Black History And Black Identity A Call For A New Historiography:

Black History and Black Identity William D. Wright, 2002-02-28 This study contends that historians and intellectuals failed to understand the difference between race and ethnicity which has in turn impaired their ability to understand who Black people are in America The author argues that Black Americans are to be distinguished from other categories of black people in the country black Africans West Indians or Hispanics While Black people are members of the black race as are other groups of people they are a distinct ethnic group of that race This conceptual failure has hampered the ability of historians to define Black experience in America and to study it in the most accurate authentic and realistic manner possible This confusing situation is aggravated further by the fact that many scholars tend to describe Black people in an arbitrary manner as Africans African Americans Afro Americans black or Black which is insufficient for precision They sometimes downplay the historical evidence regarding African identity and the identity of Blacks in America Wright offers a new methodological basis for undertaking Black history namely the framework of historical sociology He argues that this approach will produce a more useful history for Black people and others in America **African American History**

Reconsidered Pero Gago Dagbovie, 2010 This volume establishes new perspectives on African American history The author discusses a wide range of issues and themes for understanding and analyzing African American history the 20th century African American historical enterprise and the teaching of African American history for the 21st century I Lay This Body Down Lonneke Geerlings, 2022-07-15 Rosey E Pool 1905-71 did not live an ordinary life She witnessed the rise of the Nazis in Berlin firsthand tutored Anne Frank operated in a Jewish resistance group escaped from a Nazi transit camp published African American poets in Europe operated a London salon with her partner witnessed independence movements in Nigeria and Senegal and took part in the American civil rights movement I Lay This Body Down is the first study of Pool and her remarkable transatlantic life A translator educator and anthologist of African American poetry Pool corresponded after World War II with Langston Hughes W E B Du Bois Naomi Long Madgett Owen Dodson Gordon Heath and others who fostered her involvement in the Black Arts Movement both in Britain and the United States Though Pool was often cast as an outsider one poet was amazed that one so removed was interested in the Black cause she saw herself as part of a transatlantic struggle against oppression For Pool the yellow Jew stars the Nazis forced her to wear were our darker skins Rosey E Pool's life allows Lonneke Geerlings to explore intersections of European and American history As a Holocaust survivor and activist fighting against segregation in the Deep South Pool connects stories that are often studied and told in isolation Her life helps us understand the intersecting histories of Jewish Europe and Black America but it also allows us to see how Pool dealt with tragedy trauma and loss At its core this book is about resilience and hope Indeed Pool's life illuminates the power of reinvention for dealing with both challenging personal circumstances and the traumas of global history Critical Reflections on Black History William D. Wright, 2002-03-30 Wright presents this collection of six essays on aspects of black

history Each essay is based upon a critical historical methodology that is comprised of among other things a racial analysis an intersectional analysis rigorous logic conceptual integrity and a critical analysis of ideas words and images Critical of the romantic approach to the subject Wright seeks to uncover a deeper analysis knowledge and truth regarding aspects of black history even when it involves the presentation of material and viewpoints that some might find objectionable He predicates these pieces on the idea that history is still a valuable subject firmly rejecting the postmodern view that it has lost its validity Wright demonstrates that black history is a vital and necessary subject not only for black people but for all Americans A critical black history is itself Wright contends a device to evaluate American history in a critical manner to get into the subject more deeply and to adduce deeper knowledge and truths about it These essays show the author's interest in strengthening that critical capacity of black historical writing and his belief that this is a primary and necessary means to maintain the viability and productivity of the academic discipline and to ward off its detractors
