*Bowker's Guide to Characters in Fiction* ,2003 **Advent** Razgriz Draterra,2014-11-24 Dictionary com defines advent to be a coming into place view or being What is advent here It is an adult science fiction novel set in the somewhat near future in an alternate reality It is the first book in a six part series It starts with an ancient immortal soldier with the heart mind and body of a young adult who goes on a routine mission to squash some Space Pirate bugs Unfortunately things do not go as planned He and his squad are captured and are going to be experimented upon in a pirate bioweapons project Fortunately for him he manages to escape at the last second Good right Wrong It was too late for him He s already been injected with a DNA changing virus His internal medical nanites are losing the battle within him and he quickly loses all of his advanced equipment basically everything that made him unique What will happen to him Alone on a strange world with no skills

beyond his lax military background he must find out what happened to his soldiers and find a way to get back with what little he's got The alternative is to try to grow up and try to make a name for himself or else he'll lose himself and never return This is the beginning of a new arc Zero is taken out of his comfort zone as the leader of the most powerful yet questionably lax peacekeeping military power in the galaxy and is dumped into a new world forced to adapt quickly while trying to hold onto his old principles The only thing compelling him to live on is his current emergency objective but how long would that really last Under his stolid complexion he is slowly losing purpose losing all control to a demon Until he finds someone worth fighting for to bring him back anew
