Assessing Democracy Assistance The Case Of Romania:

Assessing Democracy Assistance Thomas Carothers, 2013-01-25 In recent years assistance aimed at promoting democracy abroad has become a major component of U S foreign aid and of the U S government s post Cold War policy of seeking to enlarge the international community of democratic nations Despite its rapid growth however democracy assistance remains poorly understood in practice and its value is frequently questioned This landmark study an examination of U S democracy assistance efforts in Romania is the first comprehensive analysis of the workings and failings of U S democracy assistance in one country Based on the author s extensive field research the study provides widely applicable answers to key questions about the value strategies methods and future of such assistance Democracy Assistance Peter Burnell, 2013-10-23 This examination of how Western governments support democracy worldwide considers how countries use this aid Attention is paid to post conflict situations and semi authoritarian regimes where democratization has stalled and international support of democratic decentralization is assessed **Romania Since 1989** Henry F. Carey, 2004-01-01 The most comprehensive study of Romanian politics ever published abroad this volume represents an effort to collect and analyze data on the complex problems of Romania s journey from sultanistic national communism to a yet unreached democratic government Theft of a Nation Tom Gallagher, 2005 Tom Gallagher s analysis of the largest country in the Balkans focuses upon its efforts to transform its image At the same time many of the key legacies of the Ceausescu regime remain intact The success of NATO expansion and European enlargement depend upon the outcomes of necessary reforms in Romania

Funding Democratization Peter J. Burnell, Alan Ware, 1998 Comprises 11 contributions exploring issues in the political finances of emerging democracies The contributors look at funding issues in Brazil Russia South Africa Spain and the regions of east Asia and east central Europe Several contributors also explore what can be learned from the history of political finance in the established democracies of western Europe and North America Of interest to students of political parties electoral politics and democratization studies as well as researchers and specialist observers of the countries and systems covered Distributed by St Martin s Press Annotation copyrighted by Book News Inc Portland OR **Globalization, Power, and Democracy** Marc F. Plattner, Aleksander Smolar, 2004-01-28 Essays exploring a world dramatically transformed by the collapse of communism and the prospects for democracy in that realigned reality The breakup of the Soviet Union s external empire in Eastern Europe soon followed by the demise of the USSR itself destroyed the bipolar structure that had characterized world politics for almost half a century But while the dramatic collapse of communism left no room for doubt that the era of the Cold War had come to an end there was very little agreement about the nature of the new international order being born This book explores the emerging post Cold War international system and its implications for the future expansion and consolidation of democracy Bringing together both experts on international relations and scholars of democracy from Europe North America and Asia it examines the link between these two subjects in a way that is rarely done

While a large literature has emerged in recent years on the effects of democracy on international relations the debate over what is often called the theory of democratic peace the authors of this volume instead examine the other side of this relationship the impact of the international system on the prospects for democracy Contributors Zbigniew Brzezinski Center for Strategic and International Studies Robert Cooper Defence and Overseas Secretariat in the Cabinet Office London Jean Marie Gu henno Institut des Hautes Etudes de D fense Nationale Paris Samuel P Huntington Harvard University Robert Kagan Carnegie Endowment for International Peace Ethan B Kapstein University of Minnesota Kyung Won Kim Institute of Social Sciences Jacques Rupnik Fondation Nationale des Sciences Politiques Paris Dimitri Landa University of Minnesota Adam Daniel Rotfeld Stockholm International Peace Research Institute Stockholm Philippe C Schmitter European University Institute Florence

International Election Observation in the Commonwealth Caribbean Lisa Ann Vasciannie, 2017-09-15

This book examines the practice of international election observation in a Caribbean context It presents a survey of the Commonwealth Caribbean perspective and a concise case study of Guyana between 1964 and 2015 This research traces the roots of election observation and how this practice became integrated into the landscape of Caribbean electoral politics More specifically the study examines the process by which election observers have become key actors in elections in the Commonwealth Caribbean One of the issues the book contemplates is why Caribbean countries accept the imposition of observation within the context of sovereignty The case of Guyana and other Anglophone Caribbean states shows the costs of not having observers have been multidimensional and have eclipsed concerns of respecting state sovereignty

Imitation and Politics Wade Jacoby,2001 Following World War II a poorly funded piecemeal effort to transfer British and American institutions into West Germany resulted in many positive changes for that nation's citizens After reunification however a more ambitious well funded and systematic effort to establish West German institutions in the former GDR has been less effective Through a close analysis of these two cases Wade Jacoby explores the conditions under which one society can serve as a model for the reshaping of another In the initial transfer Jacoby finds Allied occupying forces sought to build institutions in Germany that were the functional equivalents of ones they valued at home They

encouraged the development of selected German organizations that became co architects of the postwar society Several decades later by contrast policymakers in Bonn used exact rather than functional imitation and they ignored regional interests when redesigning East German society For both cases Jacoby focuses on attempts to reform industrial relations and secondary education For innovations to be pulled in from abroad Jacoby argues local civic groups must participate in and benefit from the institution building process In addition the state imposing the transfer must have a flexible strategy By looking at international examples Jacoby provides further evidence that political imitation is at heart a process of coalition building

Adapting Legal Cultures David Nelken, Johannes Feest, 2001-11 This book looks at the theory and practice of legal borrowing and adaptation in different areas of the world and offers a range of valuable insights

Democratic Consolidation in Eastern Europe: Volume 2: International and Transnational Factors Jan Zielonka, Alex Pravda, 2001-06-14 This is the second volume in a two volume series of books on democratic consolidation in Eastern Europe The first volume focused on the issue of institutional engineering This second volume analyses the external parameters of democratic consolidation in thirteen Eastern European countries how different international actors and various economic cultural and security types of transnational pressures have shaped democratic politics in the region The aim is to contrast a set of democracy theories with empirical evidence accumulated in Eastern Europe over the last ten years The volume tries to avoid complex debates about definitions methods and the uses and misuses of comparative research Instead it seeks to establish what has really happened

in the region and which of the existing theories are helpful in explaining these developments The volume is divided into two parts The first part presents a conceptual and comparative frame of analysis the second consists of detailed studies of individual countries undergoing democratic consolidation Case study chapters deal with the following countries Estonia and Latvia Hungary Poland the Czech Republic Slovakia Romania Bulgaria and Macedonia the states of former Yugoslavia Belarus and Ukraine and finally Russia The concluding chapter identifies a set of variables responsible for the enormous impact of external factors on democratic consolidation in Eastern Europe It conceptualises the interplay of internal and external factors impinging upon democracy and shows the interplay of different positive and negative types of external pressures It also evaluates the conscious Western effort to craft or engineer democracy in Eastern Europe *Nationalism and Ethnic Conflict, revised edition* Michael E. Brown, Owen R. Cote, Jr., Sean M. Lynn-Jones, Steven E. Miller, 2001-09-14 Understanding the roots and causes of ethnic animosity analyses of recent events in Bosnia Kosovo Rwanda Somalia and the former Soviet Union Most recent wars have been complex and bloody internal conflicts driven to a significant degree by nationalism and ethnic animosity Since the end of the Cold War dozens of wars in Bosnia Kosovo Rwanda Somalia the former Soviet Union and elsewhere have killed or displaced millions of people Understanding and controlling these wars has become one of the most important and frustrating tasks for scholars and political leaders This revised and expanded edition of *Nationalism and Ethnic Conflict* contains essays from some of the world's leading analysts of nationalism ethnic conflict and internal war The essays from the first edition have been updated and supplemented by analyses of recent conflicts and new research on the resolution of ethnic and civil wars The first part of the book addresses the roots of nationalistic and ethnic wars focusing in particular on the former Yugoslavia The second part assesses options for international action including the use of force and the deployment of peacekeeping troops The third part examines political challenges that often complicate attempts to prevent or end internal conflicts including refugee flows and the special difficulties of resolving civil wars

Exporting Democracy Peter J. Schraeder, 2002 In recent years debates within academic and policymaking circles have gradually shifted from a Cold War focus on whether democracy constitutes the best form of governance to the question of whether and to what degree international actors should be actively involved in democracy promotion This book offers the first comprehensive analysis of international efforts to promote democracy during the post World War II period with an emphasis on developments since 1989 The authors assess the efforts of major industrialized democracies multilateral actors and NGOs They find that the success of these endeavors is constrained by several realities ranging from the often significant gap between the rhetoric and the reality of actual policies to the dilemma that occurs when the goal of democracy clashes with other foreign policy interests The first comprehensive analysis of international efforts to promote democracy during the post World War II period with an emphasis on developments since 1989 *Transitions to Democracy* Kathryn Stoner, Michael McFaul, 2013-04-15 Fifteen case studies by scholars and practitioners demonstrate the synergy between

domestic and international influences that can precipitate democratic transitions As demonstrated by current events in Tunisia and Egypt oppressive regimes are rarely immune to their citizens desire for democratic government Of course desire is always tempered by reality therefore how democratic demands are made manifest is a critical source of study for both political scientists and foreign policy makers What issues and consequences surround the fall of a government what type of regime replaces it and to what extent are these efforts successful Kathryn Stoner and Michael McFaul have created an accessible book of fifteen case studies from around the world that will help students understand these complex issues Their model builds upon Guillermo O Donnell Philippe C Schmitter and Laurence Whitehead s classic work Transitions from Authoritarian Rule using a rubric of four identifying factors that can be applied to each case study making comparison relatively easy Transitions to Democracy yields strong comparisons and insights For instance the study reveals that efforts led by the elite and involving the military are generally unsuccessful whereas mass mobilization civic groups and new media have become significant factors in supporting and sustaining democratic actors This collection of writings by scholars and practitioners is organized into three parts successful transitions incremental transitions and failed transitions Extensive primary research and a rubric that can be applied to burgeoning democracies offer readers valuable tools and information
