A City Against Empire Thomas K. Lindner, 2023-06-01 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the

Opening the Future project with COPIA A City Against Empire is the history of the anti imperialist movement in 1920s Mexico City It combines intellectual social and urban history to shed light on the city s role as an important global hub for anti imperialism exile activism political art and solidarity campaigns After the Russian and the Mexican Revolution Mexico City became a space and a symbol of global anti imperialism Radical politicians artists intellectuals scientists migrants and revolutionary tourists took advantage of the urban environment to develop their visions of an anti imperialism for the twentieth century These actors imagined national self determination international solidarity and an emancipation from what they called the West Global local and urban factors interacted to transform Mexico City into the most important hub for radicalism in the Americas By weaving together the intellectual history of Mexico the urban and social histories of Mexico City and the global history of anti imperialist movements in the 1920s this books analyses the perfect storm of anti imperialism in Mexico City

Climate Change and Human Security Michael R. Redclift, David Manuel Navarrete, Mark Pelling, 2011 The challenge presented by climate change is by its nature global The populations of the Mexican Caribbean the focus of this book are faced by everyday decisions not unlike those in the urban North The difference is that for the people of the Mexican Caribbean evidence of the effects of climate change including hurricanes is very familiar to them This important study documents the choices and risks of people who are powerless to change the economic development model which is itself forcing climate change The book examines the Mexican Caribbean coast and explores the wider issues of managing climate change in vulnerable areas of the tropics It also points to the inability to integrate development thinking into climate change adaptation The authors suggest that failures in local governance the transparency of state actions and the local populations lack of effective power represents a greater threat to adaptation than the absence of technical capacity in vulnerable areas Using local case studies of communities fishing villages and tourist destinations this well researched book will appeal to international students and academics working on climate change and professionals in development conservation and tourism industries

Documents in Crisis Beth E. Jørgensen, 2011-12-01 2012 Best Book in the Humanities presented by the Mexico Section of the Latin American Studies Assn Examines the theory and practice of nonfiction narrative literature in twentieth century Mexico In the turbulent twentieth century large numbers of Mexicans of all social classes faced crisis and catastrophe on a seemingly continuous basis Revolution earthquakes industrial disasters political and labor unrest as well as indigenous insurgency placed extraordinary pressures on collective and individual identity In contemporary literary studies nonfiction literatures have received scant attention compared to the more supposedly creative practices of fictional narrative poetry and drama In Documents in Crisis Beth E J rgensen examines a selection of both canonical and lesser known examples of narrative nonfiction that were written in response to these crises including the autobiography memoir historical essay

testimony chronicle and ethnographic life narrative She addresses the relative neglect of Mexican nonfiction in criticism and theory and demonstrates its continuing relevance for writers and readers who in spite of the contemporary blurring of boundaries between fiction and nonfiction remain fascinated by literatures of fact a solidly informative book *Revista de Estudios Hispánicos* This book examines traditional fact based genres autobiography chronicle essay ethnography memoir testimony and travel writing as undertaken by some of Mexico's best known writers Within a broad conceptual framework Jørgensen engages with the work and does an excellent job Highly recommended CHOICE I can always count on Beth Jørgensen's work for clearly written smart analysis of the Mexican cultural scene She is of course the author of an important study on Elena Poniatowska and is known for her deep knowledge of Mexican nonfiction writers *cronistas* She brings this strength to her new book as well where her deep familiarity and long interest in Mexican cultural forms lends her book an assured and confident grounding Debra A Castillo author of *Redreaming America Toward a Bilingual American Culture*

Reed She arrived for the first time in 1923 on assignment for the New York Times Sunday Magazine to cover an archaeological survey of Mayan ruins It was a contemporary Maya however who stole her heart Felipe Carrillo Puerto said to be descended from Mayan kings had recently been elected governor of the Yucatán on a platform emphasizing egalitarian reforms and indigenous rights The entrenched aristocracy was enraged Reed was infatuated as was Carrillo Puerto He and Reed were engaged within months Yet less than a year later only eleven days before their intended wedding Carrillo Puerto was assassinated He had earned his place in the history books but Reed had won a place in the hearts of Mexicans the bolero *La Peregrina* remains one of the Yucatán's most famous ballads Alma Reed recovered from her tragic romance to lead a long successful life She eventually returned to Mexico where her work in journalism archaeology and art earned her entry into the

Orden del Aguila Azteca Order of the Aztec Eagle Her time with Carrillo Puerto however was the most intense of her life and when she was encouraged by Hollywood especially to write her autobiography she began with that special period Her manuscript which disappeared immediately after her sudden death in 1966 mingled her legendary love affair with a biography of Carrillo Puerto and the political history of the Yucatán As such it has long been sought by scholars as well as romantics In 2001 historian Michael Schuessler discovered the manuscript in an abandoned apartment in Mexico City An absolutely compelling memoir Peregrina restores Reed's place in Mexican history in her own words **In Excess** Masha Salazkina,2009-08-01 During the 1920s and 30s Mexico attracted an international roster of artists and intellectuals including Orson Welles Katherine Anne Porter and Leon Trotsky who were drawn to the heady tumult engendered by battling cultural ideologies in an emerging center for the avant garde Against the backdrop of this cosmopolitan milieu In Excess reconstructs the years that the renowned Soviet director Sergei Eisenstein spent in the country to work on his controversial film Que Viva Mexico Illuminating the inextricability of Eisenstein's oeuvre from the global cultures of modernity and film Masha Salazkina situates this unfinished project within the twin contexts of postrevolutionary Mexico and the ideas of such contemporaneous thinkers as Walter Benjamin In doing so Salazkina explains how Eisenstein's engagement with Mexican mythology politics and art deeply influenced his ideas particularly about sexuality She also uncovers the role Eisenstein's bisexuality played in his creative thinking and identifies his use of the baroque as an important turn toward excess and hybrid forms Beautifully illustrated with rare photographs In Excess provides the most complete genealogy available of major shifts in this modern master's theories and aesthetics *Shadows, Fire, Snow* Patricia Albers,2002-03-11 An engaging biography of a dedicated artist and political activist who followed her heart and her ideals and burned out early leaving a legacy of unforgettable photographs *Cuba, the United States, and the Culture of the Transnational Left, 1933-1970* John A. Gronbeck-Tedesco,2015-10-20 This book examines the ways in which Cuba's revolutions of 1933 and 1959 became touchstones for border crossing endeavors of radical politics and cultural experimentation over the mid twentieth century It argues that new networks of solidarity building between US and Cuban allies also brought with them perils and pitfalls that could not be separated from the longer history of US empire in Cuba As US and Cuban subjects struggled together towards common aspirations of racial and gender equality fairer distribution of wealth and anti imperialism they created a unique index of cultural work that widens our understanding of the transition between hemispheric modernism and postmodernism Canvassing poetry music journalism photographs and other cultural expressions around themes of revolution this book seeks new understanding of how race gender and nationhood could shift in meaning and materialization when traveling across the Florida Straits **Open Borders to a Revolution** Jaime Marroquin Arredondo,Adela Pineda Franco,Magdalena Mieri,2013-10-30 Open Borders to a Revolution is a collective enterprise studying the immediate and long lasting effects of the Mexican Revolution in the United States in such spheres as diplomacy politics and intellectual thought It marks both the

Women, Ethnicity and Nationalisms in Latin America Natividad Gutiérrez Chong, 2016-12-05 The relationship between gender and nationalism is a compelling issue that is receiving increasing coverage in the scholarly literature With case studies covering Argentina Ecuador Bolivia and Mexico this is the first book to explore these links in the context of Latin America It includes contributions from Latin American scholars to offer a unique and revealing view of the most important political and cultural issues The work opens by outlining four dimensions in the relationship between gender and nationalism These are the contribution of women to nation building and their exclusion from it by the state and its institutions the role of women in contemporary ethnic and nationalist movements the place of the female body in the myths and traditions surrounding the nation and the role of women in forging the intellectual and artistic culture of the nation It then provides both theoretical and empirical explorations of these themes with chapters covering the debate on multiculturalism and gender in the construction of the nation the struggles of ethnic women to participate politically in their communities and studies of the first Mexican filmmaker Mimi Derrba and the indigenous heroine Dolores Cacuango from Ecuador
