducción básica para aquellos aspectos de la fisiología animal comparada que se apoyan particularmente en las interrelaciones fisiológicas entre los animales y su ambiente Los atributos fisiológicos de los animales son discutidos en vistas a su significación en el teatro ecológico y se ha hecho énfasis en la perspectiva evolucionista ya que es la interacción histórica entre el animal y el ambiente la que ha condicionado la forma y la Fisiología de las especies modernas *Fisiología animal y evolución* Gustavo Barja de Quiroga, 1993-05-20 La enseñanza de la Fisiología Animal en las Facultades de Biología suele presentar el problema de que aunque existen numerosos y excelentes textos traducidos el alumno necesita utilizar al menos dos uno de Fisiología Humana y otro de Fisiología Comparada El presente manual no puede ser sustitutorio de una Fisiología comparada pero sí un buen complemento de un texto de Fisiología Humana introduciendo algunos materiales generalmente ausentes de los textos de Fisiología Comparada hallazgos recientes aún incorporados a los mismos datos correspondientes al área de Bioquímica Comparada En efecto la fusión entre Fisiología y Bioquímica Animal se hace cada vez más inevitable cuando se habla de adaptación especialmente con los avances cada vez más rápidos en nuestra comprensión del inmenso mundo de los animales ectotermos Pero por encima de todo el trabajo del autor constituye un ensayo sobre la contribución que la Fisiología puede hacer a la comprensión del gran fenómeno biológico que es el hecho evolutivo Una crítica del antropocentrismo biológico afirmando correlativamente el principio científico de objetividad de la naturaleza y una invitación a la polémica entre pensadores tanto de ramas científicas como del campo de las humanidades **Estrategias de comprensión del discurso escrito expositivo. Evaluación e intervención** José Escoriza Nieto, 2006-07-31 El conocimiento de las estrategias de comprensión del lenguaje escrito es considerado uno de los objetivos fundamentales que debe promover la actividad de la enseñanza debido a la relevancia que tiene su aplicación práctica en el progreso escolar del alumnado La investigación psicoeducativa ha aportado una serie de datos todos ellos coincidentes en demostrar que el conocimiento estratégico constituye uno de los factores intrapersonales de mayor significación e incidencia en el desarrollo de la capacidad individual de aprendizaje realización de aprendizajes autorregulados que el alumno aprenda a aprender la consideración de los dificultades estratégicas como una causa explicativa de las dificultades de aprendizaje el conocimiento procedimental como guía del funcionamiento cognitivo lo cual supone una mejora evidente de la capacidad ejecutiva conocimiento y control del alumno a en la realización de actividades complejas etc Esta publicación aborda el análisis de la problemática conceptual relacionada con

la interpretación del proceso de lectura la comprensión de un discurso escrito expositivo y las estrategias que el alumno puede aplicar durante la actividad de aprendizaje El contenido fundamental está referido a la fundamentación teórica del conocimiento estratégico y a la exposición de un procedimiento totalmente novedoso y original en dos aspectos Por una parte su aplicación nos permite obtener información relevante y necesaria relacionada con las necesidades educativas que se puedan generar a nivel operatorio o procedimental Por otra y a nivel instrumental o funcional constituye una propuesta válida y adecuada a la hora de proceder al diseño de procesos de intervención educativa orientados a promover la mejora de los procesos de comprensión en el alumnado
