Susi Pittman, 2009 It is always hard to say good bye As Catholics we know that our human loved ones are called by Christ to join Him in eternity dwelling in heavenly bliss before God enlightened by the light of glory sharing in the fullness of the eternal life Christ has prepared for us But what about our pets and the animals that fill the earth and our lives with such special beauty Does God have a place for them Where do animals go when they die Are they just dust What is the destiny of creation Does God really care about any of creation besides man Would God the Author of all life cast the non human creation He called good into nothingness Isn't it illogical to believe that God would find worthless that which is hard wired to give Him praise Is it so hard to understand that animals created by God with a particular good would not also have knowledge of their Creator It is a universal concern for stewards of creation who in their humanness consider such questions in their hearts I write this book as a way to explore tenets of the Catholic faith that address creation of bringing insight and spiritual truths to animal lovers and lovers of creation and as evidential support of the truth that all creation was given its order time place and purpose from its Creator who sustains and preserves it at all times always [Pets in America](#)
Katherine C. Grier, 2010-11-15 Entertaining and informative *Pets in America* is a portrait of Americans relationships with the cats dogs birds fishes rodents and other animals we call our own More than 60 percent of U S households have pets and America grows more pet friendly every day But as Katherine C Grier demonstrates the ways we talk about and treat our pets as companions as children and as objects of beauty status or pleasure have their origins long ago Grier begins with a natural history of animals as pets then discusses the changing role of pets in family life new standards of animal welfare the problems presented by borderline cases such as livestock pets and the marketing of both animals and pet products She focuses particularly on the period between 1840 and 1940 when the emotional behavioral and commercial characteristics of contemporary pet keeping were established The story is filled with the warmth and humor of anecdotes from period diaries letters catalogs and newspapers Filled with illustrations reflecting the whimsy the devotion and the commerce that have shaped centuries of American pet keeping *Pets in America* ultimately shows how the history of pets has evolved alongside changing ideas about human nature child development and community life This book accompanies a museum exhibit *Pets in*

America which opens at the McKissick Museum in Columbia South Carolina in December 2005 and will travel to five other cities from May 2006 through May 2008
