Asian Storm Asia's Economic Crisis Examined:

The Asian Financial Crisis: New International Financial Architecture Shalendra Sharma, 2003-10-03 The Asian financial crisis of 1997-98 shook the foundations of the global economy. What began as a localized currency crisis soon engulfed the entire Asian region. What went wrong and how did the Asian economies, long considered miracles, respond? How did the United States, Japan, and other G-7 countries react to the crisis? What role did the IMF play? Why did China remain conspicuously insulated from the turmoil raging in its midst? What lessons can be learnt from the crisis by other emerging economies? This book provides answers to all the above questions and more. It gives a comprehensive account of how the international economic order operates, examines its strengths and weaknesses, and what needs to be done to fix it. The book will be vital to students of economics, international political economy, Asian and development studies.

Rural Livelihoods, Resources, and Coping with Crisis in Indonesia M. J. Titus, Paul P. M. Burgers, 2008 Most literature on the economic crisis in Indonesia has focused on the negative macro-economic impacts during the crisis years of 1997-99. The case studies presented in this book take a different perspective. With a longitudinal research perspective, this comparative study analyses a wide variety of responses to the crisis among communities and households. The case studies in this book cover the coping and adapting mechanisms of rural households under a variety of resource use practices and resource use regulations in different areas of Indonesia.

Institutionalizing East Asia Alice D. Ba, Cheng-Chwee Kuik, Sueo Sudo, 2016-03-10 Institutional activities have remarkably transformed East Asia, a region once known for the absence of regionalism and regime building efforts. Yet the dynamics of this Asian institutionalization have remained an understudied area of research. This book offers one of the first scholarly attempts to clarify what constitutes institutionalization in East Asia and to systematically trace the origins, discern the features, and analyze the prospects of ongoing institutionalization processes in the world's most dynamic region. *Institutionalizing East Asia* comprises eight essays grouped thematically into three sections. Part I considers East and Southeast Asia as focal points of inter-state exchanges and traces the institutionalization of inter-state cooperation, first among the Southeast Asian states and then among those of the wider East Asia. Part II examines the institutionalization of regional collaboration in four domains: economy, security, natural disaster relief, and ethnic conflict management. Part III discusses the institutionalization dynamics at the sub-regional and inter-regional levels. The essays in this book offer a useful source of reference for scholars and researchers specializing in East Asia, regional architecture, and institution building in international relations. They will also be of interest to postgraduate and research students interested in ASEAN, the drivers and limits of international cooperation, as well as the role of regional multilateralism in the Asia-Pacific region.

Asian Godfathers Joe Studwell, 2008-09-23 The author of *How Asia Works* follows the money. Alarming, enlightening. Joe Studwell should be named chief myth buster for Asian business. Financial Times Hong Kong and Southeast Asia are home to five hundred million people, yet their economies are dominated by only fifty families whose interests range

from banking to real estate shipping to sugar gambling to lumber At their peak eight of the world's two dozen richest men were Southeast Asian but their names would not be familiar to most regular readers of The Wall Street Journal A complex mythology surrounds these billionaires but in Asian Godfathers Joe Studwell finds that the facts are even more remarkable than the myths Studwell has spent fifteen years as a reporter in the region and he marshals his unprecedented sources to paint intimate and revealing portraits of the men who control Southeast Asia Studwell also provides us with a rich and deep understanding of the broader historic economic and political influences that have shaped Southeast Asia over the past 150 years Asian Godfathers is a riveting and illuminating book that lifts the curtain on a world of staggering secrecy and hypocrisy and reveals for the first time who the leaders of one of the planet's most important and tumultuous markets really are why they got to the top and how they keep themselves there The romp around the region's pleasure domes is a blast The Wall Street Journal Asia

Malaysian "bail Outs"? Sook Ching Wong, Jomo Kwame Sundaram, Kok Fay Chin, 2005 As Malaysia's government responded to the 1997-98 financial crisis the global financial community criticised its measures as bail outs for politically influential corporate interests This book examines the Asian crisis and government policy responses with emphasis on capital controls as well as corporate bank and debt restructuring exercises

Malaysian Foreign Policy in the Mahathir Era, 1981-2003 Karminder Singh Dhillon, 2009 Summary Malaysia's former Prime Minister Mahathir Mohamad is often seen as the sole author of the country's foreign policy Malaysian Foreign Policy in the Mahathir Era shows that while Mahathir's personality leadership style political ideology and brand of nationalism unquestionably had a deep impact so too did domestic issues and external forces associated with globalization The book examines seven major foreign policy initiatives of the Mahathir period Buy British Last Anti Commonwealth Look East Third World Spokesmanship Regional Engagement Islamic Posturing and Commercial and Developmental Diplomacy In discussing these topics the author explains the significance for foreign policy of communal concerns the regime's need to maintain its own authority in the face of political and social initiatives some rooted in Islam and its desire to achieve national development He also discusses external pressures including Japan's regional designs Singapore's defense posture and the growing importance of China for the region The approach breaks away from the elitist decision making styles and single factor models usually employed to explain the foreign policy of developing nations and establishes a direct link between domestic politics and foreign policy during the period studied suggesting that the latter was

truly an extension of the former Publisher description **The Tragedy that Didn't Happen** Marie-Aimée Tourres,2003
