Black Liberation in Conservative America Manning Marable, 1997 Marable contests what he considers to be an ineffectual emphasis on electoral politics and argues that the future of black liberation will have to be fought out on activist terrain This work offers invaluable theoretical and practical guidance to scholars and activists alike Angela Y Davis A bold collection of essays by one of America's most prominent scholar activists Black Liberation in Conservative America defines the crises and challenges confronting black America on the eve of the twenty first century African Americans in Conservative Movements Louis G. Prisoek, 2018-05-23 Providing an expansive view of the making and meaning of African American conservatism this volume examines the phenomenon in four spheres the political realm the academic world the black church and grass roots activism movements In his analysis of their activities in these realms Louis Prisoek examines the challenges African American conservatives face as they operate within the context of largely white conservatism At the same time that African American conservatives challenge the white conservative movement's principle of color blindness they are accused of being racial mascots or tokens from those outside of it Prisoek unwinds the intricacies of black conservatives relationships to both the wider conservative movement and the everyday life experiences of black Americans showing that they are as vulnerable to the inescapability of race as any other individual in a racialized America **Black Conservatives in the United States** Godfrey Mwakikagile, 2006 This work is an examination of the black conservative phenomenon in the United States in contemporary times The author looks at the role black conservatives play in American politics and at their attempts to have an impact on the lives of black Americans also known as African Americans Subjects covered include perspectives black conservatives share on issues such as affirmative action racism poverty self reliance welfare drugs crime and illegitimacy among blacks the criminal justice system and how it affects blacks and why black conservatives differ with other blacks on those issues It is also a critique of The Bell Curve a book that has inflamed passions especially among blacks and of the views some black conservatives have expressed on racial IQ differences which have fueled debate on this highly explosive subject The author also looks at the policy and philosophical differences and at differences in perceptions between black conservatives and their brethren in the black community Why do black conservatives oppose affirmative action Why do they support the Republican party Why don't they have much support in the black community Those are just some of the issues addressed in this book The author writes from personal experience after living and interacting with African Americans of all ideological stripes for more than 30 years His interest in Black America spans the ideological spectrum and covers other aspects of life including relations between Africans and African Americans He has written a book about those relations in which he also addresses the black conservative phenomenon in the United States Like all his others books Black Conservatives in the United States is intended for members of the general public and the academic community How Capitalism Underdeveloped Black America Manning Marable, 2000 Contents Preface How Capitalism

**God and Human Dignity** Rufus Burrow Jr., 1992-01-31 Although countless books have been devoted to the life and work of Martin Luther King Jr few if any have focused on King's appropriation of and contribution to the intellectual tradition of personalism Emerging as a philosophical movement in the early 1900s personalism is a type of philosophical idealism that

has a number of affinities with Christianity such as a focus on a personal God and the sanctity of persons Burrow points to similarities and dissimilarities between personalism and the social gospel movement with its call to churchgoers to involve themselves in the welfare of both individuals and society He argues that King s adoption of personalism represented the fusion of his black Christian faith and his commitment not only to the social gospel of Rauschenbusch but most especially to the social gospelism practiced by his grandfather father and black preacher scholars at Morehouse College Burrow devotes much needed attention both to King s conviction that the universe is value infused and to the implications of this ideology for King s views on human dignity and his concept of the Beloved Community Burrow also sheds light on King s doctrine of God He contends that King s view of God has been uncritically and erroneously relegated by black liberation theologians to the general category of theistic absolutism and he offers corrections to what he believes are misinterpretations of this and other aspects of King s thought He concludes with an application of King s personalism to present day social problems particularly as they pertain to violence in the black community This book is a useful and fresh contribution to our understanding of the life and thought of Martin Luther King Jr It will be read with interest by ethicists theologians philosophers and social historians

Rabaka, 2008-04-29 W E B Du Bois and the Problems of the Twenty First Century utilizes Du Bois's thought and texts to develop an informed critical theory of contemporary society. This book broadens the base of critical theory making it more multicultural, transethnic, transgender, and non-Western European philosophy focused by placing it in dialogue with theory and phenomena that had been heretofore woefully neglected. Taking the preeminent black intellectual of the twentieth century as his primary point of departure, Reiland Rabaka identifies and analyzes several key contributions that Du Bois and the black racial tradition offer to those interested in redeveloping and racially revising contemporary critical social theory. With chapters on critical race theory, postcolonial theory, feminism, and Marxism, this volume builds bridges from Africana Studies to disparate discursive communities, accessibly demonstrating Du Bois's and the black radical tradition's contributions to and the potential impact on a wide range of new social scientific research and radical political struggles.
