Office of Technology Assessment,1984 **Cambridge Handbook of Psychology, Health and Medicine** Susan Ayers,Andrew Baum,Chris McManus,Stanton Newman,Kenneth Wallston,John Weinman,Robert West,2007-08-23 Health psychology is a rapidly expanding discipline at the interface of psychology and clinical medicine This new edition is fully reworked and revised offering an entirely up to date comprehensive accessible one stop resource for clinical psychologists mental health professionals and specialists in health related matters There are two new editors Susan Ayers from the University of Sussex and Kenneth Wallston from Vanderbilt University Medical Center The prestigious editorial team and their international interdisciplinary cast of authors have reconceptualised their much acclaimed handbook The book is now in two parts part I covers psychological aspects of health and illness assessments interventions and healthcare practice Part II covers medical matters listed in alphabetical order Among the many new topics added are diet and health ethnicity and health clinical interviewing mood assessment communicating risk medical interviewing diagnostic procedures organ donation IVF MMR HRT sleep disorders skin disorders depression and anxiety disorders **Compendium of HHS Evaluations and Relevant Other Studies** HHS Evaluation Documentation Center (U.S.),1985 **Hospital-Based Health Technology Assessment** Laura Sampietro-Colom,Janet Martin,2017-01-23 A timely work describing how localized hospital based health technology assessment HB HTA complements general arms length HTA agency efforts and what has been the collective global impact of HB HTA across the globe While HB HTA has gained significant momentum over the past few years expertise in the field and information on the operation and organization of HB HTA has been scattered This book serves to bring this information together to inform those who are currently working in the field of HTA at the hospital regional national or global level In addition this book is intended for decision makers and policy makers with a stake in determining the uptake and decommissioning of new and established technologies in the hospital setting HTA has

traditionally been performed at the National Regional level by HTA Agencies typically linked to governments Yet hospitals are the main entry door for most health technologies HTs Hospital decision makers must undertake multiple high stakes investment and disinvestment decisions annually for innovative HTs usually without adequate information Despite the existence of arms length HTA Agencies inadequate information is available to hospital decision makers either because relevant HTA reports are not yet released at the time of entry of new technologies to the field or because even when the report exists the information contained is insufficient to clarify the contextualized informational needs of hospital decision makers Therefore there has recently been a rising trend toward hospital based HTA units and programs These units programs complement the work of National Regional HTA Agencies by providing the key and relevant evidence needed by hospital decision makers in their specific hospital context and within required decision making timelines The emergence of HB HTA is creating a comprehensive HTA ecosystem across health care levels which creates better bridges for knowledge translation through relevance and timeliness
