Black Fathers In Contemporary American Society Strengths Weaknesses And Strategies For Change:

Black Fathers in Contemporary American Society Obie Clayton, Ronald B. Mincy, David Blankenhorn, 2003-08-28 The majority of African American children live in homes without their fathers but the proportion of African American children living in intact two parent families has risen significantly since 1995 *Black Fathers in Contemporary American Society* looks at father absence from two sides offering an in depth analysis of how the absence of African American fathers affects their children their relationships and society as a whole while countering the notion that father absence and family fragmentation within the African American community is inevitable Editors Obie Clayton Ronald B Mincy and David Blankenhorn lead a diverse group of contributors encompassing a range of disciplines and ideological perspectives who all agree that father absence among black families is one of the most pressing social problems today In part I the contributors offer possible explanations for the decline in marriage among African American families William Julius Wilson believes that many men who live in the inner city no longer consider marriage an option because their limited economic prospects do not enable them to provide for a family Part II considers marriage from an economic perspective emphasizing that it is in part a wealth producing institution Maggie Gallagher points out that married people earn invest and save more than single people and that when marriage rates are low in a community it is the children who suffer most In part III the contributors discuss policies to reduce absentee fatherhood Wornie Reed demonstrates how public health interventions such as personal development workshops and work related skill building services can be used to address the causes of fatherlessness Wade Horn illustrates the positive results achieved by fatherhood programs especially when held early in a man s life In the last chapter Enola Aird notes that from 1995 to 2000 the proportion of African American children living in two parent married couple homes rose from 34.8 to 38.9 percent a significant increase indicating the possible reversal of the long term shift toward black family fragmentation *Black Fathers in Contemporary American Society* provides an in depth look at a problem affecting millions of children while offering proof that the trend of father absence is not irrevocable

Race and Social Policy Sandra Edmonds Crewe, 2022-11-10 Social policy is not blind It has been at the forefront of perpetuating structural inequality in many of the systems charged with serving and protecting The impact of race on social policy is linked to historical intended and unintended patterns of discrimination that have resulted in disparate impact for many across their life course This book uses critical race theory to examine key social policies The chapters give primacy to addressing the experiences of African Americans in navigating systems that are flawed by structural racism and yet too often attribute individual pathology rather than systemic injustice to the worsening life circumstances they find themselves in Using scholarship personal and professional experiences the contributors offer valuable insight on differential treatment and the resulting missed opportunities to address historical barriers that if not addressed will continue the cycle of harm for marginalized members in society The Covid 19 pandemic along with the loss of Black lives through carceral injustices have amplified the national discourse about race and social policy Additionally critical race theory has been championed by many as a framework for understanding the structural inequalities that plague our nation Others have assailed the theory as

promoting hate guilt and divisiveness The contributors use critical race theory in combination with other theoretical frameworks to provide context for the persistent and pernicious injustices that have historically plagued society Their work offers context with the goal of policy changes aimed at eradicating systemic injustices that negatively impact quality of life Race and Social Policy is a significant new contribution to understanding and addressing systemic and structural racism and it will be of interest to researchers and advanced students of social work politics public policy and sociology This book was originally published as a special issue of the journal Social Work in Public Health

Black Mecca Zain Abdullah, 2010-09-30 The changes to U S immigration law that were instituted in 1965 have led to an influx of West African immigrants to New York creating an enclave Harlem residents now call Little Africa These immigrants are immediately recognizable as African in their wide sleeved robes and tasseled hats but most native born members of the community are unaware of the crucial role Islam plays in immigrants lives Zain Abdullah takes us inside the lives of these new immigrants and shows how they deal with being a double minority in a country where both blacks and Muslims are stigmatized Dealing with this dual identity Abdullah discovers is extraordinarily complex Some longtime residents embrace these immigrants and see their arrival as an opportunity to reclaim their African heritage while others see the immigrants as scornful invaders In turn African immigrants often take a particularly harsh view of their new neighbors buying into the worst stereotypes about American born blacks being lazy and incorrigible And while there has long been a large Muslim presence in Harlem and residents often see Islam as a force for social good African born Muslims see their Islamic identity disregarded by most of their neighbors Abdullah weaves together the stories of these African Muslims to paint a fascinating portrait of a community s efforts to carve out space for itself in a new country

Hidden in the Shadow of Truth Reginald E. Hicks, 2010-05 *Hidden in the Shadow of Truth* was written by Reginald E Hicks neither to absolve nor to indict black males for their current social condition It was written rather to provide a comprehensive and accurate explanation as to why so many black males seem to be led by the nose toward the prison doors Why is it that black juveniles consistently outpace their white Hispanic and Asian counterparts by a margin of more than 2 to 1 in the commission of murders aggravated assaults weapons law violations forcible rapes robberies and motor vehicle thefts Why is it that blacks account for only 13 percent of the total U S population but a full 41 percent of the incarcerated Hicks explains that the mentality of many black youth is a product of a very unique socialization process wherein the family the school system the peer group and the mass media have collectively failed in their responsibilities making black boys more prone to choosing the path of incarceration or enslavement through criminality In this exceptional work Reginald E Hicks presents the truth the whole truth and nothing but the truth letting the chips fall where they may **The Myth of the**
