Comparative Perspectives on Afro-Latin America Kwame Dixon, John Burdick, 2012-03-11 Comparative Perspectives on Afro Latin America offers a new dynamic discussion of the experience of blackness and cultural difference black political mobilization and state responses to Afro Latin activism throughout Latin America Its thematic organization and holistic approach set it apart as the most comprehensive and up to date survey of these populations and the issues they face currently available

No Longer Invisible: Afro-Latin Americans Today, 1995-06-01 Latin Americans of African ancestry have historically been an oppressed and neglected minority Almost all descended from slaves and numbering perhaps 125 million people they have generally been denied access to power influence or material progress While Afro Latin Americans have

frequently challenged their oppression with some success and have seen many aspects of their culture absorbed into mainstream Latin American life persistent myths of colour blind racial democracy and blanqueamiento whitening mask the insidious and often brutal reality of the discrimination they face Written by scholars from many countries No Longer Invisible charts the Afro Latin American experience from slavery to contemporary times showing the contrasts as well as the similarities across the region Intended both for specialists and for interested general readers the book makes an important contribution to the study of racism and anti racism in Latin America today The distinct but extraordinarily diverse ethnic and cultural identities of Afro Latin Americans have received little official recognition But today a growing movement is voicing pride in the Afro Latin American heritage asserting common identities and working to defend and advance collective rights This fascinating book provides a major human rights focused survey that aims to reflect and be part of that process of rediscovery and renewal Each chapter considers a particular country or subregion The authors discuss the historical background the legacy of resistance to oppression how members of the minorities see themselves their culture the contemporary experience of discrimination contrasting ethnic identities assumed by women and men collective aspirations the struggle for equality and future prospects The book also includes a wide ranging general introduction a final chapter that poses fundamental questions about comparative race relations in the Americas and beyond a regional population map and black and white photographs Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

Blackness in Latin America and the Caribbean, Volume 2 Norman E. Whitten, Arlene Torres, 1998 Shows regional Black history

Afro-Catholic Festivals in the Americas Cécile Fromont, 2019-04-24 This volume demonstrates how from the beginning of the Atlantic slave trade enslaved and free Africans in the Americas used Catholicism and Christian derived celebrations as spaces for autonomous cultural expression social organization and political empowerment Their appropriation of Catholic based celebrations calls into question the long held idea that Africans and their descendants in the diaspora either resignedly accepted Christianity or else transformed its religious rituals into syncretic objects of stealthy resistance In cities and on plantations throughout the Americas men and women of African birth or descent staged mock battles against heathens elected Christian queens and kings with great pageantry and gathered in festive rituals to express their devotion to saints Many of these traditions endure in the twenty first century The contributors to this volume draw connections between these Afro Catholic festivals observed from North America to South America and the Caribbean and their precedents in the early modern kingdom of Kongo one of the main regions of origin of men and women enslaved in the New World This transatlantic perspective offers a useful

counterpoint to the Yoruba focus prevailing in studies of African diasporic religions and reveals how Kongo infused Catholicism constituted a site for the formation of black Atlantic tradition Afro Catholic Festivals in the Americas complicates the notion of Christianity as a European tool of domination and enhances our comprehension of the formation and trajectory of black religious culture on the American continent It will be of great interest to scholars of African diaspora religion Christianity and performance In addition to the editor the contributors include Kevin Dawson Jeroen Dewulf Junia Ferreira Furtado Michael Iyanaga Dianne M Stewart Miguel A Valerio and Lisa Voigt Beyond Black and Red Matthew Restall,2005 The first study of the complex relationships among the races in Latin America after Spanish colonization *Millennial Ecuador* Norman E Whitten,2003-12 In the past decade Ecuador has seen five indigenous uprisings the emergence of the powerful Pachakutik political movement and the strengthening of the Confederation of Indigenous Nationalities of Ecuador and the Association of Black Ecuadorians all of which have contributed substantially to a new constitution proclaiming the country to be multiethnic and multicultural Furthermore January 2003 saw the inauguration of a new populist president who immediately appointed two indigenous persons to his cabinet In this volume eleven critical essays plus a lengthy introduction and a timely epilogue explore the multicultural forces that have allowed Ecuador s indigenous peoples to have such dramatic effects on the nation s political structure **The City of Musical Memory** Lise A. Waxer,2012-01-01 Winner of the ASCAP Deems Taylor Award for Popular Music Books 2002 Winner of the Society for Ethnomusicology s SEM Alan P Merriam Prize 2003 Salsa is a popular dance music developed by Puerto Ricans in New York City during the 1960s and 70s based on Afro Cuban forms By the 1980s the Colombian metropolis of Cali emerged on the global stage as an important center for salsa consumption and performance Despite their geographic distance from the Caribbean and from Hispanic Caribbean migrants in New York City Cale os people from Cali claim unity with Cubans Puerto Ricans and New York Latinos by virtue of their having adopted salsa as their own The City of Musical Memory explores this local adoption of salsa and its Afro Caribbean antecedents in relation to national and regional musical styles shedding light on salsa s spread to other Latin American cities Cali s case disputes the prevalent academic notion that live music is more real or authentic than its recorded versions since in this city salsa recordings were until recently much more important than musicians themselves and continued to be influential in the live scene This book makes valuable contributions to ongoing discussions about the place of technology in music culture and the complex negotiations of local and transnational cultural identities Africans to Spanish America Sherwin K. Bryant,Rachel Sarah O'Toole,Ben Vinson,2012-03-30 Africans to Spanish America expands the diaspora framework to include Mexico Peru Ecuador and Cuba exploring the connections and disjunctures between colonial Latin America and the African diaspora in the Spanish empires Analysis of the regions of Mexico and the Andes opens up new questions of community formation that incorporated Spanish legal strategies in secular and ecclesiastical institutions as well as articulations of multiple African identities The volume is arranged around three sub themes identity construction in the

Americas the struggle by enslaved and free people to present themselves as civilized Christian and resistant to slavery and issues of cultural exclusion and inclusion

Rites, Rights & Rhythms Michael Birenbaum Quintero, 2019 Colombia has the largest black population in the Spanish speaking world but Afro Colombians have long remained at the nation's margins Their recent irruption into the political social and cultural spheres is tied to appeals to cultural difference dramatized by the traditional music of Colombia's majority black Southern Pacific region often called currulao Yet that music remains largely unknown and unstudied despite its complexity aesthetic appeal and social importance

Rites Rights Rhythms A Genealogy of Musical Meaning in Colombia's Black Pacific is the first book length academic study of currulao inquiring into the numerous ways it has been used to praise the saints to grapple with modernization to dramatize black politics to perform the nation to generate economic development and to provide social amelioration in a context of war Author Michael Birenbaum Quintero draws on both archival and ethnographic research to trace these and other understandings of how currulao has been understood illuminating a history of struggles over the meanings of currulao that are also struggles over the meanings of blackness in Colombia Moving from the eighteenth century to the present **Rites Rights Rhythms** asks how musical meaning is made maintained and sometimes abandoned across historical contexts as varied as colonial slavery twentieth century national populism and neoliberal multiculturalism What emerges is both a rich portrait of one of the hemisphere's most important and understudied black cultures and a theory of history traced through the performative practice of currulao

The Politics of Culture in the Shadow of Capital Lisa Lowe, David Lloyd, 1997-11-17 Global in scope but refusing a familiar totalizing theoretical framework the essays in **The Politics of Culture in the Shadow of Capital** demonstrate how localized and resistant social practices including anticolonial and feminist struggles peasant revolts labor organizing and various cultural movements challenge contemporary capitalism as a highly differentiated mode of production Reworking Marxist critique these essays on Asia Latin America the Caribbean North America and Europe advance a new understanding of cultural politics within the context of transnational neocolonial capitalism This perspective contributes to an overall critique of traditional approaches to modernity development and linear liberal narratives of culture history and democratic institutions It also frames a set of alternative social practices that allows for connections to be made between feminist politics among immigrant women in Britain women of color in the United States and Muslim women in Iran Egypt Pakistan and Canada the work of subaltern studies in India the Philippines and Mexico and antiracist social movements in North and South America the Caribbean and Europe These connections displace modes of opposition traditionally defined in relation to the modern state and enable a rethinking of political practice in the era of global capitalism
