Science Fiction and Fantasy Literature A Checklist 1700 1974 Volume Two of Two contains Contemporary Science Fiction Authors II Travel and Imagination Garth Lean, Russell Staiff, 2016-02-24 The imagination has long been associated with travel and tourism from the seventeenth century when the showman and his peepshow box would take the village crowd to places cities and lands through the power of stories to today when we rely on a different range of boxes to whisk us away on our imaginative travels the television the cinema and the computer Even simply the notion of travel it would seem gives us license to daydream The imagination thus becomes a key concept that blurs the boundaries between our everyday lives and the idea of travel Yet despite what appears to be a close and comfortable link there is an absence of scholarly material looking at travel and the imagination Bringing together geographers sociologists cultural researchers philosophers anthropologists visual researchers archaeologists heritage researchers literary scholars and creative writers this edited collection explores the socio cultural phenomenon of imagination and travel The volume reflects upon imagination in the context of many forms of physical and non physical travel inviting scholars to explore this fascinating yet complex area of inquiry in all of its wonderful colour slipperiness mystery and intrigue The book intends to provide a catalyst for thinking discussion research and writing with the vision of generating a cannon of scholarship on travel and the imagination that is currently absent from the literature Fiction, 1876-1983: Authors R.R.
