Excerpt from Annals of the American Revolution or a Record of the Causes and Events Which Produced and Terminated in the Establishment and Independence of the American Republic To Which Is Prefixed a Summary Account of the First Settlement of the Country and Some of the Principal Indian Wars What subtlety so ever be in the Weroanees and Priests this opinion worketh so much in the common sort that they have great respect to their Governors and as great care to avoid torment after death and to enjoy bliss Yet they have divers sorts of punishments according to the offence according to the greatness of the fact And this is the sum of their religion which I learned by having special familiarity with their priests wherein they were not so sure grounded nor gave such credit but through conversing with us they were brought into great doubts of their own and no small admiration of ours of which many desired to learn more than we had means for want of utterance in their language to express Most thi 5 they saw with us as mathematical instruments sea compasses the virtue o the loadstone perspective glasses burning glasses clocks to go of themselves books writing guns and such like so far exceeded their capacities that they thought they were rather the works of gods than men or at least the gods had taught us how to make them which loved us so much better than them and caused many of them to give credit to what we spake concerning our God In all places where I came I did my best to make his immortal glory known And I told them although the biblei shewed them contained all yet of itself it was not of any such virtue as I thought the did conceive Notwithstanding many would be glad to touch it to kiss an em brage it to hold it to their breasts and heads and stroke all their body over wit it The King Mngina where we dwelt would oft be with us at prayer Twice he was exceeding sick and like to die And doubting of any help from his priests thinking he was in such danger for offending us and our God sent for some of us to pray and be a means to our God he might live with him after death And so did many others in the like case One other strange accident leaving others will I mention before I end which moved the whole country that either knew or heard of us to have us in wonderful

Women in the American Revolution Sudie Doggett Wike,2018-02-02 Without the support of American women victory in the Revolutionary War would not have been possible They followed the Continental Army handling a range of jobs that were usually performed by men On the orders of General Washington some were hired as nurses for 2 per month and one full ration per day disease was rampant and nurse mortality was high A few served with artillery units or masqueraded as men to fight in the ranks The author focuses on the many key roles women filled in the struggle for independence from farming to making saltpeter to spying

diseases during the American Revolution as did from wounds Poor diet inadequate sanitation and sometimes a lack of basic medical care caused such diseases as dysentery scurvy typhus smallpox and others to decimate the ranks Scurvy was a major problem for both the British and American navies while venereal diseases proved to be a particularly vexing problem in New York Respiratory diseases scabies and other illnesses left nearly 4 000 colonial troops unable to fight when George Washington's troops broke camp at Valley Forge in June 1778 From a physician's perspective this is a unique history of the American Revolution and how diseases impacted the execution of the war effort The medical histories of Washington and King George III are also provided

Beaumarchais and the American Revolution Brian N. Morton, Donald C. Spinelli, 2003-01-01 Described by the magazine American Heritage as the Most Underrated French Hero of the American Revolution Caron de Beaumarchais the French watchmaker who rose to fame and fortune as a dramatist polemist and Enlightenment free thinker became the most famous arms dealer of the American Revolutionary War Based on archival research in Europe and the U S this authoritative study tells the fascinating story of Beaumarchais's role as an owner and outfitter of ships and as an arms merchant It chronicles his dealings with Louis XVI

Vergennes Benjamin Franklin and the American Continental Congress and his family's struggle to receive payment for the weapons and materiel sent to the American colonists Morton and Spinelli's work is a rich detailed history of the American Revolution and of one of the eighteenth century's most engaging characters **The Great Awakening** Thomas S.

Kidd, 2008-10-01 In the mid eighteenth century Americans experienced an outbreak of religious revivals that shook colonial society This book provides a definitive view of these revivals now known as the First Great Awakening and their dramatic effects on American culture Historian Thomas S Kidd tells the absorbing story of early American evangelical Christianity through the lives of seminal figures like Jonathan Edwards and George Whitefield as well as many previously unknown preachers prophets and penitents The Great Awakening helped create the evangelical movement which heavily emphasized the individual's experience of salvation and the Holy Spirit's work in revivals By giving many evangelicals radical notions of the spiritual equality of all people the revivals helped breed the democratic style that would come to characterize the American republic Kidd carefully separates the positions of moderate supporters of the revivals from those of radical supporters and he delineates the objections of those who completely deplored the revivals and their wildly egalitarian consequences The battles among these three camps the author shows transformed colonial America and ultimately defined the nature of the evangelical movement
