Asians Their Heritage And Their Destiny:

The Asians Paul Thomas Welty, 1976 *Asian Heritage Management* Kapila D. Silva, Neel Kamal Chapagain, 2013 The prevalent global heritage discourse has been primarily Euro centric in its origin premise and praxis Diverse cultural historical and geographical contexts such as that of Asia call for more context specific approaches to heritage management This book explores this complexity of managing the cultural heritage in Asia Case studies include sites of Angkor Himeji Castle Kathmandu Valley Luang Prabang Lumbini and Malacca and the book uses these to explore the religious worldviews heritage policies intangible heritage dimensions traditional preservation practices cultural tourism and the notion of cultural landscape that are crucial in understanding the cultural heritage in Asia It critiques the contemporary regulatory frameworks in operation and focuses on the issues of global impact on the local cultures in the region The book goes on to emphasize the need for integrated heritage management approaches that encompass the plurality of heritage conservation concerns in Asian countries Themes are discussed from the vantage point of heritage scholars and practitioners in the South Southeast and East Asia This book thus presents a distinctive Asian perspective which is a valuable source for students and practitioners of heritage within and beyond the Asian context *Asian and Pacific Islander Americans* Daya Singh Sandhu, 1999 Scholars of psychology education social work and counseling examine such topics as transracial adoption women s issues substance abuse and the racial experiences of 43 different ethnic groups often statistically lumped together Among the specific topics are Asian Indian women s bicultural experience political ethnic identity versus cultural ethnic identity ethnic variations in the adaptation of recent immigrant Asian adolescents regarding and sexual abuse **China, an Analytical Survey of Literature** United States. Sugirtharajah, 1999-02-01 The volume contributes a postcolonial perspective to such topics as textual production commentarial writings and translations in colonial times and then moves on to inspect Eurocentric notions embedded in current western biblical interpretation especially in projects such as Jesus Research It also contains an overview of and introduction to one of the most challenging and controversial theories of our time postcolonialism a theory that gives mediation and representation to Third World people Though long established in cultural studies postcolonial theory has not previously been seriously applied to Asian biblical interpretation **Southeast Asian Culture and Heritage in a Globalising World** Rahil Ismail, 2016-04-01 Southeast Asia has in recent years become a crossroads of cultures with high levels of ethnic pluralism not only between countries sub regions and urban areas but also at the local levels of community

and neighbourhood Illustrated by a series of international case studies this book demonstrates how the forces of post colonialism in their various manifestations are accelerating social change and creating new and imagined communities some of which are potentially disruptive and which may well threaten the longer term sustainability of the region Interdisciplinary in approach this book brings together geographers historians anthropologists architects education specialists planners and sociologists to make connections and new insights and to provide a truly comprehensive view of heritage culture and identity in this dynamic region
