Chicano Empowerment and Bilingual Education Armando L. Trujillo, 2014-02-25 First published in 1999 This study looks at the relationship between the quest for Chicano community empowerment in the Winter Garden region the development and implementation of the bilingual cultural education program in Crystal City Texas and bilingual education policy change The Hispanic Population of the United States Frank D. Bean, 1988 *The Chicano Experience* Alfredo Mirandé, 2014-02-28 Mirandé offers a detailed examination of Chicano social history and culture that includes studies of Chicano labor and the economy the Mexican immigrant and the U S Mexico border conflict the evolution of Chicano criminality the American educational system and its impact on Chicano culture the tensions between the institutional Church and Chicanos and the myths and misconceptions of machismo Latinos in a Changing US Economy Rebecca Morales, Frank Bonilla, 1993-02-25 The contributors identify the increasing differences in income and social status between rich and poor Anglos and Latinos men and women immigrant and native born and suggest policy options that will reverse the growth of social inequality National data as well as a series of case studies from important Latino cities such as New York Los Angeles San Antonio Chicago and Miami are presented **Mexican American Fertility Patterns** Frank D. Bean, Gray Swicegood, 2014-06-23 The Mexican American population is the fastest growing major racial ethnic group in the United States During the decade 1970 1980 the Mexican origin population increased from 4.5 million to 8.7 million persons High fertility not immigration was responsible for nearly two thirds of this growth Recent and historical evidence shows that women of Mexican origin or descent bear significantly more children than other white women in the United States Mexican American Fertility Patterns clarifies the nature and magnitude of these fertility differences by analyzing patterns of childbearing both across ethnic groups and within the Mexican American population Using data from the 1970 and 1980 U S Censuses and from the 1976 Survey of Income and Education the authors evaluate various hypotheses of cultural social demographic and or economic factors as determinants of fertility differences Empirical analyses center on the interrelationships between fertility and generational status language usage and proficiency and female education This timely report concludes that Mexican American fertility is closest to that of other whites under conditions of greater access to the opportunity structures of the society **Race and Class in the Southwest and Other Essays** Mario Barrera, 2025-09-24 In *Race and Class in the Southwest and Other Essays* Mario Barrera puts forth his seminal theory of racial inequality based on a synthesis of class and colonial analysis together with several essays and selections from Barrera's memoir that show how his thinking developed throughout his work Reprinted here for the first time after becoming a modern classic of Chicano studies *Race and Class in the Southwest* focuses on the economic foundations of inequality as they have affected Chicanos in the Southwest from the Mexican American War to the present Barrera reviews the economic history of Chicanos their relegation to a subordinate position in the labor force segmented along racial lines their displacement from the land the

effects of waves of immigration from Mexico the role of an emerging Chicano middle class and state policies designed to reproduce the subordinate status of Chicanos He reviews competing theories of racial inequality and concludes that an internal colonialism model that focuses on the institutional subordination of Chicanos offers the greatest explanatory value for understanding the political economy of Chicanos in the Southwest The editors Rodolfo D Torres and William I Robinson provide both an important historical and contextual introduction to the work as well as thorough annotation that brings the scholarship into contemporary conversation with further theoretical development and highlights Barrera s significant contribution to recent and new debates that reflect his legacy at a time of rising social inequalities political conflict and mass migration into the United States from Latin America

Beyond Nations John R. Chavez, 2009-06-29 Beyond Nations traces the evolution of peripheral ethnic homelands around the North Atlantic from before transoceanic contact to their current standing in the world political system For example Megumaage homeland of the Micmac is transformed into the French colony of Acadia then into the British colony of Nova Scotia and subsequently into the present Canadian province Centrally Professor Chavez tracks the role of colonialism in the transformation of such lands but especially the part played by federalism in moving beyond the ethnic and racial conflicts resulting from imperialism Significantly Chavez gives attention to the effects of these processes on the individual mind arguing that historically federalism has permitted the individual to sustain and balance varying ethnic loyalties regionally nationally and globally Beyond Nations concludes with a discussion of an evolving global imagination that takes into account migrations borderlands and transnational communities in an increasingly postcolonial and postnational world
