Aspern And Wagram 1809 Mighty Clash Of Empires:

Aspern & Wagram 1809 Ian Castle, 2005 The 1809 campaign on the Danube was to break the spell of Napoleon's invincibility. Indeed, Wagram, the largest battle in history at the time, was Napoleon's revenge for his first personal defeat on the battlefield at Aspern-Essling. In gaining this revenge, the French commander was not wholly successful. Although the French did indeed win the battle, as the Austrians eventually quit the field, the victory was an extremely hollow one. Not only was there no rout or pursuit, the Austrian troops left in good disciplined order, simply marching off the field, but also it was quite possibly the French who lost more men at the end of the day: approximately 27,500 killed and wounded with an additional 10,000 missing or taken prisoner. In contrast, the Austrians probably lost 23,750 killed and wounded, 7,500 prisoners, and about 10,000 missing. Many, however, of the latter returned to their regiments after the battle, thus perhaps making the total Austrian loss less than that of the French. Both these two-day battles are described by Ian Castle in this volume with detailed maps and graphics that afford the reader the opportunity to follow the many changes of fortune during the epic battles as each side captured, lost, then recaptured key positions.

European War and Diplomacy, 1337-1815 William Young, 2003-10 The history of international relations and warfare of early modern Europe has gained popularity in recent years. This bibliography provides a valuable listing of books, dissertations, and journal articles in the English language for scholars and general readers interested in diplomatic relations and warfare from the Hundred Years War to the Napoleonic Wars.

Napoleon's Defeat of the Habsburgs Volume III John H. Gill, 2010-06-15 A very impressive piece of work and it is unlikely to be surpassed for many years. A very valuable guide to Napoleon's last great victory. HistoryOfWar.org With this third volume, John Gill brings to a close his magisterial study of the war between Napoleonic France and Habsburg Austria. The account begins with both armies recuperating on the banks of the Danube. As they rest, important action was taking place elsewhere. Eugene won a crucial victory over Johann on the anniversary of Marengo. Prince Poniatowski's Poles outflanked another Austrian archduke along the Vistula, and Marmont drove an Austrian force out of Dalmatia to join Napoleon at Vienna. These campaigns set the stage for the titanic Battle of Wagram. Second only in scale to the slaughter at Leipzig in 1813, Wagram saw more than 320,000 men and 900 guns locked in two days of fury that ended with an Austrian retreat. The defeat, however, was not complete. Napoleon had to force another engagement before Charles would accept a ceasefire. The battle of Znaim, its true importance often not acknowledged, brought an extended armistice that ended with a peace treaty signed in Vienna. Gill uses an impressive array of sources in an engaging narrative covering both the politics of emperors and the privations and hardship common soldiers suffered in battle. Enriched with unique illustrations, forty maps, and extraordinary order of battle detail, this work concludes an unrivalled English language study of Napoleon's last victory. Sheds new light on well-known stages in the battle; he has covered more than just an epochal battle in a magnificent book that will satisfy the most avid enthusiasts of Napoleonic era military history.
