Black Economic Progress Marcus Alexis, 1988-12-31 In this document the members of the JCPS Economic Policy Task Force evaluate the effects of changing economic trends on black Americans and offer recommendations to better address the needs of black and the nation as a whole Page ix

Future Survey Annual 1990 Michael Marien, 1990-01-01 *American Economic Power* United States. Congress. Joint Economic Committee, 1991

Race, Politics, and Economic Development James Jennings, 1992-12-17 In April 1992 the world witnessed a renewal in South Central Los Angeles of the urban violence that had exploded there over a quarter of a century earlier As in the Watts rebellion of 1965 the spark that ignited the firestorm was Black rage over police brutality But in both eras the tinder was prepared by decades of social neglect and political disenfranchisement that have left the predominantly non white urban poor trapped and virtually without hope Race Politics and Economic Development examines the underlying causes of Black urban poverty and recommends means to escape the seemingly endless cycle of retributive violence that it spawns The book brings together Black activists and scholars including two former mayors of American cities to analyze the theoretical and practical problems facing the Black community in the United States The essays argue that political influence power and wealth are major factors in determining social welfare policies that both liberal and conservative policies are no longer effective in alleviating a growing human service crisis among Blacks and that political mobilisation of the Black community is absolutely critical in resolving the problem of poverty in urban America Drawing on work in the social sciences political theory and economics and also on the contributors activist experiences these essays present an agenda for the participation of grassroots Black leaders in developing and implementing urban policy

E. Franklin Frazier and Black Bourgeoisie James E. Teele, 2002-05-02 When E Franklin Frazier was elected the first black president of the American Sociological Association in 1948 he was established as the leading American scholar on the black family and was also recognized as a leading theorist on the dynamics of social change and race relations By 1948 his lengthy list of publications included over fifty articles and four major books including the acclaimed *Negro Family in the United States* Frazier was known for his thorough scholarship and his mastery of skills in both history and sociology With the publication of *Bourgeoisie Noire* in 1955 translated in 1957 as *Black Bourgeoisie* Frazier apparently set out on a different track one in which he employed his skills in a critical analysis of the black middle class The book met with mixed reviews and harsh criticism from the black middle and professional class Yet Frazier stood solidly by his argument that the black middle class was marked by conspicuous consumption wish fulfillment and a world of make believe While Frazier published four additional books after 1948 *Black Bourgeoisie* remained by far his most controversial Given his status in American sociology there has been

surprisingly little study of Frazier's work. In E. Franklin Frazier and *Black Bourgeoisie*, a group of distinguished scholars remedies that lack focusing on his often scorned *Black Bourgeoisie*. This in-depth look at Frazier's controversial publication is relevant to the growing concerns about racism problems in our cities, the limitations of affirmative action, and the promise of self-help.

Engendering Economics Zohreh Emami, Paulette I. Olson, 2003-08-29. By the 1950s, the percentage of all economic doctorates awarded to women had dropped to a record low of less than five percent. By presenting interviews with the female economists who received PhDs between 1950 and 1975, this book provides a richer understanding of the sociology of the economics profession. Their post-war experiences as family members, students, and professionals illustrate the challenges that have been faced by women, including both white and African American women, in a white male dominated profession. Engaging and insightful, the impressive scope of philosophical perspectives, career paths, research interests, feminist inclinations, and observations about the economics profession and women's place within it will appeal to anyone interested in economics, sociology, and gender studies.

Nationalism, Ethnicity, and Identity Russell F. Farnen, Nationalism, national identity, and ethnicity are cultural issues in contemporary Western societies. Problems in the United States, the Netherlands, Germany, Austria, Turkey, Poland, Croatia, the Ukraine, Hungary, and Bulgaria illustrate both large-scale internal variations in these phenomena as well as their cross-national relevance for teaching, research, and educational development on such subjects as multiculturalism, ethnic diversity, and socialization.

Economic Development in American Cities Michael I. J. Bennett, Robert P. Giloth, 2012-02-01. *Economic Development in American Cities* addresses the roles of municipal leaders and civic partners in promoting social equity by examining the experiences of five American cities in the 1990s: Austin, Cleveland, Rochester, Savannah, and Seattle. These five cities were chosen for their activist municipal administrations, robust policy agendas, and viable partnerships. Contributors familiar with each city evaluate the impact of equity investments and extract lessons for municipal leaders and policy agendas. Building on the past experiences of progressive cities, each case study city offers fresh perspectives and examples told through a rigorous analysis of socioeconomic data and program outcomes combined with engaging stories about specific municipal administrations and policy agendas.

Stuck in Place Patrick Sharkey, 2022-12-22 In the 1960s many believed that the civil rights movement s successes would foster a new era of racial equality in America Four decades later the degree of racial inequality has barely changed To understand what went wrong Patrick Sharkey argues that we have to understand what has happened to African American communities over the last several decades In Stuck in Place Sharkey describes how political decisions and social policies have led to severe disinvestment from black neighborhoods persistent segregation declining economic opportunities and a growing link between African American communities and the criminal justice system As a result neighborhood inequality that existed in the 1970s has been passed down to the current generation of African Americans Some of the most persistent forms of racial inequality such as gaps in income and test scores can only be explained by considering the neighborhoods in which black and white families have lived over multiple generations This multigenerational nature of neighborhood inequality also means that a new kind of urban policy is necessary for our nation s cities Sharkey argues for urban policies that have the potential to create transformative and sustained changes in urban communities and the families that live within them and he outlines a durable urban policy agenda to move in that direction

Transnational Companies and Security Governance Jana Hönke, 2013-08-21 This book investigates governance practiced by non state actors It analyses how multinational mining companies protect their sites in fragile contexts and what that tells us about political ordering beyond the state Based on extensive primary research in the Democratic Republic of Congo South Africa Europe and North America the book compares companies political role in the 19th and 21st centuries It demonstrates that despite a number of disturbing parallels many contemporary practices are not a reversion to the past but unique to the present The book discloses hybrid security practices with highly ambiguous effects around the sites of contemporary companies that have committed to norms of corporate social and security responsibility Companies invest in local communities and offer human rights training to security forces alongside coercive techniques of fortress protection and stability oriented clientele practice and arrangements of indirect rule The book traces this hybridity back to contradictory collective meaning systems that cross borders and structure the perceptions and choices of company managers private security officers NGO collaborators and others practitioners The book argues that hybrid security practices are not the result of an encounter between a supposed local with the liberal global

Instead this hybridity is inherent in the transnational and part and parcel of liberal transnational governance Therefore more critical reflection of global governance in practice is required These issues are sharply pertinent to liberal peacebuilding as well as global governance more broadly The book will be of interest to anyone interested in business politics and human rights critical security studies peacebuilding and statebuilding African politics and ethnographic and sociological approaches to global governance and international relations more generally **Bulletin of the Public Affairs Information Service** Public Affairs Information Service,1989 **Black Enterprise** ,1989-06 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance Race and Economic Opportunity in the Twenty-First Century Marlene Kim,2007-06-19 Examining the crucial topic of race relations this book contains contributions from a range of international contributors The authors explore the economic and social environments that play a significant role in determining economic outcomes and why racial disparities persist
