Jurisprudence Wayne Morrison, 2016-04-08 This challenging book on jurisprudence begins by posing questions in the post modern context and then seeks to bridge the gap between our traditions and contemporary situation It offers a narrative encompassing the birth of western philosophy in the Greeks and moves through medieval Christendom Hobbes the defence of the common law with David Hume the beginnings of utilitarianism in Adam Smith Bentham and John Stuart Mill the hope for enlightenment with Kant Rousseau Hegel and Marx onto the more pessimistic warnings of Weber and Nietzsche It defends the work of Austin against the reductionism of HLA Hart analyses the period of high modernity in the writings of Kelsen Hart and Fuller and compares the different approaches to justice of Rawls and Nozick The liberal defence of legality in Ronald Dworkin is contrasted with the more disillusioned accounts of the critical legal studies movement and the personalised accounts of prominent feminist writers *The Law Students' Journal*, 1879

Name, Shame and Blame Christine Stewart, 2014-12-02 Papua New Guinea is one of the many former British Commonwealth colonies which maintain the criminalisation of the sexual activities of two groups despite the fact that the sex takes place between consenting adults in private sellers of sex and males who have sex with males The English common law system was imposed on the colonies with little regard for the social regulation and belief systems of the colonised and in most instances was retained and developed post Independence regardless of the infringements of human rights involved Now the HIV pandemic has thrown a spotlight not altogether welcome on the sexual activities of these two groups In Papua New Guinea a growing body of behavioural research has focused on such matters as individual sexual partnering condom use and awareness of HIV My work however has a different purpose I chose the terms in the title to highlight a nexus which I believe exists between the criminal law and negative attitudes of society At an international level the argument has been put that decriminalising sex work and sodomy will facilitate HIV epidemic management reducing the stigma and discrimination these groups encounter and making them easier to reach I undertook my research therefore with the aim of gaining deeper understanding of the effects the current situation of criminalisation might have on the social lives of these criminalised people today in the country generally and in Port Moresby the capital in particular and whether these effects might provide evidence to support the argument for law reform This is a rich and well researched study of the legal social and moral issues surrounding the criminalisation of two forms of consensual sex A very impressive piece of work it is extensively documented relies on a wide range of material and makes a clear and coherent argument about the place of law in producing identities and exclusions The attention to change over time and the complexity of the ways in which sexual behaviour is enacted and punished is a particular strength of the book Professor Sally Engle Merry Anthropology Law and Society New York University This book is

an exceptional contribution to our knowledge of the nexus between the criminal law and negative attitudes of society and what effects criminalization has on the social lives of prostitutes and males who have sex with males and whether these effects might provide evidence to support the argument for law reform The author's experience of Papua New Guinea allows her to comment in depth on such matters as the United Nations human rights approach to the HIV epidemic and their call to decriminalize all sexual acts between consenting adults She shows that criminal laws with the help of the normative discourse of religion and media underpin and legitimize high levels of stigma discrimination and abuse of prostitutes and males who have sex with males The quality of the writing and general presentation are exceptional Laura Zimmer Tamakoshi Truman State University retired

Slavery, Indenture and the Law Nandini Boodia-Canoo, 2023-01-31 This book addresses historical issues of colonialism and race which influenced the formation of multicultural society in Mauritius During the 19th century Mauritius was Britain's prime sugar producing colony yet unlike the West Indies its history has remained significantly under researched The modern demographic of multi ethnic Mauritius is unusual as in the absence of an indigenous people descendants of colonists slaves and indentured labourers constitute the majority of the island's population today Thus it may be said that the Mauritian nation was assembled during the period in question This work draws on an in depth examination of the two labour systems through which the island came to be populated slavery and indenture In studying the relevant laws four legal events of historical importance within the context of these two labour systems are identified the abolition of the slave trade the abolition of slavery private indentured labour migration and state regulated indenture This book is notable in that it presents a legal analysis of core historical events thus straddling the line between two disciplines and covers both slavery and indentured labour in Mauritian history Mauritius as an originally uninhabited island presents a rare case study for inquiries into colonial legacies multiculturalism and race consciousness The book will be a valuable resource to scholars worldwide in the fields of slavery indenture and the legal apparatus of forced labour
