EVALUATION AND EDUCATIONAL

PROGRAMMING OF STUDENTS WITH DEAFBLINDNESS AND SEVERE DISABILITIES Carroll J. Jones, 2001-01-01

The special education area of deafblind severe disabilities is a highly specialized area involving a close working relationship among medical and educational professionals. In this book, author Jones presents a very complete package of information for the educator of children with severe disabilities. The book includes detailed diagnostic information so that the teacher will understand the physical, mental, social, and educational status of the student. The materials allow the teacher to plan for skill development based on the specific deficits of the child in relation to the skills needed. The main features of this new Second Edition remain to provide a teacher training text and resource volume for teachers and other professionals serving not only students with deafblindness and severe disabilities but also children of any disability functioning within the sensorimotor stage of development. The new edition also provides under one cover theoretical background information, medical information, diagnostic information, and specific instructional information for classroom teachers and related service professionals to use in determining functional abilities for program planning and writing IEPs, collecting data to monitor IEPs, and ideas for hands-on materials that teachers can create and use for instruction in their classrooms. Each chapter begins with a brief outline, discusses background, medical information, and theory, discusses evaluation, diagnosis, programming, and IEP monitoring, and ends with a summary. Also included are the new research and developments in the field and an expanded view of motor skills. Tables have been reformatted at the back of each chapter. A major addition to this text is the focus on Snoezelen, which includes developing a Snoezelen resource room, designing the room with placement of the special materials, and specific ways of using the Snoezelen room and the sensory stimulation materials for relaxation, leisure, and enjoyment.

Teaching

Exceptional Children Mojdeh Bayat, 2016-11-10 Teaching Exceptional Children is an ideal textbook for introductory graduate and undergraduate courses on early childhood special education and teaching in inclusive classrooms. Bayat's clear and accessible writing, a visually appealing design, and focused pedagogy in each chapter help make it possible to cover a significant amount of material. This powerful text identifies specific behavioral characteristics and presents theoretical information grounded in neuroscience and child development research for a wide range of disabilities. Research-based best practices for effectively working with children with various disabilities in inclusive classrooms are provided in each chapter. The second edition has been fully updated based on the DSM 5 and includes new sections on contemporary issues in inclusion of children with disabilities in early childhood classrooms, such as challenging behaviors, using technology at risk, children promoting mental health, and family issues. A robust pedagogical program along with online resources for instructors and students provides full support, including Chapter Objectives and Key Terms, help frame each chapter, Discussion, Critical

Thinking Essay Short Answer and Review Questions at the beginning throughout and concluding chapters prompt students to fully engage with the material Homework Field Assignments provide opportunities for students to apply their knowledge to real world situations Real Life Vignettes illustrate concepts in action Color Photos Figures and Tables clarify concepts in a visually engaging way Recommended Resources and References offer guidance for further study The companion website <http://routledge textbooks.com/textbooks/9781138802209> includes instructor resources for teaching and planning including an Instructor's Manual with additional ideas for assignments and projects web links and video links with reflection questions a test bank and PowerPoint lecture slides The site also includes tools for students to engage with and master the concepts and terminology introduced in the book

Understanding Assessment and Evaluation in Early Childhood Education Dominic F. Gullo, 2005 This bestselling book is still the best choice for helping early childhood teachers understand the process of assessment and evaluation to benefit young children With the advent of the No Child Left Behind Act testing accountability and standards are now pervasive throughout early childhood education Completely revised to address the issues that have been raised by these new policies the Second Edition features completely new chapters on assessment of children from culturally and linguistically diverse backgrounds addressing the new makeup of today's classroom assessment of children with special needs focusing on the relationship among assessment curriculum and instruction and the addition of a helpful glossary of terms and an annotated listing of assessment instruments used in early childhood education
