Suicide in Asia Paul S.F. YIP,2008-09-01 Over one million people worldwide commit suicide every year and more than 60% of suicide deaths occur in Asia However very little reliable information is available to permit a good understanding of the multifaceted and complex issues involved in suicide prevention in the region This book provides detailed analyses of suicide in eight Asian societies While each society has its own unique characteristics Asia as a whole is under rapid transition and transformation and the associated stress and depression are both closely linked to suicide Hopefully a better evidence based understanding of suicide will enable governments and non government organizations to establish effective and culturally sensitive suicide prevention strategies for the region

Singapore Malay/Muslim Community, 1819-2015 Hussin Mutalib,Rokiah Mentol,Sundusia Rosdi,2016-06-29

Singapore's Malay Muslim community constituting about 15 per cent of the total population and constitutionally enshrined as the indigenous people of Singapore have had its fair share of progress and problems in the history of this country. While different aspects of the vicissitudes of life of the community have been written over the years, there has not been a singularly substantive published compendium specifically about the community in the form of a Bibliography available. This academic initiative fills this obvious literature gap. The scope and coverage of this Bibliography is manifestly comprehensive encompassing the different sources of information print or non print about the many facets of life of the Republic's Malays Muslims such as education, economy, politics, culture, history, health, language, religion, arts and more. The result is a Bibliography that is arguably the most expansive if not exhaustive treasury collection about the community ever available anywhere. Scholars and researchers in particular and the public in general should find this Bibliography a highly valuable indispensable source of information about the rich and varied life of Singapore's Malay Muslim community stretching a period of two centuries from the time of Stamford Raffles in 1819 until today. The Editors Hussin Mutalib Ph.D. a senior academic with the National University of Singapore, Rokiah Mentol and Sundusia Rosdi former senior librarians with Singapore's National Library Board are assisted by professional and experienced librarians.

Jérémy Jammes, Victor T. King, 2021-11-09 This book presents new perspectives on Southeast Asia using cases from a range of ethnic groups cultures and histories written by scholars from different ethnicities generations disciplines and scientific traditions It examines various research trajectories engaging with epistemological debates on the global and local on insiders and outsiders and the role played by personal experiences in the collection and analysis of empirical data The volume provides subjects for debate rarely addressed in formal approaches to data gathering and analysis Rather than grappling with the usual methodological building blocks of research training it focuses on neglected issues in the research experience including chance error coincidence mishap dead ends silence secrets improvisation remembering digital challenges and shifting tracks Fieldwork and the Self is relevant to academics and researchers from universities and international organisations who are engaged in teaching and learning in area studies and social science research methods A rich and compelling set of writings about fieldwork in and beyond Southeast Asia Lyn Parker Emeritus Professor University of Western Australia A must read for all especially emerging scholars on Southeast Asia and a refreshing read for critical old hands on the region Abdul Rahman Embong Emeritus Professor Institute of Malaysian and International Studies IKMAS Universiti Kebangsaan Malaysia An impressive collection of essays by two academics who have devoted their academic life to anthropological fieldwork in Southeast Asia Shamsul A B Distinguished Professor and UNESCO Chair Universiti Kebangsaan Malaysia The contributors share an unquenchable and passionate curiosity for Southeast Asia They have survived the uncertainties and disillusionment of their fieldwork and remained first grade scholars Marie Sybille de Vienne Professor National Institute for Oriental Languages and Civilisations Paris A penetrating reflection on current social science research on Southeast Asia Hans Dieter Evers Professor Emeritus and Senior Fellow University of Bonn *Asianism and the Politics of Regional Consciousness in Singapore* Leong Yew, 2013-11-20 Over the last two decades Singapore has undergone a substantial degree of Asianization Apart from participating in the Asian values debate of the 1990s re visioning itself as New Asia and a global Asian hub and establishing Asian identities for the commodities it consumes and produces Singapore has also repurposed its modernity cultures and ethos along similar regionalist precepts However even in recent times Singapore

continues to vacillate ambivalently between identifying with and differentiating itself from Asia Responding to the challenges Singapore faces in coming to terms with its Asian identity this book examines the complex cultural social and political underpinnings that have shaped Singapore's mainstream discourse on Asia Indeed it argues that its legacy as a colonial port city the exigencies of managing the post independence nation state and the larger forces of imperialism and capitalism all contribute to its politics of Asianism Taking a thoroughly interdisciplinary approach that spans history cultural studies postcolonialism and cultural geography Leong Yew reveals how Asia has been used to narrate Singapore's beginnings revalidate Singaporean ethnic culture and to consolidate its practices of consumption and commodification This book will be welcomed by students and scholars working across a range of fields including Asian culture and society Asian politics cultural theory and postcolonial studies

Suratman Markasan Sasterawan Singapura The Perception of Christianity as a Rational Religion in Singapore Clive S. Chin, 2017-03-23 This book evaluates the common criticism that Christianity in Asia is westernized Since the 1980s Asian evangelical theologians and missiologists argue that the intrusion of Western theology is responsible for the Western and hence alien expressions of Christianity in Asia Yet in Singapore the number of Christians has increased over the last few decades Empirical evidence demonstrates that younger Chinese Singaporeans convert from Buddhism or Taoism to Christianity partly because they perceive it as a rational religion over Buddhism or Taoism which are viewed as irrational or superstitious Not only do many converts favor Christianity as a rational religion but they do not regard Christianity as a Western religion at the point of their conversion What accounts for those recent developments This study explores the processes of modernization and globalization as important factors impacting religious change in Singapore Personal

contextual and structural elements actually influence one's religion of choice. In facilitating effective mission, one must qualify the use of the categories Asian and Western because religious and cultural boundaries overlap. What matters most in missiology is discerning how the gospel of Jesus Christ engages the self-understanding and lived realities of ethnic and religious others in diverse cultural settings.
