Annual Review of Psychology ,2000 **Solidarity and Prosocial Behavior** Detlev Fetchenhauer,Andreas Flache,Abraham Buunk,Sigwaart Lindenberg,2006-08-29 This book is the product of an intensive cooperation between psych ogists and sociologists who study solidarity and prosocial behavior and its fruits are briefly summarized in Chapter 1 The topics of so darity and prosocial behavior are at the core of both disciplines and thus one might expect that an intensive cooperation like the one that produced this book is not uncommon Surprisingly however it is extremely rare that sociologists and psychologists get together to c bine their knowledge in these fields Instead researchers from both disciplines tend to ignore each other s work quite generally and the work on prosocial and antisocial behavior is no exception The conviction that sociology and psychology can benefit from each other s work led us a group of sociologists and psychologists at the University of Groningen The Netherlands in 1999 to launch a joint research project on solidarity and prosociality The aim was to find a common ground on which insights from each discipline could contribute to a broader understanding of solidarity and prosocial behavior This interdisciplinary research project was called Prosocial Dispositions and Solidary Behavior and it was financed by the University of Groningen as a so called breedtestrategie program i e a program for broadening disciplinary approaches

Family Stress Pauline Boss,Carol Mulligan,2003 Why do some families rebound from stress with seeming ease while others seem to struggle This anthology comprised of 23 major articles from the family stress literature addresses questions such as the increasingly diverse and complex family situations of stress and crisis This volume provides the family stress community with an accessible coherent compilation of writings by past present and emerging family stress scholars The reader includes classic and current writings from multi disciplinary streams of work in family social science social work nursing family sociology family therapy and family psychology Key Features Culture and Context With an eye toward more culturally inclusive theories the selected readings address how culture and context both aid and impede family resilience Clarity An overall introduction and section introductions by Pauline Boss provide context for each individual reading and coherence for the book as a whole Critical Thought A critical thinking focus outlined in chapter introductions encourages students researchers and practitioners to expand their own thinking about the concepts and models of family stress and coping to guide the development of future work in this field Crossover Coverage Designed to parallel coverage in Pauline Boss s best selling text Family Stress Management Second Edition this collection of readings should nonetheless serve as a valuable resource on its own and in tandem with other texts in this area Recommended for upper division undergraduate and master s students in departments of or courses related to Sociology Marriage Family Therapy and Family Studies Also suggested for professionals and practitioners working with families in social work nursing family therapy and family psychology settings
