Black in Colombia Enelia Paz Gómez, 1985 The View from ChocÃ3 Karen Juanita Carrillo, 2010-04-13 The View from Choc The Afro Colombian past their lives in the present and their hopes for the future is an introduction to the lives of Blacks in Colombia Afro Colombians live in a resource rich yet remote region of Colombia They only recently won recognition as one of that nation's distinct ethnic groups But Colombia's on going civil war has led many Afro Colombians to reach even farther than their nation's borders for recognition many have made their way to the United States as refugees and as political activists working for peace in their homeland The View from Choc introduces Americans to the lives and struggles of a too Blackness in Latin America and the Caribbean, Volume 1 Norman E. long neglected community of Colombian Blacks Whitten, Arlene Torres, 1998-10-22 Shows regional Black history Blackness and Race Mixture Peter Wade, 1993 The idea of racial democracy in Latin American populations has traditionally assumed that class is a more significant factor than race But despite the emergence of a mestizo class people who are culturally and racially mixed in the broadest sense there remains a complex discrimination against blacks To explain this phenomenon Peter Wade focuses on the black population of the Choco province in Colombia an area where the typical Latin American ambiguity surrounding racial identity is countered by the more definitive black identity of the local inhabitants Drawing on extensive anthropological fieldwork Wade shows how the concept of blackness and discrimination are deeply embedded in different social levels and contexts from region to neighborhood and from politics and economics to housing marriage music and personal identity By uncovering what blackness means to the Chocoanos and how blackness is reproduced and transformed in different contexts Wade brings to the study of race a perspective sophisticated enough to account for the real complexities of blackness mixedness and whiteness the conflicts among race ethnicity and national ideologies the development and transformation of cultural identities the persistence of racial inequality and racism and the constitution of society through topography and regionality

Individual chapters take on maps of every size and scale and from a wide variety of mapmakers from the hand drawn maps of Native Americans to those by famed explorers such as Alexander von Humboldt to those produced in today s newspapers and magazines for the general public The maps collected here and the interpretations that accompany them provide an excellent source to help readers better understand how Latin American countries regions provinces and municipalities came to be defined measured organized occupied settled disputed and understood that is how they came to have specific meanings to specific people at specific moments in time The first book to deal with the broad sweep of mapping activities across Latin America this lavishly illustrated volume will be required reading for students and scholars of geography and Latin American history and anyone interested in understanding the significance of maps in human cultures and societies Catalogue of the Birds in the British Museum: Passeriformes, or perching birds.
