Anniversaries Of Solar Worship:

Astral Worship J.H. Hill, 2023-01-30 In an article entitled then and Now published in the December number 1890 of the *Arena* its author a distinguished Unitarian D D of Boston Mass says Astronomy has shattered the fallacies of Astrology and people have found out that the stars are minding their own business instead of meddling with theirs Now while it is true that modern Astronomy has superseded the ancient system and people have ceased to believe that the stars are intervening in mundane affairs nothing could be further from the truth than the assertion that Astronomy has shattered the fallacies of Astrology and those of our readers who will accord to this work an unprejudiced perusal can hardly fail to be convinced that a large majority of the people of Christendom are dominated as much by these fallacies as were our Pagan ancestry the only difference being a change of name the dogmatic element of religion which was anciently designated as Astrology is now known as theology

Anniversaries of Solar Worship J. H. Hill, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work

The Hindu Religious Year M. M. Underhill, 1991

The Popular Religion and Folk-Lore of Northern India (Complete) William Crooke, 2020-09-28 Among all the great religions of the world there is none more catholic more assimilative than the mass of beliefs which go to make up what is popularly known as Hinduism To what was probably its original form a nature worship in a large degree introduced by the Aryan missionaries has been added an enormous amount of demonolatry fetishism and kindred forms of primitive religion much of which has been adopted from races which it is convenient to describe as aboriginal or autochthonous The same was the case in Western lands As the Romans extended their Empire they brought with them and included in the national pantheon the deities of the conquered peoples Greece and Syria Egypt Gallia and Germania were thus successively laid under contribution This power of assimilation in the domain of religion had its advantages as well as its dangers While on the one hand it tended to promote the unity of the empire it degraded on the other hand the national character by the introduction of the impure cults which flourished along the eastern shores of the Mediterranean But besides these forms of religion which were directly imported from foreign lands there remained a stratum of local beliefs which even after twenty centuries of Christianity still flourish discredited though they may be by priests and placed under the ban of the official creed Thus in Greece while the high gods of the divine race of Achilles and Agamemnon are forgotten the Nereids the Cyclopes and the Lamia still live in the faith of the peasants of Thessaly So in modern Tuscany

there is actually as much heathenism as catholicism and they still believe in La Vecchia Religione the old religion and while on great occasions they have recourse to the priests they use magic and witchcraft for all ordinary purposes It is part of the object of the following pages to show that in India the history of religious belief has been developed on similar lines Everywhere we find that the great primal gods of Hinduism have suffered grievous degradation Throughout the length and breadth of the Indian peninsula Brahma the Creator has hardly more than a couple of shrines specially dedicated to him Indra has as we shall see become a vague weather deity who rules the choirs of fairies in his heaven Indra loka Varuna as Barun has also become a degraded weather godling and sailors worship their boat as his fetish when they commence a voyage The worship of Agni survives in the fire sacrifice which has been specialized by the Agnihotri Br hmans Of P shan and Ushas V yu and the Maruts hardly even the names survive except among the small philosophical class of reformers who aim at restoring Vedism a faith which is as dead as Jupiter or Aphrodite

Devotional Music in the Iberian World, 1450-1800
Tess Knighton, 2017-07-05 From the fifteenth century to the beginning of the nineteenth century devotional music played a fundamental role in the Iberian world Songs in the vernacular usually referred to by the generic name of villancico but including forms as varied as madrigals ensaladas tonos cantatas or even oratorios were regularly performed at many religious feasts in major churches royal and private chapels convents and in monasteries These compositions appear to have progressively fulfilled or supplemented the role occupied by the Latin motet in other countries and as they were often composed anew for each celebration the surviving sources vastly outnumber those of Latin compositions they can be counted in tens of thousands The close relationship with secular genres both musical literary and performative turned these compositions into a major vehicle for dissemination of vernacular styles throughout the Iberian world This model of musical production was also cultivated in Portugal and rapidly exported to the Spanish and Portuguese colonies in America and Asia In many cases the villancico repertory represents the oldest surviving source of music produced in these regions thus affording it a primary role in the construction of national identities The sixteen essays in this volume explore the development of devotional music in the Iberian world in this period providing the first broad based survey of this important genre
