Community, Liberalism and Christian Ethics David Fergusson, 1998-11-26 This book explores some current issues on the borderland between moral philosophy and Christian theology Particular attention is paid to the issues at stake between liberals and communitarians and the dispute between realists non realists and quasi realists In the course of the discussion the writings of Alasdair MacIntyre George Lindbeck and Stanley Hauerwas are examined While sympathetic to many of the typical features of post liberalism the argument is critical at selected points in seeking to defend realism and accommodate some aspects of liberalism The position that emerges is more neo Barthian than post liberal In maintaining the distinctiveness of Christian ethics and community the book also seeks to acknowledge common moral ground held by those within and without the church

Theology, Political Theory, and Pluralism Kristen Deede Johnson, 2007-01-25 How can we live together in the midst of our differences This is one of the most pressing questions of our time Tolerance has been the bedrock of political liberalism while proponents of agonistic political thought and radical democracy have sought an answer that allows a deeper celebration of difference Kristen Deede Johnson describes the move from tolerance to difference and the accompanying move from epistemology to ontology within political theory Building on this ontological turn in search of a theological answer to the question she puts Augustine into conversation with recent political theorists and theologians This theological option enables the Church to envision a way to engage with contemporary political society without losing its own embodied story and practices It contributes to our broader political imagination by offering a picture of rich engagement between the many different particularities that constitute a pluralist society

A History of Catholic Moral Theology in the Twentieth Century James F. Keenan, 2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics also known as moral theology The thesis is that only through historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th could

become by the end of the 20th century the most innovative one The 20th century begins with moral manuals being translated into the vernacular After examining the manuals of Thomas Slater and Henry Davis Keenan then turns to three works and a crowning synthesis of innovation all developed before during and soon after the Second World War The first by Odon Lottin asks whether moral theology is adequately historical Fritz Tillmann asks whether it is adequately biblical and Gerard Gilleman whether it is adequately spiritual Bernard Haering integrates these contributions into his Law of Christ Of course people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere classical gate keepers censoring innovation But with Humanae vitae and successive encyclicals bishops and popes reject the direction of moral theologians At the same time moral theologians like Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience In their move toward a deeper appreciation of their field as forming consciences they turn more deeply to local experience where they continue their work of innovation Each continent subsequently gives rise to their own respondents In Europe they speak of autonomy and personalism in Latin America liberation theology in North America Feminism and Black Catholic theology and in Asia and Africa a deep post colonial interculturatism At the end I assert that in its nature theological ethics is historical and innovative seeking moral truth for the conscience by looking to speak crossculturally

The Second-Person Perspective in Aquinas's Ethics

Andrew Pinsent, 2013-10-18 Thomas Aquinas devoted a substantial proportion of his greatest works to the virtues Yet despite the availability of these texts and centuries of commentary Aquinas's virtue ethics remains mysterious leaving readers with many unanswered questions In this book Pinsent argues that the key to understanding Aquinas's approach is to be found in an association between a attributes he appends to the virtues and b interpersonal capacities investigated by the science of social cognition especially in the context of autistic spectrum disorder The book uses this research to argue that Aquinas's approach to the virtues is radically non Aristotelian and founded on the concept of second person relatedness To demonstrate the explanatory power of this principle Pinsent shows how the second person perspective gives interpretation to Aquinas's descriptions of the virtues and offers a key to long standing problems such as the reconciliation of magnanimity and humility The principle of second person relatedness also interprets acts that Aquinas describes as the fruition of the virtues Pinsent concludes by considering how this approach may shape future developments in virtue ethics Journal of Moral Theology, Volume 1, Number 2

Evil and the Augustinian Tradition Charles T. Mathewes, 2001-09-06 This explores the family biography of the Augustinian tradition by looking at Augustine's work and its development in the writings of Hannah Arendt and Reinhold Niebuhr Mathewes argues that the Augustinian tradition offers us a powerful though commonly misconstrued proposal for understanding and responding to evil's challenges The book casts light on Augustine Niebuhr and Arendt as well as on the problem of evil the nature of tradition and the role of theological and ethical discourse in contemporary thought

Ethics and Advocacy Harlan Beckley, Douglas F. Ottati, Matthew R. Petrussek, William Schweiker, 2022-03-25 *Ethics and Advocacy* considers the connections and differences between critical reflection or moral arguments or narratives and advocacy for particular issues regarding justice and moral behavior and dispositions The chapters in this volume share an interest in overcoming polarizing division that does not enable fruitful give and take discussion and even possible persuasive justifications The authors all believe that both ethics and advocacy are important and should inform each other but each offers a divergent point of view on the way forward to these agreed upon ends Our shared goal is to avoid academic withdrawal and to speak relevantly to the important issues of our day while halting or at least mitigating the disruptive discourse almost shouting that characterizes our polarized current society

Would You Lie to Save a Life Michael Glenn Maness, 2007-09 *The Sparrow and the Crow* is and will be an epic journey deep within your wildest imagination It takes you in places that light cannot exist but love does It makes you fear what you don't believe and except what you can't conceive Christ was a flower a perfect flower taken into the eye of the sparrow Hatred rage anger became justice caught within the heart of the crow The power of Christ has traveled through the ages searching for two people a man and a woman who are not perfect before God but their hearts are pure and one with creation They are the chosen ones Two people willing to die for each other for no other reason than to preserve a single burning light within a darkened night A candlelight burning within the Eye of the Sparrow His promise to Adam and Eve becomes the Omen of the Crow That he who seeks the rose shall inherit the Heavens and Earth forever more
