Bruce J. Hillman

Ask Dr Salk:

Jonas Salk Charlotte Jacobs,2015 The first full biography of Jonas Salk offers a complete picture of the enigmatic figure from his early years working on an influenza vaccine for which he never fully got credit to his seminal creation of the Polio vaccine up through his later work to find a cure for AIDS Jonas Salk Richard Hantula,2004-01-04 A biography of the scientist and humanitarian who discovered the vaccine for polio a disease which crippled many people in the early part of the twentieth century Ask Dr. Salk Lee Salk,1984-02-01 The well known psychologist addresses issues of concern to parents and children in the 80s including teenage sex drugs discipline alcoholism and child abuse and offers sensible sympathetic advice Tales of the Undead - Suffer Eternal Anthology: Volume III Nathan J.D.L. Rowark,2013-10-08 The undead stand defiant before the dawn determined to outlive and outrun the end of forever One final time we shall know their pain and suffering for ourselves It s time to run with the wild ones and break loose from the pack as over twenty authors from around the world unleash their tales of an eternity gone wrong Dare you brave such epically depraved circumstance one final time

Knowledge Trove-GK-TB-06 Saraswati Experts, Knowledge Trove GK TB 06 **Selling Science** Stephen E.

Mawdsley,2016-08 Today when many parents seem reluctant to have their children vaccinated even with long proven medications the Salk vaccine trial which enrolled millions of healthy children to test an unproven medical intervention seems nothing short of astonishing In *Selling Science* medical historian Stephen E Mawdsley recounts the untold story of the first large clinical trial to control polio using healthy children 55 000 healthy children revealing how this long forgotten incident cleared the path for Salk s later trial Mawdsley describes how in the early 1950s Dr William Hammon and the National Foundation for Infantile Paralysis launched a pioneering medical experiment on a previously untried scale Conducted on over 55 000 healthy children in Texas Utah Iowa and Nebraska this landmark study assessed the safety and effectiveness of a blood component gamma globulin to prevent paralytic polio The value of the proposed experiment was questioned by many prominent health professionals as it harbored potential health risks but as Mawdsley points out compromise and coercion moved it forward And though the trial returned dubious results it was presented to the public as a triumph and used to justify a federally sanctioned mass immunization study on thousands of families between 1953 and 1954 Indeed the concept conduct and outcome of the GG study were sold to health professionals medical researchers and the public at each stage At a time when most Americans trusted scientists their mutual encounter under the auspices of conquering disease was shaped by politics marketing and at times deception Drawing on oral history interviews medical journals newspapers meeting minutes and private institutional records *Selling Science* sheds light on the ethics of scientific conduct and on the power of marketing to shape public opinion about medical experimentation **Papers Presented and Discussions Held** ,1960 A Plague on All Our Houses Bruce J. Hillman,2017 The medical detective story of Dr Michael Gottlieb s discovery of AIDS his struggle

with the medical establishment and the temptations of Hollywood **What Really Matters** Eugenia Price,2021-08-17

Eugenia Price has written a very personal accessible book about what for her is the central tenet of contemporary Christian life It is a book for all Christian readers one of her finest inspirations Is it faith she asks Is it prayer Is it spiritual growth Is it praise Is it service and giving Is it our commitment to God Himself Yes these are all basics for a fruitful life as a Christian But underlying and enhancing these virtues is God s everlasting love for us Once we are sure in this knowledge that God will never forsake us everything else will fall into place Faith and prayer and praise and giving and service and commitment to God and our fellow men will begin to happen as a result of our paying attention to the all important fact of His unswerving commitment to us *Polio* David M. Oshinsky,2005-04-12 Here David Oshinsky tells the gripping story of the polio terror and of the intense effort to find a cure from the March of Dimes to the discovery of the Salk and Sabin vaccines and beyond Drawing on newly available papers of Jonas Salk Albert Sabin and other key players Oshinsky paints a suspenseful portrait of the race for the cure weaving a dramatic tale centered on the furious rivalry between Salk and Sabin He also tells the story of Isabel Morgan perhaps the most talented of all polio researchers who might have beaten Salk to the prize if she had not retired to raise a family Oshinsky offers an insightful look at the National Foundation for Infantile Paralysis which was founded in the 1930s by FDR and Basil O Connor it revolutionized fundraising and the perception of disease in America Oshinsky also shows how the polio experience revolutionized the way in which the government licensed and tested new drugs before allowing them on the market and the way in which the legal system dealt with manufacturers liability for unsafe products Finally and perhaps most tellingly Oshinsky reveals that polio was never the raging epidemic portrayed by the media but in truth a relatively uncommon disease But in baby booming America increasingly suburban family oriented and hygiene obsessed the specter of polio like the specter of the atomic bomb soon became a cloud of terror over daily life Both a gripping scientific suspense story and a provocative social and cultural history Polio opens a fresh window onto postwar America **Hearings, Reports and Prints of the Senate Committee on Labor and Public Welfare** United States.
