Assault On The Worker Occupational Health And Safety In Canada:

Assault on the Worker Charles E. Reasons, Lois L. Ross, Craig Paterson, 1981 Partisanship, Globalization, and Canadian Labour Market Policy Rodney S. Haddow, Thomas Richard Klassen, 2006-01-01 Using various theoretical approaches this book examines industrial relations workers compensation occupational health employment standards training and social assistance measuring the impact of partisanship and globalization on policy making in several areas It is useful for those interested in the field of labour market policy On the Job Craig Heron, Robert H. Storey, 1986 Every day millions of Canadians go out to work They labour in factories offices restaurants and retail stores on ships and deep in mines And every day millions of other Canadians mostly women begin work in their homes performing the many tasks that ensure the well being of their families and ultimately the reproduction of the paid labour force Yet for all its undoubted importance there has been remarkably little systematic research into the past and present dynamics of the world of work in Canada

The Canadian Labour Movement: A Short History Craig Heron, 1996 The Canadian Labour Movement is a fascinating story that brings to life the working men and women who built Canada's unions This concise history recounts the story of Canadian labour from the nineteenth century to the present day First published in 1989 it has been updated to include new developments in the world of labour up to 1995 Heron depicts the major events and trends in labour's history and assesses the current state and direction of the labour movement The Canadian Labour Movement is a masterful overview of the subject providing a broad and accessible introduction to Canadian labour **The Canadian Labour Movement** Craig Heron, 2020-06-01 In The Canadian Labour Movement historian Craig Heron and political scientist Charles Smith tell the story of Canada's workers from the midnineteenth century through to today painting a vivid picture of key developments such as the birth of craft unionism the breakthroughs of the fifties and sixties and the setbacks of the early twenty first century The fourth edition of this book has been completely updated with a substantial new chapter that covers the period from the great recession of 2008 through to 2020 In this chapter Smith describes the fallout of the financial crisis how Stephen Harper's government restricted labour rights the rise of the gig economy and precarious work and the continued de industrialization in the private sector These pressures contributed to fracturing the movement as when Unifor the largest private sector union split from the Canadian Labour Congress the established house of labour Through it all rank and file union members have fought for better conditions for all workers including through campaigns like the fight for a 15 minimum wage The Canadian Labour Movement is the definitive book for anyone interested in understanding the origins achievements and challenges of the labour and social justice movements in Canada **Risks, Dangers, and Rewards in the Nova Scotia Offshore Fishery** Marian Binkley, 1995-09-27 According to Labour Canada workers in the offshore fishery are more likely to be injured than workers in mining construction or forestry Yet until recently these casualties at sea have been largely ignored by government and labour organizations Risks Dangers and Rewards in the Nova Scotia Offshore Fishery

describes the hidden cost paid by workers in the Nova Scotia offshore fishery a cost measured not in dollars and cents but in deaths and injuries In this comprehensive study Marian Binkley documents the level of risk and assesses the general health and stress level of workers in the Nova Scotia offshore fishery She considers shipboard working environment stress accidents injuries and general health safety awareness job satisfaction and family life and the impact on working conditions of government resource policies and companies scientific management strategies Using statistical analysis participant observation surveys and interviews Binkley establishes that factors such as technological developments management changes and home and community life affect the immediate work experience of fishers and can increase the dangers of an already hazardous occupation

Canadian History: Confederation to the present Martin Brook Taylor,Doug Owsam,1994-01-01 In these two volumes which replace the Reader s Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover

A Sociology of Crime Peter Eglin,Stephen Hester,2015-09-04 The authors take three particular sociological perspectives and use them to offer a distinct and critical reading of criminology highlighting the ways that crime is first and foremost a matter of social definition They provide a good introductory text which will be of great value to students

contribution to the evolving field of labour studies in Canada this cohesive collection of essays analyzes the daily experiences of people working across Canada over more than two hundred years Honest in its depictions of the historical complexities of daily life *Working Lives* raises issues in the writing of Canadian working class history especially working class realism and how it is eventually inscribed into Canada's public history Thoughtfully reflecting on the ways in which workers interact with the past Heron discusses the important role historians and museums play in remembering the adversity and milestones experienced by Canada's working class

Disabling Barriers Ravi Malhotra, Benjamin Isitt, 2017-10-15 *Disabling Barriers* analyzes issues relating to disability at different moments in Canadian and American history In this volume legal scholars historians and disability rights activists demonstrate that disabled people can change their social status by transforming the political and legal discourse surrounding disablement Employing tools from the fields of law and history this original contribution explores how disabled people have been portrayed and treated in a variety of contexts including within the labour market the workers compensation system the immigration process and the legal system both as litigants and as lawyers It deepens our knowledge of the role of people with disabilities within social movements in disability history The contributors encourage us to rethink our understanding of both the systemic barriers disabled people face and the capacity of disabled people to effect positive societal change

Bullying in the Arts Dr Anne-Marie Quigg, 2012-08-28 *Diva Prima Donna Maestro Virtuoso* creative geniuses with the ability to deliver artistic excellence However this perception can serve to tilt the balance of power in relationships and to substantiate the notion of artistic temperament the Master is always right and the Diva must have her way The artistic genius may be hell to work with but the end result the art is exceptional so behaviour deemed unacceptable in normal circumstances must be tolerated If the corporate culture in the arts is in thrall to the concept of the artistic genius then across the various disciplines within the creative sector the prevailing mentality may be subscribing to a set of values that allows even directly encourages behaviour and employment conditions that are abusive *Bullying in the Arts* argues that this mindset can have a profoundly negative effect in performing arts organisations permitting managers and other staff to ignore bullying behaviour as long as the show goes on Researchers in a range of disciplines and fields have studied workplace bullying and having witnessed bullying in a number of different arts organisations Anne Marie Quigg researched whether the behaviour represented isolated rare occurrences in specific creative

environments or if it was indicative of a more widespread problem in the arts and cultural sector She discovered the highest level of bullying recorded in any single employment sector in the UK Bullying in the Arts reveals Dr Quigg s findings including the personal organisational legal and economic consequences of bullying behaviour Looking at the experiences of countries such as Australia Canada France Sweden and the United States this book challenges the notion that the arts are beyond the limitations of the ordinary milieu exempt from the rules and regulations governing the treatment of employees Arts managers and professionals teachers students and researchers in the arts world and all those in management or management education will find here a new model centred on management responses to bullying behaviour which demonstrates the beneficial effect that knowledgeable skilled action can have on the outcome of bullying incidents

Beyond Testimony and Trauma Steven High,2015-03-15 Survivors of terrible events are often portrayed as unsung heroes or tragic victims but rarely as complex human beings whose lives extend beyond the stories they have told Beyond Testimony and Trauma considers other ways to engage with survivors and their accounts based on insights gained from long term oral history projects in a variety of contexts including factory closures industrial injury eugenics and forced sterilization the Holocaust genocide in Rwanda and Cambodia Argentinian torture camps the Yugoslav Wars and Jewish emigration from the Maghreb The contributors all innovators in the field of oral history include Henry Greenspan who provides reflections from forty years of listening to Holocaust survivors as well as an insightful afterword They demonstrate that through deep listening long term relationship building and collaborative research design it is possible to move beyond the problematic aspects of testimony to shine light on the more nuanced lives of survivors of mass violence In the process they offer alternative approaches to the collection of oral history that will shake the foundations of current historiographical practice

Women and Gendered Violence in Canada Chris Bruckert,Tuulia Law,2018-01-01 Violence against women is usually framed as an issue of interpersonal violence perpetuated by men While domestic violence and sexual assault are significant social problems such a narrow framing obscures the diversity of women s experience fails to illuminate the role social structures play and excludes discussions of workplace and state violence By drawing on a range of theoretical traditions emerging from feminism criminology and sociology Women and Gendered Violence in Canada significantly expands the conversation on violence against women The first section of the book develops the conceptual and contextual framework that informs the remainder of the text and the following three sections are organized around types of victimization interpersonal labour site and state Each chapter ends with lists of suggested activities and first person narratives are integrated throughout to personalize the material and issues being examined
