The Spirit Transcendent Mark F. Yama, 2020-04-10 What are we to make of direct spiritual experience Of accounts of going to heaven or meeting angels Traditional science would call these hallucinations or delusions Clinical psychologist Dr Mark Yama argues the opposite Through interviews with his patients he shows that underneath the visions and experiences there is a unifying spiritual reality apart from the material world One of the stories recounted in this book is the experience of a woman who could see the future In a spiritual transport she was taken to heaven where truths were revealed to her that she later discovered were already written in Gnostic scripture Another woman lived a life marked by a spiritual sensitivity that defied materialist explanation After she passed away of cancer she came to inhabit the consciousness of another of Dr Yama's patients in the form of a benign possession These stories and many others argue for a deeper reality that places spirituality on an equal footing with the material world

The Timeline of Intelligent Life on Earth Martin K. Ettington, 2022-09-06 I m

fascinated with Ancient History because there are continuous new discoveries which push back the dawn of civilization by thousands of years In the last couple of decades the discoveries at Gobekli Tepe in eastern Turkey pushed back man made structures to the time period of 9 000 11 000 B C Thousands of years before the next know civilizations existed This book includes my research on ancient sites around the world underground structures giants the destruction of civilization about 10 500 B C the real Atlantis and out of place objects which can be millions of years old With this collection of a wide variety of information I decided that what is needed is a full timeline of intelligent life on Earth from millions of years ago to the present There are a lot of gaps in this information but enough records findings and discoveries exist to propose an initial timeline of intelligent life on Earth going back hundreds of millions of years Yes I m saying intelligent life has existed on Earth that long and since humanity and even primates don t exist in those times at all aliens must have lived on the Earth at that time There are three parts to this book Part One Millions of Years Ago This includes stories of aliens existing on Earth in our history and many out of place objects made by intelligent beings and the fossil record which provides supporting evidence that intelligent life did exist at those times Part Two The Unknown Civilizations of Man Here we have evidence of structures built by man but way before any accepted records that civilization or man made constructions existed Some of these things may go back 100 000 years ago Part Three Post Ice Age Civilizations This part includes evidence that the Younger Dryas event was actually comets striking the Earth which caused major disasters and probably the destruction of civilizations about 10 500 B C My intention is that this timeline will provide a skeleton of mankind and intelligent life s early history on Earth which can be filled in overtime to become much more detailed and prove the truth of this point of view to skeptics worldwide Gossips, Gorgons and Crones Jane Caputi,1993-10 Gossips Gorgons Crones is the first comprehensive analysis of nuclear age culture and the accompanying return of female Powers Based in feminist pre patriarchal and Native American philosophies this book provides a biting critique of patriarchal practices myths and values including family values

Goddesses and Monsters Jane Caputi,2004 The essays focus upon popular culture as it is informed by ancient and current mythic images narratives personalities icons and archetypes Topics include the cult status of the serial sex killer sexual murder as a contemporary form of religious sacrifice pornography as an everyday narrative underlying not only sexism but also racism homophobia and militarism the relation of incest to nuclearism pornography and the sacred cyborg myth and subtextual presence of ancient goddess figures in contemporary narratives including that of Princess Diana
