Eisenberg, 2010-01-01 In an encyclopedic reference for anyone who wants information about all things Jewish Eisenberg distills an immense amount of material from classic and contemporary sources into a single volume **Animals in the Qur'an** Sarra Tlili, 2012-08-13 The Islamic tradition has always held animals in high esteem deserving the same level of consideration as humans The Qur'an opines that there is not an animal in the earth nor a flying creature flying on two wings but they are people like you This fascinating and highly original book examines the status and nature of animals as they are portrayed in the Qur'an and in adjacent exegetical works in which animals are viewed as spiritual moral intelligent and accountable beings In this way the study presents a challenge to the prevalent view of man's superiority over animals and suggests new ways of interpreting the Qur'an By placing the discussion within the context of other religions and their treatment of animals the book also makes a persuasive case for animal rights from an Islamic perspective **Divine Mysteries in the Enochic Tradition** Andrei A. Orlov, 2023-07-24 The book represents an in depth investigation of acquisition cultivation and transmission of divine mysteries in Jewish apocalyptic and mystical accounts by focusing on the developments found in early Enochic writings These accounts deal both with revelations unveiled by God and angels to the patriarch Enoch and with illicit transmission of divine knowledge by the rogue group of the fallen angels known as the Watchers Orlov argues that the map of otherworldly knowledge revealed to Enoch inversely mirrors the map of illicit revelations given by the fallen Watchers to humankind The study suggests that one of the possible objectives for the parallelism is that by revealing to Enoch the same divine mysteries that were earlier transmitted by the Watchers God attempts to mitigate the corruption caused by the fallen angels illicit instructions This book will be of interest not only for scholars specializing in historical and religious areas but also for experts in the fields of anthropology philosophy sociology psychology and gender theory it discusses several aspects of early and late Jewish religious epistemologies that elucidate the ideological context for the construction and affirmation of social roles and identities in various Jewish milieus Animals and their Relation to Gods, Humans and Things in the Ancient World Raija Mattila, Sanae Ito, Sebastian Fink, 2019-03-11 While Human Animal Studies is a rapidly growing field in modern history studies on this topic that focus on the Ancient World are few The present volume aims at closing this gap It investigates the relation between humans animals gods and things with a special focus on the structure of these categories An improved understanding of the ancient categories themselves is a precondition for any investigation into the relation between them The focus of the volume lies on the Ancient Near East but it also provides studies on Ancient Greece Asia Minor Mesoamerica the Far East and Arabia

Animal Theologians Andrew Linzey, Clair Linzey, 2023 Many people who have thought about God have not thought about animals or about the relationship between the two But among those who have are some of the most celebrated religious thinkers including Michel de Montaigne Thomas Tryon John Wesley John Ruskin Leo Tolstoy Mohandas K Gandhi Albert Schweitzer and Paul Tillich This volume comprises 24 scholarly studies that detail challenges to the dominant anthropocentrism of most religious traditions The editors have brought together Jewish Unitarian Christian transcendentalist Muslim Hindu Dissenting deist and Quaker voices each offering a unique theological perspective that counters the neglect of the nonhuman Animal Theologians is divided into three parts starting with the pioneers who first saw a relationship between animals and divinity those who contributed to the expansion of social sensibility to animals and ending with the work of contemporary theologians The essays in this volume use contextual and historical background to describe what led animal theologians to their beliefs and then pave way for further developments in this expanding field This volume is an act of reclaiming different religious traditions for animals by recovering lost voices
