Annual Editions Anthropology 97 98:

Expanding American Anthropology, 1945-1980 Alice Beck Kehoe, Paul L. Doughty, 2012-01-06 This book examines American anthropology's participation in the expansion of the social sciences after World War II. Anthropology itself expanded into diverse subfields at this time on the initiative of individuals. The Association of Senior Anthropologists of the American Anthropological Association (AAA) asked some of these individuals to give accounts of their personal innovations in this discipline, which provides primary source material on the history of American anthropology. *Annual Editions* Elvio Angeloni, 1997 Anthropology contains a variety of articles on contemporary issues in social and cultural anthropology.

English for academic purposes (EAP) grounds English language teaching in the cognitive and linguistic demands of academic situations, tailoring instruction to specific rather than general purposes. Critical pedagogy acknowledges students and teachers' subject positions that include their class, race, gender, and ethnicity and encourages them to question the status quo. *Critical English for Academic Purposes* engages students in the types of activities they are asked to carry out in academic classes while inviting them to question and, in some cases, transform those activities as well as the conditions from which they arose. It takes into account the real challenges non-native speakers of English face in their discipline-specific classes while viewing students as active participants who can help shape academic goals and assignments. *Critical English for Academic Purposes: Theory, Politics, and Practice* relates English for academic purposes and critical pedagogy, revealing and problematizing the assumptions of both fields, provides theoretical and practical responses to academic syllabi and other institutional demands to show that teachers can both meet target demands and take students' subjectivities into account in a climate of negotiation and possibility, offers rights analysis as a critical counterpart to needs analysis, discusses the politics of coverage in lecture classes, and proposes alternatives and features teaching examples that address balancing the curriculum for gender, building community in an EAP class of students from diverse economic and social backgrounds, students' rights, and organizing students to change unfavorable conditions. This book is intended for undergraduate and graduate courses for preservice and in-service ESL and EAP teachers. It is also a professional book for those interested in critical approaches to teaching and EAP. **Annual Editions** Elvio Angeloni, 1997-01 Includes index. *African Anthropology*, 1999 **The Nature of Paleolithic Art** R.
