**New Approaches to Inequality Research with Youth** Eve Tuck, K. Wayne Yang, Jade Nixon, 2023-12-22 Those engaging in research to reduce youth inequality know that robust and resonant theories are needed alongside strong methods to study racialization, racism, and the consequences of racial categorization. This edited volume shares contributors' first-person narrations of some of the hard-fought learnings and challenges of breaking from the traditions of their disciplinary fields and finding new and reclaimed ways to think about race. Featuring contributors' narrations of how they came to engage with compelling theories of Blackness, Indigeneity, and/or racialization, and how such theories inform the social science research they do with young people, this timely and consequential text tells a multi-disciplinary story about the careful reading and co-theorizing that is required to refuse universal theories of Blackness, Indigeneity, and racialization.

**The Cultural Turn in U. S. History** James W. Cook, Lawrence B. Glickman, Michael O'Malley, 2012-06-12 A definitive account of one of the most dominant trends in recent historical writing, *The Cultural Turn in U. S. History* takes stock of the field at the same time as it showcases exemplars of its practice. The first of this volume's three distinct sections offers a comprehensive genealogy of American cultural history, tracing its multifaceted origins, defining debates, and intersections with adjacent fields. The second section comprises previously unpublished essays by a distinguished roster of contributors who illuminate the discipline's rich potential by plumbing topics that range from nineteenth-century anxieties about greenback dollars to confidence games in 1920s Harlem, from Shirley Temple's career to the story of a Chicano community in San Diego that created a public park under a local freeway. Featuring an equally wide-ranging selection of pieces that meditate on the future of the field, the final section explores such subjects as the different strains of cultural history, its relationships with arenas from mass entertainment to public policy, and the ways it has been shaped by catastrophe. Taken together, these essays represent a watershed moment in the life of a discipline harnessing its vitality to offer a glimpse of the shape it will take in years to come.
