Asian Food Feasts Sigrid M. Shepard, Margaret V. Putman, 1984      *Feasting in Southeast Asia* Brian Hayden, 2016-11-30

Feasting has long played a crucial role in the social political and economic dynamics of village life It is far more than a gustatory and social diversion from daily work routines alliances are brokered by feasts debts are created and political battles waged Feasts create enormous pressure to increase the production of food and prestige items in order to achieve the social and political goals of their promoters In fact Brian Hayden argues the domestication of plants and animals likely resulted from such feasting pressures Feasting has been one of the most important forces behind cultural change since the end of the Paleolithic era *Feasting in Southeast Asia* documents the dynamics of traditional feasting and the ways in which a bewildering array of different types of feasts benefits hosts Hayden argues that people s ability to marry reproduce defend themselves against threats and attacks and protect their interests in village politics all depend on their ability to engage in feasting networks To be excluded from such networks means to be subject to attack by social predators perhaps even leading to enslavement As an archaeologist Hayden pays specific attention to the materials involved in feasting and how feasting might be identified and interpreted from archaeological remains His conclusions are based on his own ethnographic field studies in Thailand Laos Vietnam and Indonesia as well as a comparative overview of the regional literature on feasting Hayden gives particular attention to the longhouses of Vietnam an unusual but important social unit that hosts feasts in an attempt to understand why they became established This unique volume is the culmination of fifteen years of fieldwork among tribal groups in Southeast Asia Until now no one has examined feasting as a general phenomenon in Southeast Asia or tried to synthesize its underlying dynamics from a theoretical perspective The book will be of interest to cultural anthropologists archaeologists historians and others involved in food studies      *Chinese Food and Foodways in Southeast Asia and Beyond* Tan Chee-Beng, 2012-08-01 Chinese cuisine has had a deep impact on culinary traditions in Southeast Asia where the lack of certain ingredients and access to new ingredients along with the culinary knowledge of local people led Chinese migrants to modify traditional dishes and to invent new foods This process brought the cuisine of southern China considered by some writers to be the finest in the world into contact with a wide range of local and global cuisines and ingredients When Chinese from Southeast Asia moved on to other parts of the world they brought these variants of Chinese food with them completing a cycle of culinary reproduction localization and invention and globalization The process does not end there for the new context offers yet another set of ingredients and culinary traditions and the embedding and fusing of foods continues creating additional hybrid forms Written by scholars whose deep familiarity with Chinese cuisine is both personal and academic *Chinese Food and Foodways in Southeast Asia and Beyond* is a book that anyone who has been fortunate enough to encounter Southeast Asian food will savour and it provides a window on this world for those who have yet to discover it      *Crazy Feasts* Marilyn Ekdahl Ravicz, 2016-12-21 *CRAZY FEASTS* is a culinary history cookbook that
