Aspects Of The History Of Wooden Shipbui:

Mediterranean Wooden Shipbuilding Apostolos Delis,2015-10-27 In Mediterranean Wooden Shipbuilding Economy Technology and Institutions in Syros in the Nineteenth Century Apostolos Delis analyses the wooden shipbuilding industry of the port of Syros an important maritime and commercial crossroad in the nineteenth century eastern Mediterranean The main axes of analysis are the economic technical and institutional aspects of the industry in relation to the wider international context of shipping and trade Based on unpublished archival sources multi language secondary literature and the employment of interdisciplinary theoretical tools Apostolos Delis not only highlights the national and international significance of Syros shipbuilding industry but also contributes novel material to our knowledge of wooden shipbuilding in the Mediterranean

Essays in Naval History, from Medieval to Modern N.A.M. Rodger,2023-05-31 The articles collected here two appearing for the first time in English cover a number of topics central to naval history and illustrate the author s contention that this is not only or even chiefly a distinct area of special study but rather a central theme running through the history of England and of the whole British Isles Though the subjects and the styles vary a good deal the studies are linked by a common approach and some common ideas Hence many examine ways in which naval history has formed a key element in such subjects as intellectual religious administrative or medical history and explored the nature and meaning of sea power as a theme At the same time naval history is a technical subject which demands a willingness to understand warships the most complex artefacts and the structure of large and complex organisations Detailed evidence about ships and weapons can build large conclusions for example about late Anglo Saxon government and military organisation or about the nature of warfare at sea in the Renaissance era While mostly written from the British point of view several essays explicitly survey naval developments over a range of countries and even the most narrowly focused are at least implicitly aware of the wider world of war at sea

Aspects of the History of Wooden Shipbuilding John Sinclair Morrison,G. Van der Heide,Ole Crumlin-Pedersen,1970 What Really Sank the Titanic: Jennifer Hooper McCarty,Tim Foecke,2012-03-01 Was the ship doomed by a faulty design Was the hull s steel too brittle Was the captain negligent in the face of repeated warnings On the night of April 14 1912 the unsinkable RMS Titanic with over 2 200 passengers onboard struck an iceberg in the North Atlantic and plunged to a watery grave For nearly a century the shocking loss has haunted the world Now the same CSI techniques that are used to solve modern murder cases have been applied to the sinking of history s most famous ship Researchers Jennifer Hooper McCarty and Tim Foecke draw on their participation in expeditions to the ship s wreckage and experiments on recovered Titanic materials to build a compelling new scenario The answers will astound you Grippingly written What Really Sank the Titanic is illustrated with fascinating period photographs and modern scientific evidence reflecting the authors intensive study of Titanic artifacts for more than ten years In an age when forensics can catch killers this book does what no other book has before fingers the culprit in one of the greatest tragedies ever A fascinating trail of
